Section 2. Section 84-1503, R.C.M. 1947, is amended to read as follows:

**"84-1503. Segregation of income within and without state.**

*(1) Any corporation having income from business activity which is taxable both within and without this state shall allocate and apportion its net income as provided in this section.*

*(a) A corporation engaged in a unitary business within and without Montana must apportion its business income as provided for under section 2, subsection 9 of this act. A business is unitary when the operation of the business within the state is dependent upon or contributory to the operation of the business outside the state or if the units of the business within and without the state are closely allied and not capable of separate maintenance as independent business.*

*(b) A corporation not engaged in a unitary business must allocate its*

*business income by means of separate accounting methods, provided its books and records are so kept that the income and expenses attributable to business operations within the state can be properly segregated from total income and expense. If the corporation's books and records do not permit such proper segregation, its business income must be apportioned according to the provisions of section 2, subsection 9 of this act.*

(2) *Definitions:*

(a) *"Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.*

(b) *"Nonbusiness income" means all income other than business income.*

(c) *"Commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.*

(d) *"Compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services.*

(e) *"Sales" means all gross receipts of the taxpayer not allocated under paragraphs 4 through 8 of this section.*

(f) *"State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political subdivision thereof.*

(3) *For the purposes of allocation and apportionment of income, a corporation is taxable in another state if:*

(a) *by reason of the corporation's business activities carried on in that state it is subjected to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax, or*

(b) *that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.*

(4) *Rents and royalties from real or tangible personal property, capital gains, interest, dividends or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in paragraphs 5 through 8 of this section.*

(5) (a) *Net rents and royalties from real property located in this state are allocable to this state.*

(b) *Net rents and royalties from tangible personal property are allocable to this state:*

(i) *if and to the extent that the property is utilized in this state, or*

(ii) *in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.*

*(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.*

*(6) (a) Capital gains and losses from sales of real property located in this state are allocable to this state.*

*(b) Capital gains and losses from sales of tangible personal property are allocable to this state if:*

*(i) the property had a situs in this state at the time of the sale, or*

*(ii) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.*

*(c) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.*

*(7) Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.*

*(8) (a) Patent and copyright royalties are allocable to this state:*

*(i) if and to the extent that the patent or copyright is utilized by the payer in this state, or*

*(ii) if and to the extent that the patent or copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.*

*(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state: If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.*

*(c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.*

*(9) All business income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor, and the denominator of which is three (3).*

*(10) The property factor is a fraction, the numerator of which is the*

*average value of the taxpayer's real and tangible personal property owned or rented and used in this state in the production of business income during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used in the production of business income during the tax period.*

*(11) Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight (8) times the net annual rental rate. The net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.*

*(12) The average value of property shall be determined by averaging the values at the beginning and ending of the tax period, but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.*

*(13) The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation attributable to the production of business income, and the denominator of which is the total amount paid everywhere during the tax period for compensation attributable to the production of business income.*

*(14) Compensation is paid in this state if:*

- (a) the individual's service is performed entirely within the state; or*
- (b) the individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or*
- (c) some of the service is performed in the state and*
  - (i) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or*
  - (ii) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.*

*(15) The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period.*

*(16) Sales of tangible personal property are in this state if:*

- (a) the property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or*
- (b) the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and*
  - (i) the purchaser is the United States government or*
  - (ii) the taxpayer is not taxable in the state of the purchaser.*

*(17) Sales, other than sales of tangible personal property, are in this state if:*

- (a) the income-producing activity is performed in this state; or*
- (b) the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.*

*(18) If the allocation and apportionment provisions of this section do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:*

*(a) separate accounting, provided, the taxpayer's activities in this state are separate and distinct from its operations conducted outside this state and are not a part of a unitary business operation conducted within and without this state. For purposes of this section a "unitary business" is one in which the business conducted within the state is dependent upon or contributory to the business conducted outside this state or if the units of the business within and without this state are closely allied and not capable of separate maintenance as independent businesses;*

*(b) the exclusions of any one (1) or more of the factors;*

*(c) the inclusion of one (1) or more additional factors which will fairly represent the taxpayer's business activity in this state; or*

*(d) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.*

*(19) The department of revenue shall prescribe regulations to carry out this section and shall publish such regulations and amendments thereto."*

Section 3 This act shall apply to all taxable years on and after December 31, 1973, whether on a fiscal or calendar year basis.

(a) The number of retail beer licenses that the board may issue for premises situated within incorporated cities and incorporated towns and within a distance of five (5) miles from the corporate limits of such cities and towns shall be determined on the basis of population as shown by the most recent official United States census authorized by Congress, to

wit: In incorporated towns of five hundred (500) inhabitants or less and within a distance of five (5) miles from the corporate limits of such towns, not more than two (2) retail beer licenses to be used in conjunction with retail liquor licenses and not more than one (1) additional retail beer license which shall not be used in conjunction with a retail liquor license; in incorporated cities or incorporated towns of more than five hundred (500) inhabitants and not over two thousand (2000) inhabitants and within a distance of five (5) miles from the corporate limits of such cities or towns, two (2) retail beer licenses for the first five hundred (500) inhabitants and one (1) retail beer license for each additional five hundred (500) inhabitants, which said retail beer licenses shall be used in conjunction with retail liquor licenses, and one (1) additional beer license for each five hundred (500) inhabitants which said beer license shall not be used in conjunction with retail liquor licenses; in incorporated cities of over two thousand (2000) inhabitants and within a distance of five (5) miles from the corporate limits of such cities, five (5) retail beer licenses for the first two thousand (2000) inhabitants and one (1) retail beer license for each additional one thousand (1000) inhabitants which said retail beer licenses shall be used in conjunction with retail liquor licenses, and two (2) additional retail beer licenses for the first two thousand (2000) inhabitants or major fraction thereof and one (1) additional retail beer license for each additional two thousand (2000) inhabitants which shall not be used in conjunction with retail liquor licenses. The number of the inhabitants in such cities and towns, exclusive of the number of inhabitants residing within a distance of five (5) miles from the corporate limits thereof, shall govern the number of retail beer licenses that may be issued for use within such cities and towns and within a distance of five (5) miles from the corporate limits thereof; provided, that where two (2) or more incorporated municipalities are situated within a distance of five (5) miles from each other, the total number of retail beer licenses that may be issued for use in both of such municipalities and within a distance of five (5) miles from their respective corporate limits, shall be determined on the basis of the combined populations of both of such municipalities and shall not exceed the foregoing limitations. The said distance of five (5) miles from the corporate limits of any incorporated city or incorporated town shall be measured in a straight line from the nearest entrance of the premises proposed for licensing to the nearest corporate boundary of such city or town. Retail beer licenses of issue on the date of the passage and approval of this act and which are in excess of the foregoing limitations shall be renewable, but no new licenses shall be issued in violation of such limitations; provided, that such limitations shall not prevent the issuance of a nontransferable and nonassignable retail beer license to any post of a nationally chartered veterans' organization or any lodge of a recognized national fraternal organization, if such veterans' or fraternal organization has been in existence for a period of five (5) years or more prior to January 1, 1949. No incorporated city or incorporated town may by ordinance restrict the number of licenses that the board may issue; provided that no retail beer license may be issued by the board for any premises situated within any zone of such city or town wherein the sale of beer is prohibited by ordinance, a certified copy of which has been filed with the board. The board shall have discretion to deny the issuance of a retail beer license if it shall determine that the premises proposed for

licensing are off regular police beats and cannot be properly policed by local authorities.

(b) The number of retail beer licenses that the board may issue for use at premises situated outside of any incorporated city or incorporated town and outside of the area within a distance of five (5) miles from the corporate limits thereof, or for use at premises situated within any unincorporated town shall be as determined by the board in the exercise of its sound discretion; provided, that no retail beer license shall be issued for any premises so situated unless the board shall determine that the issuance of such license is required by public convenience and necessity.

(2) A retail license to sell beer in the original packages for off-premise consumption only may be issued to any person, firm or corporation who shall be approved by a majority of the board as a fit and proper person, firm or corporation to sell beer and whose premises proposed for licensing are operated as a bona fide grocery store or a drugstore licensed as a pharmacy. The number of such licenses that the board may issue shall not be limited by the provisions of subsection (1) of this section, but shall be determined by the board in the exercise of its sound discretion, and the board may in the exercise of its sound discretion grant or deny any application for any such license or suspend or revoke any such license for cause. The annual license fee for a license to sell beer at retail for off-premises consumption shall be the same as for a retail beer license.

(3) From and after February 1, 1949, any retail license issued pursuant to this act (including any retail license to sell beer for off-premises consumption), not actually used in a going establishment for a period of ninety (90) days, shall automatically lapse. Upon determining the fact of nonuser for such period the board shall cancel such license of record and no portion of the fee paid therefor shall be refundable. The provisions of this subsection shall not apply to the license of any licensee whose premises are operated on a seasonal basis in connection with a bona fide dude ranch, resort, park hotel, tourist facility or like business, provided such licensee has secured written authority from the board to close his licensed premises for a specified period of greater than ninety (90) days' duration, and providing further that should the liquor control board determine that such lapse was reasonably beyond the control of the licensee, then the lapse provision set out above shall not apply.

(4) *A person holding a license to sell beer for consumption on the premises at retail may apply to the department for an amendment to the license permitting the holder to sell wine as well as beer. The department may issue such amendment if it finds, on a satisfactory showing by the applicant, that the sale of wine for consumption on the premises would be supplementary to a restaurant or prepared food business. A person holding a beer-and-wine license may sell wine subject to the limitations imposed by this title on selling beer. He may buy wine only at retail from the department. Nonretention of the beer license, for whatever reason, shall mean automatic loss of the wine amendment license.*

(5) *The annual license fee for a license to sell wine on the premises, when issued as an amendment to a beer only license shall be two hundred dollars (\$200)."*

(2) A person may not at any time hunt, capture, kill, possess, purchase, offer or expose for sale, or transport a raptor except as provided in this section.

(3) The commission may adopt specific rules for the keeping of records, and for the trapping, taking, possession, or training of raptors used in the practice of falconry, and may authorize the issuance of licenses to persons for the practice of falconry. It is unlawful for *any person* to possess a raptor or to train a raptor in the practice of falconry without a license.

(4) The peregrine falcon (*Falco peregrinus*), bald eagle (*Haliaeetus leucocephalus*), golden eagle (*Aquila chrysaetos*), and osprey (*Pandion haliaetus*) may not be captured in this state for the sport of falconry.

(7) Species of raptors which are native to North America may be brought into Montana for the purposes of falconry unless that action is specifically prohibited by this section, the laws of other states, or the regulations of the federal government. (8) A licensee may not at any time possess more than three (3) raptors, including those that have been imported.

The commission may close an area of the state to the taking of raptors at any time or designate other raptors which may not be taken. This subsection does not permit the removal of raptors in any national or state refuge or park or in any area in which local laws may prohibit that activity. Trapping raptors is permitted only between September 1 and February 1.

(10) Raptors may not be used to intentionally flush or harass big game.

(11) Raptors may not be loosed intentionally at protected mammals and

(5) Before any payments are made to any member of the police reserve, the governing body of the city shall, forthwith, determine the eligibility of such member for payments and the amount thereof in accordance with the terms of this section."

In case any witness shall fail to obey any summons to appear before said board, or shall refuse to testify, or answer any material questions, or to produce records, books,

## CHAPTER NO. 39

AN ACT AMENDING SECTION 46-1501, R.C.M. 1947, TO PERMIT JOINT HERD DISTRICTS WHICH CROSS TWO (2) OR MORE COUNTY LINES.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 46-1501, R.C.M. 1947, is amended to read as follows:

**"46-1501. Herd districts — creation, size, location — dissolution — exclusion of government land — records.** (a) Herd districts may be created in any county in the state of Montana to contain twelve (12) square miles or more, lying not less than one (1) mile in width, outside of the incorporated cities; excepting only that herd districts may be created containing not less than six (6) nor more than fifty-four (54) square miles, lying not less than two (2) miles in width, when such territory joins and is contiguous with the boundaries of a city having a population of ten thousand (10,000) or more and such territory so to be created in a herd district has a suburban population of not less than two hundred (200) people; upon petition of owners or possessors of fifty-five per centum (55%) of the land in such district, and providing twenty-five per centum (25%) or more of the land in such district is in actual cultivation, or being used for residential purposes.

In formation of such a district the entire holding of any owner or lessee must be included unless such owner or lessee consent that less than his entire contiguous holdings be included in the petition. And such petition shall designate the months of the year when herd district is effective, and upon presentation and filing of such petition, properly signed, giving outside boundaries and description of proposed district and the post-office address of the signers thereto, with the clerk and recorder in the county in which the said district is being created, the county commissioners of such county, upon receipt thereof, shall set a date for hearing protests and verifying the signatures thereto, and shall give not less than twenty (20) days' notice of the same by three (3) publications in a newspaper of general circulation in the county of the proposed district. At the hearing held pursuant to such notices the county commissioners shall examine the petition and shall cause a map to be made in order to determine the shape and regularity of the boundaries of the proposed district. The said commissioners may then establish the district, but such district shall be established only in such manner that the district will be reasonably regular and symmetrical in shape, or practicable in relation to the geographical features of such district.

Should it appear to such county commissioners after such hearing that the signatures attached to such petition were genuine, they shall immediately declare such herd district created and established; after which the county commissioners must give notice by four (4) weekly publications in some newspaper nearest the district of the creation of such districts, also stating period such districts will be in effect, and such districts shall not be in effect until thirty (30) days have expired after the order. Upon petition of any owner or possessor of lands lying contiguous and adjoining any herd district theretofore created, and upon like hearing and notice as hereinabove provided for, such lands shall be included in said herd district and become a part thereof. Should the signature of lessee appear on the petition creating or abolishing any herd district, the owner or owners of said land may appear either in person or agent and enter their

protest. And the board of county commissioners shall remove the name of the lessee from said petition, and no person shall be permitted to withdraw his name after the hour set for hearing same.

(b) When a petition praying that any established herd district be dissolved is filed with the county clerk and recorder of the county wherein such district has been established, and it is set forth therein that such petition is signed by the owners or possessors of fifty-five per cent (55%), or more of the lands lying within such district, and that less than twenty-five per cent (25%) of the lands included in such district is in actual cultivation, the said county clerk and recorder shall call such petition to the attention of the board of county commissioners of the county at its next regular meeting; and at said meeting by its order the said board shall set such petition for hearing at a specified time on a day certain of which notice shall be given by publication at least once in each week for three (3) successive weeks in some newspaper of general circulation in the county.

At the time fixed for hearing the board of county commissioners shall first require proof of publication of the notice of said hearing to be made and thereafter shall consider the petition and hear all interested parties. At the conclusion of any such hearing if the board of county commissioners shall find that notice of hearing has been given in the manner and for the time prescribed herein and that the owners or possessors of fifty-five per cent (55%), or more of the lands lying within such herd district have signed the petition and request that such district be dissolved, and that less than twenty-five per cent (25%), of the lands included in such district are in actual cultivation, then the said board shall forthwith spread such findings upon its minutes and thereupon shall enter an order in terms that by reason of such findings and of the proceedings had upon such petition the said herd district is thereby dissolved. Forthwith upon the making and entry of any such order aforesaid the herd district affected thereby shall be dissolved for all purposes thereafter.

(c) Any tract of land embraced within any established herd district and which contains eighteen (18) government sections of land, or more, so located that at least one-fourth ( $\frac{1}{4}$ ) of the perimeter of such tract coincides with the existing boundaries of such herd district, may be excluded therefrom upon proceedings had before the board of county commissioners of the county wherein the said district has been established on a like petition, notice and hearing and by a like order as in the case of proceedings for dissolving herd districts; provided that when the exclusion of any such tract of land from an existing herd district is sought the petition shall describe the tract to be excluded with common certainty and shall set forth that it is signed by the owners or possessors of fifty-five per cent (55%), or more of the lands lying within the boundaries of the tract to be excluded, and that less than fifteen per cent (15%), of the lands included in such tract is in actual cultivation; and provided further that in any such case if the board of county commissioners at the conclusion of the hearing had shall find that the tract of land to be excluded conforms to the requirements of this section and that the allegations of the petition are true its findings to that effect shall be spread upon the minutes and the board shall thereupon enter its order in terms that by reason of such

findings and of the proceedings had upon such petition the tract of land described in the petition which shall be further set forth with common certainty in the order is thereby excluded from such herd district for all purposes thereafter. Forthwith upon the making and entry of any such order of exclusion the tract of land therein described shall be deemed for all purposes thereafter to be excluded from and to form no part of the herd district affected thereby.

*(d) Herd districts may be created jointly between any two (2) or more counties of the state of Montana where the lands to be included in the district meet the requirements of this section and either extend across county boundaries under one (1) ownership or are contiguous to the land of owners in the adjoining county wishing to participate in the herd district. The county commissioner boards of each county desiring to participate in a joint herd district shall comply with all the provisions of this section dealing with single-county districts. A joint herd district shall be created only after approval by all county commissioner boards of participating counties as provided for single-county herd districts in this section. Joint herd districts may be dissolved in the same manner as single-county herd districts."*

All such deposits shall be subject to withdrawal by the treasurer in such amounts as may be necessary from time to time, and no deposit of funds shall be made, or permitted to remain in any bank, *building and loan association or savings and loan association*, until the security for such deposits shall have been first approved by the board of county commissioners in the case of county funds, or by the council in the case of city or town funds, and delivered to the treasurer.

(6) Except as provided in subsection (8) of this section, all interest paid and collected on such deposits or investments shall be credited to the general fund of the county, city or town to whose credit such funds are deposited. (8) Whenever in the judgment of the trustees of any common school district, high school district, or county high school it would be advantageous to invest any money of such school or school district in savings or time deposits in a state or national bank, *building and loan association or savings and loan association* insured by the F.D.I.C. or the F.S.L.I.C., or in direct obligations of the United States government, payable within one hundred eighty (180) days from the time of investment, such governing body may in its discretion direct the county treasurer to make such investments. Such transfer, loss, theft, destruction or abandonment shall terminate the certificate of number for the motorboat except that in the case of a recovery from theft, or transfer of a part interest which does not affect the owner's right to operate the motorboat, the recovery or transfer does not terminate the certificate of number.

(k) A holder of a certificate of number shall notify the *county treasurer*

within reasonable time if his address no longer conforms to the address appearing on the certificate and shall, as a part of the notification, furnish the *county treasurer* with his new address. AN ACT AMENDING SECTION 84-1502, R.C.M. 1947, TO SPECIFICALLY DENY A DEDUCTION FOR INCOME TAXES PAID OTHER STATES AND FOREIGN COUNTRIES BY A CORPORATION DOING BUSINESS IN MONTANA; AND PROVIDING AN EFFECTIVE DATE.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 84-1502, R.C.M. 1947, is amended to read as follows:

"84-1502. **Deductions allowed in computing income.** In computing the net income the following deductions shall be allowed from the gross income received by such corporation within the year from all sources:

1. All the ordinary and necessary expenses paid or incurred during the taxable year in the maintenance and operation of its business and properties, including reasonable allowance for salaries for personal services actually rendered, subject to the limitation hereinafter contained, rentals or other payments required to be made as a condition to the continued use or possession of property to which the corporation has not taken or is not taking title, or in which it has no equity. No deduction shall be allowed for salaries paid upon which the recipient thereof has not paid Montana state income tax; provided, however, that where domestic corporations are taxed on income derived from without the state, salaries of officers paid in connection with securing such income shall be deductible.

2. (A) All losses actually sustained and charged off within the year and not compensated by insurance or otherwise, including a reasonable allowance for the wear and tear and obsolescence of property used in the trade or business, such allowance to be determined according to the provisions of section 167 of the internal revenue code in effect with respect to the taxable year. All elections for depreciation shall be the same as the elections made for federal income tax purposes. No deduction shall be allowed for any amount paid out for any buildings, permanent improvements or betterments made to increase the value of any property or estate and no deduction shall be made for any amount of expense of restoring property or making good the exhaustion thereof for which an allowance is or has been made.

(B) (a) There shall be allowed as a deduction for the taxable period a net operating loss deduction determined according to the provisions of this subsection. The net operating loss deduction is the aggregate of net operating loss carryovers to such taxable period plus the net operating loss carrybacks to such taxable period. The term "net operating loss" means the excess of the deductions allowed by this section, 84-1502, over the gross income, with the modifications specified in paragraph (b) of this subsection. If for any taxable period beginning after December 31, 1970,

a net operating loss is sustained, such loss shall be a net operating loss carryback to each of the three (3) taxable periods preceding the taxable period of such loss and shall be a net operating loss carryover to each of the five (5) taxable periods following the taxable period of such loss. The portion of such loss which shall be carried to each of the other taxable years shall be the excess, if any, of the amount of such loss over the sum of the net income for each of the prior taxable periods to which such loss was carried. For purposes of the preceding sentence, the net income for such prior taxable period shall be computed with the modifications specified in paragraph (b) (ii) of this subsection and by determining the amount of the net operating loss deduction without regard to the net operating loss for the loss period or any taxable period thereafter, and the net income so computed shall not be considered to be less than zero.

(b) The modifications referred to in paragraph (a) of this subsection shall be as follows:

- (i) No net operating loss deduction shall be allowed.
- (ii) The deduction for depletion shall not exceed the amount which would be allowable if computed under the cost method.
- (c) A net operating loss deduction shall be allowed only with regard to losses attributable to the business carried on within the state of Montana.

(d) In the case of a merger of corporations, the surviving corporation shall not be allowed a net operating loss deduction for net operating losses sustained by the merged corporations prior to the date of merger.

In the case of a consolidation of corporations, the new corporate entity shall not be allowed a deduction for net operating losses sustained by the consolidated corporations prior to the date of consolidation.

(e) Notwithstanding the provisions of section 84-1508.1 (c), R.C.M. 1947, interest shall not be paid with respect to a refund of tax resulting from a net operating loss carryback or carryover.

(f) The net operating loss deduction shall not be allowed with respect to taxable periods which ended on or before December 31, 1970, but shall be allowed only with respect to taxable periods beginning on or after January 1, 1971.

3. In the case of mines, other natural deposits, oil and gas wells, and timber, a reasonable allowance for depletion and for depreciation of improvements, such reasonable allowance to be determined according to the provisions of the internal revenue code in effect for the taxable year. ## CHAPTER NO. 80

AN ACT AMENDING SECTION 84-1855 TO REQUIRE DEALERS SELLING REFUNDABLE GASOLINE TO OBTAIN A LICENSE FROM THE DEPARTMENT OF REVENUE PRIOR TO SELLING GASOLINE ON WHICH A REFUND MAY BE CLAIMED AND TO DELETE THE PRESENT LIMIT ON REFUND APPLICATIONS; AND PROVIDING FOR AN EFFECTIVE DATE.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 84-1855, R.C.M. 1947, is amended to read as follows:

"84-1855. **Refund of gasoline license tax — procedure.** (1) Any person who shall purchase and use any gasoline, on which the Montana gasoline license tax has been paid, for operating or propelling stationary gasoline engines, tractors used off the public highways and streets, motorboats, or for cleaning or dyeing, or for any commercial use other than propelling vehicles upon any of the public highways or streets of this state, shall be allowed a refund of the amount of tax paid directly or indirectly on the gasoline so used. Provided, that such refund or drawback should in no instance exceed the tax paid or to be paid, to the state of Montana [, and no refund shall be allowed of that portion of the tax per gallon upon aviation gasoline allocated to the board of aeronautics by section 1-501, R.C.M. 1947].

Any distributor paying the gasoline license tax to this state erroneously shall be allowed a credit or refund of the amount of tax so paid.

(2) The application for refund shall be a signed statement on a form furnished by the department, accompanied by the original invoice or invoices issued to the claimant at the time of purchase and delivery, showing the total amount of gasoline purchased, the total amount of gasoline on which a refund is claimed, and the amount of the tax claimed for refund. Such further information pertaining to such claim shall be furnished as required by the department, provided that gallons of gasoline used off the roadways, where not verifiable by records of actual use, may be estimated by the applicant according to the following schedule:

(a) on the first one thousand (1,000) gallons of gasoline purchased, or any part thereof, forty-five per cent (45%) of gasoline purchased.

(b) on the next one thousand (1,000) gallons of gasoline purchased, or any part thereof, sixty per cent (60%) of gasoline purchased.

(c) on the next one thousand (1,000) gallons of gasoline purchased, or any part thereof, sixty-five per cent (65%) of gasoline purchased.

(d) on any gasoline purchased in excess of three thousand (3,000) gallons, seventy per cent (70%) of gasoline purchased.

If any invoice is either lost or destroyed, the purchaser may support his claim for refund by submitting an affidavit relating the circumstances of such loss or destruction and by producing such other evidence as may be required by the department.

(3) Any applicant who does not elect to estimate the off-highway use of gasoline according to the schedule in subsection (2) shall maintain records as provided for in this subsection.

(a) Highway and off-highway use of gasoline from common storage. Gasoline purchased and delivered into bulk storage for use in motor vehicles on public roads and nonhighway use must be fully accounted for by detail withdrawal records to accurately show the manner in which used. Gasoline on hand, determined by actual measurement, shall be deducted from a claim and shall be reported as an opening inventory on the next claim. Credit for the inventory is allowed on the next claim if filed within fourteen (14) months from the filing date of the claim which established the inventory.

(b) Highway and off-highway use of gasoline from separate storage. If separate storage tanks are maintained for highway use and off-highway use, the bulk purchase invoices shall be so marked by the dealer at the time of delivery. No further record is required, provided that no gasoline is withdrawn from the off-highway tank for licensed vehicles. Withdrawal of gasoline from the off-highway tank for licensed vehicles will invalidate this method of determining refundable gallonage.

(c) Use of gasoline from restricted use storage. Special storage facilities in the woods, or in farm fields, or for other uses for certain periods, must be identified and explained. If such storage is used entirely for off-highway purposes and is not used in licensed vehicles, no records will be required other than purchase invoices showing the delivery into such storage.

(d) Gasoline purchased for other than bulk storage. Fuel purchased in small containers for nonhighway use must be identified on the purchase invoice and no further record is required.

(e) Resellers. Service stations, bulk dealers and marinas must prepare a separate and complete invoice for each withdrawal of gasoline for own use upon which a refund is to be claimed.

(f) Proof of highway use. When no highway use of gasoline is deducted from the claim, the applicant must substantiate purchases of gasoline and miles traveled for licensed motor vehicles upon request of the department.

(g) Any person who operates a licensed motor vehicle on and off the

public roads for commercial purposes may claim refund of the state license tax on the gasoline used to operate the vehicle on roads or property in private ownership, if such person has maintained the following records:

(i) the total number of highway miles operated by each licensed motor vehicle, including private passenger cars;

(ii) total gallons of gasoline used in each vehicle to include both refund and nonrefund use;

(iii) purchase invoices supporting all gasoline handled through bulk storage, as well as all fuels purchased at service stations or received from other sources. Highway use for each vehicle may be determined by actual measurement, or may be computed by dividing the average miles per gallon highway operation consumption rate into the number of highway miles operated.

(4) All applications for refunds shall be filed with the department of revenue within fourteen (14) months after the date on which the gasoline was purchased as shown by invoices or after the date on which the tax was erroneously paid. Provided, however, that a distributor may file a claim for refund of taxes erroneously paid within three (3) years after the date of such erroneous payment. The department shall have one hundred twenty (120) days after receiving the claim to approve or reject it. If approved, the department shall issue a credit in lieu of refund for the amount of the claim, if the claimant is a distributor. For all other persons, a warrant shall be drawn upon the state treasurer for the amount of the claim.

(5) Should the department of revenue find that the statement contains errors which are not fraudulently inserted, it may correct the statement and approve it as corrected, or the department may require the claimant to file an amended statement. If the state department of revenue determines that any claim has been fraudulently presented or is supported by invoice or invoices fraudulently made or altered or that any statement in the claim or affidavit is willfully false and made for the purpose of misleading, the department may reject such claim in full. If a claim is rejected, the department may suspend claimant's right to refund for a period not to exceed one (1) year.

(6) Any person, other than a licensed distributor, shall obtain a license from the state department of revenue prior to selling gasoline on which a refund may be claimed. The application for license shall contain the applicant's name, address, place or places of business in the state of Montana, and other information which may be required by the department. Licenses issued shall bear a license number and the date of issuance. The department shall keep a record of all licenses issued, canceled, or suspended. *A nontransferable license shall be issued for three (3) years upon payment of a fee of three dollars (\$3). Licenses must be renewed and the fee paid every three (3) years from date of issuance.*

Any person failing to comply with this subsection shall be subject to a fine of not less than twenty-five dollars (\$25) or more than two hundred dollars (\$200) or imprisonment in the county jail for a period not less than ten (10) days or more than sixty (60) days, or both fine and imprisonment."

Section 2. This act shall be effective on its passage and approval.

## CHAPTER NO. 88

AN ACT AMENDING SECTION 92-1334, R.C.M. 1947, RELATING TO OCCUPATIONAL DISEASE COMPENSATION INSURANCE PLANS, BY DELETING CERTAIN FILING FEES, AND A SPECIFIC PHYSICIAN'S CERTIFICATE FEE; MAKING CHANGES IN ACCORDANCE WITH THE EXECUTIVE REORGANIZATION ACT; AND MAKING MINOR STYLE CHANGES.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 92-1334, R.C.M. 1947, is amended to read as follows:

**"92-1334. Compensation plans.** Employers shall secure compensation to their employees under one of the following plans:

### COMPENSATION PLAN NUMBER ONE

1. When and how employer may elect to adopt — direct payment to employee. Any employer in the industries, trades, works, occupations, or employments in this act specified as hazardous, by filing his election to become, subject to and be bound by compensation plan No. 1, upon fur-

nishing satisfactory proof to the *division* of his solvency and financial ability to pay the compensation and benefits in this act provided for, and to discharge all liabilities which are reasonably likely to be incurred by him during the fiscal year for which such election is effective, may, by order of the said *division*, make such payments directly to his employees as they may become entitled to receive the same under the terms and conditions of this act.

2. Proof of solvency of employer electing plan No. 1 to be filed. Every such employer engaged in the state of Montana, in the industries, trades, works, occupations, or employments herein mentioned, and who shall have elected to be bound by such compensation plan No. 1, shall file such proof of his solvency within the time and in such form as may be prescribed by the rules or orders of the *division*.

3. Employer permitted to carry on business and settle directly with employee — renewal of application. If such employer, making such election, shall be found by the *division* to have the requisite financial ability to pay the compensation and benefits in this act provided for, then the *division* shall grant to such employer permission to carry on his business for the fiscal year within which such election is made, and such proof filed, or the remaining portion of such fiscal year, and to make such payments directly to his employees as they may become entitled to receive the same. Every employer, so long as he continues in his employment, and so long as he continues to be bound by such compensation plan No. 1, shall, at least thirty (30) days before the expiration of each fiscal year, renew his application to be permitted to continue to make such payments as aforesaid directly to his employees for the next ensuing fiscal year, and under like circumstances as those mentioned for the granting of such permission upon such first application, the *division* may renew the same from year to year.

4. Additional proof of solvency—revocation of order. The *division* may at any time require from any employer acting under compensation plan No. 1 additional proof of solvency and financial ability to pay the compensation provided by this act, and may at any time, upon notice to such employer of not less than ten (10) or more than twenty (20) days, after and upon a full hearing, revoke any order or approval theretofore made.

5. Requiring security of employer. If the *division* shall find that such employer has no financial responsibility for the payment of the compensation herein provided to be paid, which might reasonably be expected to be chargeable to such employer during the fiscal year to be covered by such permission, the *division* must so find, and must require such employer, before granting to him such permission, or before continuing or engaging in such employment, subject to the provisions of compensation plan No. 1, to give security for such payment, which security must be in such an amount as the *division* finds reasonable and necessary to meet all liabilities of such employer, which may reasonably and ordinarily be expected to accrue during such fiscal year. The security must be deposited with the *division*, may be a certain estimated percent of the employer's last preceding annual payroll, or a certain percent of the established amount of his annual payroll for the fiscal year or the security may be in the form of a bond or undertaking executed to the *division* in the

amount to be fixed by it with two or more sufficient sureties, which undertaking must be conditioned that such employer will well and truly pay, or cause to be paid, all such sums and amounts for which the employer shall become liable under the terms of this act to his employees during said fiscal year; or such security may consist of any state, county, municipal, or school district bonds, or the bonds or evidence of indebtedness of any individuals or corporations which the *division* may deem solvent; and every such deposit and the character and amount of such securities shall at all times be subject to approval, revision, or change by the *division* as in its judgment may be required, and upon proof of the final payment of the liability for which such securities are given, such securities, or any remaining part thereof, shall be returned to the depositor. The *division* is liable for the value and safekeeping of all such deposits or securities.

6. Failure of employer to pay compensation — duty of *division*. Upon failure of *the* employer to pay any compensation provided for in this act, upon the terms and in the amounts and at the times when the same shall become due and payable, it shall be the duty of *the division*, upon demand of the person to whom compensation is due, to apply any deposits made with the *division* to the payment of the same, and it shall be its duty to take the proper steps to convert any securities on deposit with *the division*, or sufficient thereof, into cash and to pay the same upon the liabilities of *the* employer, accruing under the terms of this act, and it shall be its duty, in so far as the same shall be necessary, to collect and enforce the collection of the liability of all sureties upon any bonds which may be given by the said employer to insure the payment of his said liability. And to these ends, and for these purposes, the *division* shall be deemed to be the owner of *the* deposit and security and the obligee in *the* bond in trust for the said purposes, and may proceed in its own name to recover upon such bonds, or foreclose and liquidate *the* securities.

7. When employer to make deposit or security to guarantee payment of compensation. Within thirty (30) days after the happening of an accident where death or the nature of the disability renders the amount of future payments certain, or reasonably certain, the employer shall make a deposit or give security as herein defined with the *division* for the protection and guaranty of the payment of such liability, in such sum as the *division* may direct. *However*, if sufficient securities are already on deposit with *the division*, or if the *division* has determined that the employer has sufficient financial responsibility to meet *the* liability of *the* employer, together with other liabilities already accrued, no such additional deposit or security shall be demanded.

8. When employer may be relieved from liability. Any employer against whom liability may exist for compensation under this act, may, with the approval of the *division*, be relieved therefrom by:

(1) Depositing the present value or the estimated present value of the total unpaid compensation for which such liability exists, assuming interest at five *percent* (5%) per annum, with the *division*; or

(2) Purchasing an annuity within the limitations provided by law, in any insurance company granting annuities, and authorized to transact business in this state, subject to the approval of the *division*.

## COMPENSATION PLAN NUMBER TWO

1. Employer electing plan No. 2 to insure his liability. Any employer in the industries, trades, works, occupations, or employments in this act specified as hazardous, by filing his election to become subject to and bound by compensation plan No. 2, may insure his liability to pay the compensation and benefits herein provided for, in any insurance company authorized to transact such business in this state.

2. Duty of employer electing plan No. 2 — amount of insurance necessary. Any employer electing to become subject to and bound by compensation plan No. 2 shall file with the *division* written acceptance of the provisions of compensation plan No. 2, together with a statement upon forms provided by the *division* of the nature of his employment, the character and location of his works, the number of men employed during the preceding year, or any part of the preceding year, and the probable number of men to be employed during the first fiscal year to be covered by such election, and the *division* shall thereupon determine the amount of insurance which will be reasonably necessary to secure the compensation with which the said employer may reasonably be expected to become chargeable during such fiscal year. And thereupon the employer shall file the policy or policies of insurance herein provided for with the *division*, which policy or policies shall insure in the amount so fixed by the *division* against any and all liability of the employer to pay the compensation and benefits provided for in this act. The amount of such insurance shall be fixed by the *division* for each ensuing fiscal year during which the employer shall engage in his employment, and shall remain subject to the provisions of compensation plan No. 2, and for the purpose of fixing such amount of said insurance, the *division* may make all reasonable and necessary investigation, and the employer shall furnish to the *division* all information which it may require.

3. Policies to contain what. All policies insuring the payment of compensation under this act, must contain a clause to the effect that as between the employee and the insurer the notice to, or knowledge of the occurrence of the injury on the part of the insured, shall be deemed notice or knowledge, as the case may be, on the part of the insurer; that jurisdiction of the insured for the purpose of this act shall be jurisdiction of the insurer; and that the insurer shall, in all things, be bound by and subject to the awards, order, judgments, or decrees rendered against such insured.

4. Agreement to be contained in policies of insurance — deposit of bonds. No such policy shall be issued unless it contains the agreement of the insurer that it will promptly pay to the person entitled to compensation all the installments of compensation or other payments in this act provided for, and that the obligation shall not be affected by any default of the insured after the disablement or by any default in the giving of any notice required by such policy or by this act or otherwise. Such agreement shall be construed to be a direct promise by the insured to the person entitled to compensation. Before issuance of any policy by an insurer as herein authorized, such insurer must deposit with the *division*, bonds of the United States or the state of Montana, or of any school district, county, city or town in the state of Montana, in an amount not less than twenty

thousand dollars (\$20,000.00) or more than one hundred thousand dollars (\$100,000.00) as the *division* may determine. If any insurer shall fail to discharge any liability after the amount thereof shall be determined by the *division*, and within the time limited by the *division*, it shall be the duty of the *division* to convert the bonds, or such part thereof as is necessary, into cash, and from the proceeds liquidate such liability in the manner hereinafter provided; and thereafter the insurer must make an additional deposit to meet any deficiency caused thereby. It is intended hereby to give the *division* the discretion in the matter of whether an insurer has failed to discharge any liability.

5. Policies made subject to this act — form of insurance. Every policy for the insurance of the compensation herein provided for, or against liability therefor, shall be deemed to be made subject to the provisions of this act. No insurer shall enter into any such policy of insurance unless its form shall have been approved by the *division*, as otherwise provided by law.

6. Renewals. Every renewal of such policy shall be made and delivered to the *division* at least thirty (30) days prior to the expiration of the expiring policy.

7. Deposits by insurer with *division*. Within thirty (30) days of the happening of an accident where death or the nature of the disablement renders the amount of future payments certain or reasonably certain, the insurer shall make a deposit, as herein defined, with the *division* for the protection and guarantee of the payment of such liability in such sum as the *division* may direct. However, if the *division* deems the amount on deposit by the insurer under the provisions of paragraph 4 of plan two (2), in this section, sufficient to cover all liabilities of the insurer, then no further deposit shall be required.

8. How insurer relieved from liability. Any insurer against whom liability may exist for compensation under this act, may, with the approval of the *division*, be relieved therefrom by:

1. Depositing the present value or the estimated present value of the total unpaid compensation for which such liability exists, assuming interest at five per centum (5%) per annum, with the *division*; or

2. By purchasing an annuity within the limitations provided by law in any insurance company granting annuities, and authorized to transact business in this state, subject to the approval of the *division*.

9. Cancellation of insurance policy. No policy of insurance issued under the provisions of compensation plan No. 2 shall be canceled within the time limited for its expiration except upon thirty (30) days' notice to the employer in favor of whom such policy is issued, and to the *division* unless such policy sought to be canceled shall have been sooner replaced by other insurance.

10. Report of insurance companies to *division*. Every insurance company transacting business under this act shall, at the time and in the manner prescribed by the *division*, make and file with the *division* such reports of accidents as the *division* may require.

11. Policies to contain clause agreeing to do what — approval or change. Every policy or contract insuring against liability for compensation under compensation plan No. 2 must contain a clause to the effect that the insurer shall be directly and primarily liable to and will pay directly to the employee, or in case of death, to his beneficiaries, or major or minor dependents, the compensation, if any, for which the employer is liable. Every such policy shall at all times be subject to the approval, change, or revision by the *division*, and shall contain the clauses, agreements, and promises required by this act.

12. Deposits under plan No. 2 as security. Any deposit made under the provisions of compensation plan No. 2 shall be held in trust by the *division* as security for the payment of the liability for which the deposit was made. Such deposit may be reduced from time to time with the permission of the *division*, as the payment of the liability of the insurer may reduce the amount required to be on deposit. Such deposit may be changed or renewed when desired by the depositor, by withdrawing the same, or any part thereof, and substituting other deposits therefor; upon proof of the final payment of the liability for which such deposit was made, any deposit remaining shall be returned to the depositor. All earnings made by such deposit shall be first applied upon any liability of the depositors, and if no such liability exists, then such earnings shall upon demand be delivered to such depositor. The *division* shall be liable for the value and safekeeping of such deposit.

### COMPENSATION PLAN NUMBER THREE

1. It is the intent and purpose of compensation plan No. 3 that each employer subject to and bound by this plan shall be liable and pay for all disability to employees due to occupational diseases coming under the provision of this plan, and that all funds collected by assessments as herein provided shall be paid into one common account to be known as the occupational disease compensation account in the agency fund, which account shall be devoted exclusively to the payment of all valid claims for disability from occupational diseases arising out of or in the course of employment coming under the provisions of compensation plan No. 3. Such account shall consist of all assessments and penalties received and paid into the account, or property and securities acquired by and through the use of money belonging to the account, and interest earned upon money belonging to the account, together with any money appropriated by the legislature for the purpose of this act. The accounts of employers insured in such account shall be kept in such a manner as the *division* may prescribe for the purpose of providing information and statistics necessary for determining any changes in rates of classification of employment. The occupational disease compensation account shall be neither more nor less than self-supporting.

2. Any employer, whether subject to and bound by this act or not, may elect to comply with the provisions of compensation plan No. 3 and pay into the occupational disease compensation account the premiums provided in this act, in which event such employer shall not be liable to respond in damages at common law or by statute for disability or death of an employee due to an occupational disease during the period covered by such premiums and shall enjoy the benefits and privileges of this act.

The employee of such an employer shall be deemed to have elected to come under the provisions of this act unless such employee shall execute and file with the *division* on proper form to be furnished for that purpose, a specific election not to be so bound, in which event he shall not enjoy the benefits or privileges of this act until such election is withdrawn.

3. All employments, occupations, or industries affected by the provisions of compensation plan No. 3 shall be divided by the *division* for the purpose of the occupational disease compensation account into classes whose rates may be set and readjusted at such times as the *division* may determine. The *division* may rearrange the classes by withdrawing any employment embraced in one class and transferring it wholly or in part to another class. Separate counts shall be kept of the amounts collected and expended in each class for determining rates, but for paying compensation and dividends the account in the agency fund shall be one and indivisible. The *division* shall determine the hazard of the different classes of occupations or industries, and fix the rates of assessment therefor at a percentage of the annual total payroll of such employer at the lowest rate consistent with the maintenance of a solvent occupational disease compensation account, and the creation of necessary surpluses and reserves, and for such purpose may adopt a system of schedule rating in such a manner as to take account of the peculiar hazard of each individual risk. The *division*, in fixing rates, shall provide for the expenses of administering the account, the disbursements on account of occupational disease to employees in each class, reserves adequate to meet anticipated and unexpected losses, reserves adequate to carry the class to maturity, and such other necessary reserves and surpluses as may be determined by the *division*. The *division* is authorized, in its discretion, to apply tentative rates, subject to modification in accordance with the loss experience of such risks.

4. The initial payment of assessments provided for herein by employers, whether presently engaged in a business, occupation or industry, subject to this act, or an employer who enters such business, occupation or industry at some future date, and all subsequent payment of assessments herein provided shall be made at such times and in such amounts as may be ordered and prescribed by the *division*.

5. Any employer who is in default in the observance of any order of the *division* issued pursuant to the provisions of this act, shall, in addition to any other penalty provided by this act, be charged an advance of twenty-five percent (25%) over the established rate, and such advance rate shall continue to be in force until such employer shall have ceased to be in such default.

6. If at the end of any year, it shall be seen that the contribution to the occupational disease compensation account by any class of industry shall be less than the drain upon such account on account of that class, the deficiency shall be made good to the account on the first day of February of the following year by the employers of that class, in proportion to their respective payments for the previous year.

7. The board of *investments* shall invest in bonds of the United States, bonds of the state of Montana, or bonds of any county, city, or school dis-

strict in the state of Montana, or any other security which may be approved by *the board of investments*, and out of the same and its earnings shall be paid such compensation and benefits as the *division* may direct. *However*, when there is sufficient money in the occupational disease compensation account to meet such compensation payments, any surplus or earnings remaining may be invested in the securities specified in this section.

8. If any employer shall default in any payment to the occupational disease account, the sum due may be collected by an action at law in the name of the state and such right of action shall be cumulative. The *division* is hereby authorized, in its discretion, to cancel any employer's right to operate under compensation plan No. 3 for failure to pay the premiums due. *When the division makes an order canceling an employer's right for failure to pay premiums or assessments the division shall make such order at least sixty (60) days before the cancellation becomes effective and send a formal notice to the sheriff or sheriffs of the county or counties wherein the employer is operating, and the said sheriff or sheriffs shall post a notice in at least three (3) conspicuous places where the workmen can readily see the notices to the effect that the division has canceled the right of the employer to operate under the act, and the notice shall give the date of the effectiveness of the order. After the cancellation date the employer shall have the same status as an employer who is not enrolled under the Occupational Disease Act.*

When an employer's right to operate has been canceled by the *division* for failure to pay premiums and when the *division*, in its discretion, finds that the property and assets of the employer are not sufficient to pay premiums, the *division* may compromise the claim for premiums and accept a payment of an amount less than the total amount due.

9. For any disability to any employee resulting from an occupational disease occurring during default in any payment to the occupational disease compensation account, the defaulting employer as to such disability shall be considered as having elected not to come under the provisions of this act, except that he shall be and remain liable to pay to the occupational disease compensation account the amount of such default together with the penalty prescribed in subsection 5 of this section.

10. The person entitled to sue under the provisions of subsection 9 of this section shall have the option of proceeding by suit or taking under this act. If such persons take under this act, the cause of action against the employer shall be assigned to the state for the benefit of the occupational disease compensation account. If such person shall elect to proceed against the defaulting employer, such election shall constitute a waiver of any right to compensation under the provisions of this act.

11. Any cause of action assigned to the state under the provisions of subsection 10 of this section may be prosecuted or compromised by the *division* in its discretion.

12. Where an employee is entitled to compensation under compensation plan No. 3, he shall file with the *division* his application therefor, together with the certificate of the physician attending him, and the physician to lend all necessary assistance in making application for

compensation and such proof of other matters as may be required by the rules of the *division* without charge to the employee. *The* filing of a certificate of the attending physician shall not constitute a sworn claim for compensation.

13. For proper compliance with the provisions of subsection 12 of this section, the physician, after approval by the *division*, shall be paid out of the occupational disease compensation account.

14. Where death results from an occupational disease, the parties entitled to compensation under compensation plan No. 3, or someone in their behalf, shall make application for the same to the *division*. The application must be accompanied with proof of death and proof of relationship, showing the parties entitled to compensation, certificate of the attending physician, if any, and such other proof as may be required by the *division*.

15. In computing the payroll of any employer the entire compensation received by any employee subject to this act shall be included, whether it be in the form of salary, wage, piecework, or otherwise and whether payable in money, board or otherwise.

16. Disbursements out of the occupational disease compensation account in the agency fund shall be made by the *division*. If at any time there shall not be sufficient money in the occupational disease compensation account with which to pay any warrants drawn thereon, the employer, on account of whose workmen the warrant was drawn, shall pay the same, and upon his next contribution to such fund he shall be credited with the amount so paid, with interest thereon at the rate of six percent (6%) per annum from the date of such payment to the date upon which the next assessment becomes payable; and if the amount of the credit exceeds the amount of such assessment, he shall have a warrant upon such account for the excess, and if *the* warrant be not paid for want of funds, it shall be credited to such employer and be applied upon succeeding assessments.

17. All earnings made by the occupational disease compensation account by reason of interest paid for the deposit thereof, or otherwise, shall be credited to and become a part of *the* account, and the making of profit, either directly or indirectly, by any person, out of the use of the occupational disease compensation account shall constitute a felony, and on conviction thereof shall subject the person making such profit to imprisonment in the state penitentiary for a term not exceeding two (2) years, or a fine not exceeding five thousand dollars (\$5,000.00), or both such fine and imprisonment."

It shall be supplemental to the national plan for emergency preparedness adopted by the president of the United States, and

shall become operative upon the establishment of a civil defense emergency. Any such proclamation shall be ineffectual, unless the legislature is then in session or the governor simultaneously issues an order convening the legislature in special session within forty-five (45) days.

(2) During the period when the proclamation issued *under* subsection (1) of this section is in force, or during the continuance of any emergency declared by the president of the United States or the congress calling for post-attack recovery and rehabilitation activities, subject to the limitations set forth in this *chapter*, and in a manner consistent with any rules, regulations, or orders and policy guidance issued by the federal government, the governor may issue, amend, and enforce rules, regulations, and orders to:

If, by reason of destruction or disruption attendant upon or resulting from attack, the filing requirements of this subsection cannot be met, public notice by such means as may be available shall be *considered* a complete and sufficient substitute. All existing laws, ordinances, rules, regulations, and orders inconsistent with the provisions of this *chapter*, or any rule, regulation or order issued under the authority thereof, shall be inoperative during the period of time and to the extent such inconsistency exists.

(4) Any authority exercised *under* a proclamation or emergency contemplated by this section may be exercised with respect to the entire territory over which the governor or other official, as the case may be, has jurisdiction, or as to any specified part thereof.

(5) The governor's power and authority to issue a proclamation following an attack shall be terminated by the passage of a joint resolution of the legislature or by declaration of the termination of the emergency by the president or by the congress; *however* the proclamation shall terminate automatically six (6) months after issuance and a similar proclamation may not be issued unless concurrence is given thereto by a joint resolution of the legislature."

## CHAPTER NO. 111

AN ACT TO EMPOWER THE BOARD OF LAND COMMISSIONERS TO  
LEASE GEOTHERMAL RESOURCES ON STATE LANDS.

*Be it enacted by the Legislature of the State of Montana: .*

Section 1. There is a new section to be numbered 81-2601, R.C.M. 1947, which reads as follows:

81-2601. **Empowering the state board of land commissioners to lease.** The board of land commissioners may lease state-owned lands, including the beds of navigable streams and the beds of navigable bodies of water, to persons, associations, or corporations for prospecting, exploration, well construction, and the production of geothermal resources.

Section 2. There is a new section to be numbered 81-2602, R.C.M. 1947, which reads as follows:

81-2602. **Definitions.** Unless the context requires otherwise in this act:

(1) "Geothermal resources" means the natural heat energy of the earth, including the energy, in whatever form, which may be found in any position and at any depth below the surface of the earth, either present in, resulting from, created by, or which may be extracted from, such natural heat, and all minerals in solution or other products obtained from the material medium of any geothermal resource. Geothermal resources are sui generis, being neither a mineral resource nor a water resource, but they are closely related to and possibly affecting and affected by water resources in many instances. No right to seek, obtain, or use geothermal resources has passed or shall pass with any existing or future lease of state or school lands.

(2) "Board" means the board of land commissioners.

(3) "Department" means the department of state lands provided for in Title 82A, chapter 11.

(4) "Geothermal development" means any of the operations or facilities necessary for the production of geothermal resources.

Section 3. There is a new section to be numbered 81-2603, R.C.M. 1947, which reads as follows:

81-2603. **Rules and regulations.** The board of land commissioners shall adopt rules governing the issuance of geothermal resource leases and the conduct of all geothermal operations. The board may also require the applicant for a geothermal lease to pay an application fee.

Section 4. There is a new section to be numbered 81-2604, R.C.M. 1947, which reads as follows:

81-2604. **Provisions of the lease.** (1) A lease issued by the board gives the lessee, so long as he complies with the terms and conditions of the lease, the exclusive right of possession of the lands or interests leased, subject to conditions contained in the lease.

(2) In every geothermal resource lease granted there is reserved to this state the right to sell, lease or otherwise dispose of the surface of the lands covered thereby subject to the rights and privileges granted the lessee under the terms of the lease.

(3) The term of each lease shall be for a primary term of ten (10) years and for so long thereafter as geothermal resources in paying quantities are produced, provided that all conditions and terms of the lease are fully performed by the lessee.

If geothermal resources are not being produced from the leased premises at the expiration of the primary term of the lease, but the owner of the lease is then engaged in drilling on the premises for geothermal resources, then the lease term shall be extended for so long as the drilling operations are diligently continued. If geothermal resources are recovered from any well drilled after the expiration of the primary term, the lease shall continue in force so long as geothermal resources in paying quantities are produced from the leased premises.

(4) Lessees may enter into agreements with other persons, associations, firms and corporations for drilling and other operations on state lands, but no such operating agreements shall be binding upon the state until filed with the department and approved by the board. No drilling or operating agreement may affect the obligations of each individual leaseholder to the state.

(5) Nothing contained in this act or other related acts shall prevent the board of land commissioners from entering into agreements for the pooling of acreage for unit operations for the production of geothermal resources and apportionment of geothermal royalties on an acreage or other equitable basis, or from modifying the royalty provisions of existing leases and all subsequent leases in accordance with pooling agreements and unit plans of operation. No agreement may be entered into which changes the the percentage of royalties to be paid to the state from the percentages fixed in its leases.

(6) Geothermal resources produced from any part of a unit in which state lands are included by virtue of a pooling agreement shall be considered to be produced from the state lands therein.

(7) Every lease shall specify the rental and royalty to be paid, reasonable forfeiture provisions, and reasonable terms under which the lessee may, within a specified time, remove property placed on the leased lands upon the termination of the lease by forfeiture or by lapse of time. Furthermore, the lease may contain other provisions the board and the lessee agree upon, provided that the additional terms are not inconsistent with this chapter. The board may exercise business discretion in entering into leases under this chapter.

Section 5. There is a new section to be numbered 81-2605, R.C.M. 1947, which reads as follows:

81-2605. **Royalties and rentals.** Geothermal leases shall be issued at an annual rental of not less than one dollar (\$1) per acre, payable in advance and/or a royalty which shall not be less than ten percent (10%) of the amount or value of steam, or other forms of heat or energy, derived from the production under the lease and sold or utilized by the lessee or reasonably susceptible to sale or utilization by the lessee and not more than five percent (5%) of any by-product derived from production under the lease and sold or utilized or reasonably susceptible of sale or utilization by the lessee.

Section 6. There is a new section to be numbered 81-2606, R.C.M. 1947, which reads as follows:

81-2606. **Bonds to the state.** The board may, at any time prior to the execution and delivery of a geothermal lease, or at any time during the life of the lease, require a lessee to file with the department a bond to protect the rights of the state. The bonds shall be in form and amount prescribed by the board. The board may at any time require new or additional bonds if the interests of the state will not adequately be protected by the bond previously filed.

Section 7. There is a new section to be numbered 81-2607, R.C.M. 1947, which reads as follows:

81-2607. **Compensation to surface lessee.** The lessee of any geothermal lease shall compensate the surface lessee for any damage to the surface or leasehold interest caused as a result of the geothermal lease. The board may require the geothermal lessee to post a bond, in an amount to be set by the board, to insure the payment of damages to any surface lessee. If the surface lessee and the geothermal lessee disagree as to the reasonable amount of surface damage, damage shall be ascertained in the same manner as prescribed in section 81-2609.

Section 8. There is a new section to be numbered 81-2608, R.C.M. 1947, which reads as follows:

81-2608. **Compensation for improvements.** A geothermal lessee of state lands has the right to place upon the leased lands a reasonable amount of improvements, provided that such improvements are directly related to the purpose of the lease. Whenever another person becomes the geothermal lessee, he shall pay the former lessee the reasonable value of such improvements at the time the new lessee takes possession thereof.

In determining the value of these improvements the original cost, the present condition, and the suitability of the improvements for the uses ordinarily made of geothermal resources shall be considered.

The former lessee may, however, remove or dispose of the moveable improvements from the land within sixty (60) days from the expiration of his lease except for casing the well and other equipment necessary for the preservation of any geothermal well. If not removed within sixty (60) days, improvements shall become the property of the state unless the board shall grant additional time for the removal thereof. Before a lease is issued to the new lessee he shall show that he has paid the former lessee the value of the improvements as agreed upon by them or as fixed and determined under section 81-2609, or that he has offered to pay the value of the improvements as so fixed and determined, or that the former lessee elects to remove the improvements.

Section 9. There is a new section to be numbered 81-2609, R.C.M. 1947, which reads as follows:

81-2609. **Arbitrators to fix value of improvements — appeal.** If the owner of any improvements on state lands of the type authorized by law at the time they were placed thereon desires to sell these improvements to the new lessee, and they are unable to agree on the value thereof,

the value shall be ascertained and fixed by three (3) arbitrators, one (1) of whom shall be appointed by the owner of the improvements, one (1) by the new lessee and the third by the two (2) arbitrators so appointed. The reasonable compensation that the arbitrators may fix shall be paid in equal shares by the owner of the improvements and the new lessee. The value of the improvements so ascertained and fixed is binding on both parties. If either party is dissatisfied with the valuation so fixed, he may within ten (10) days appeal from their decision to the department which shall examine the improvements and make the final decision as to the value of the improvements. The department shall apportion the actual cost of the re-examination to the owner and the new lessee as justice may require. The value of the improvements shall be ascertained and fixed as provided in section 81-2608 of this chapter.

Section 10. There is a new section to be numbered 81-2610, R.C.M. 1947, which reads as follows:

**81-2610. Disposition of royalties and other receipts.** The department shall credit fees collected under geothermal leases to the general fund; all rentals, penalties and bonuses shall be credited to the income fund of the grant to which the lands under each lease belong; all moneys collected as royalties shall be credited to the permanent fund arising from the grant to which the land under each particular lease belongs.

Section 11. There is a new section to be numbered 81-2611, R.C.M. 1947, which reads as follows:

**81-2611. Application for water right — issuance of right.** If any geothermal development located on state land requires the utilization of water, the lessee may at any time prior to one (1) year before the expiration of his lease, make application to the board of land commissioners for permission to secure a water right to the land under his lease. Such application shall be in writing, show the permanency of the water supply, and the estimated cost of utilizing such water resources. If the proposed plan meets with the approval of the board, permission shall be granted to the lessee to secure the desired water right for the land. Such right shall be secured in accordance with Title 89, chapter 8, R.C.M. 1947, and shall be filed in the name of the state of Montana. Existing water rights purchased by the geothermal lessee shall be the property of the lessee.

Section 12. There is a new section to be numbered 81-2612, R.C.M. 1947, which reads as follows:

**81-2612. Conflicting leases.** Where there are conflicting leases, including but not limited to geothermal, coal, mineral and oil and gas leases, embracing the same land, the person who first was issued a lease shall be entitled to priority of rights, provided however that the exercise of this priority shall not interfere with actual production from the lease as determined by the board.

Section 13. There is a new section to be numbered 81-2613, R.C.M. 1947, which reads as follows:

**81-2613. Severability clause.** If any section, clause, paragraph, or provision of this act shall be found invalid by a court of competent juris-

diction, it shall be conclusively presumed that this act would have passed by the legislature without such invalid section, paragraph or clause and the act as a whole shall not be declared invalid by reason of the fact that one (1) or more sections, clauses, sentences, paragraphs, or parts may have been found invalid by any court.

Section 1. Section 50-704, R.C.M. 1947, is amended to read as follows:

**"50-704. Recording of affidavit of performance of annual work.** The owner of a lode or placer claim who performs or causes to be performed the annual work, or makes the improvements required by the laws of the United States, as permitted and defined by laws of the United States, in order to prevent the forfeiture of the claim, must, within ninety (90) days after the expiration of the federal annual assessment work period, file in the office of the county clerk of the county in which such claim or claims is situated an affidavit of his own, or an affidavit of the person who performed such work or made the improvements, showing:

1. The name of the mining claim or claims;
2. The location of the claim or claims by section, township, and range (by projected survey lines if located in unsurveyed country);
3. The book and page numbers wherein the original or latest amended relocation for each claim is recorded;
4. The number of days' work done, and the character and value of the improvements placed thereon, or the verified report required by United States mining law if geological, geophysical, or geochemical work or labor is being relied upon;
5. The dates between which such work or improvements were effected;
6. At whose instance the work was done or the improvements made;
7. The actual amount paid for work and improvements, and by whom paid when the same was not done by the owner.

Annual assessment work may be performed or caused to be performed at one (1) or more points within a group of contiguous claims and may be utilized to satisfy annual assessment work requirements upon the group of contiguous claims. *Said point or points of work may be performed upon a patented claim.* If annual assessment work is performed or caused

to be performed at one (1) or more points within a group of contiguous claims, the affidavit of performance of assessment work must be filed for the group of claims. The affidavit, in addition to requirements established by this section for affidavits of performance of assessment work, must contain a description and location of the work done upon the group at a point or points within the group, the specific names of all the claims in the group for whose benefit the work was performed, and the total cost of the work performed.

If group work is claimed for a group of claims crossing county lines, the affidavit required by this section shall be filed for recording within the required time in each of the counties in which such claims are located.

An affidavit of performance of annual assessment work must be verified, before some officer authorized to administer oaths, by the locator, or one of the locators if there be more than one, or by authorized agent. In the case of a corporation, the verification may be made by any officer thereof, or by an authorized agent. When the verification is made by an agent, the fact of the agency shall be stated in the affidavit. Such affidavits, or a certified copy thereof, are prima facie evidence of the facts therein stated. The failure to file such affidavits within the period allowed therefor shall be prima facie evidence that such labor has not been performed and that the owner of the claim or claims has abandoned and surrendered same."

## CHAPTER NO. 115

AN ACT TO AMEND SECTION 70-806, R.C.M. 1947, TO PERMIT THE BOARD OF NATURAL RESOURCES AND CONSERVATION TO WAIVE THE FILING OF AN APPLICATION WHERE UTILITIES ARE BEING RELOCATED PURSUANT TO SECTIONS 32-2414 THROUGH 32-2416, R.C.M. 1947.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 70-806, R.C.M. 1947, is amended to read as follows:

**"70-806. Application for certification — filing and contents — fees — use of filing fees — proof of service on municipalities — waiver of time requirement.** (1) At least two (2) years prior to anticipated commencement of construction of a utility facility as defined in sections 3 (3) (a) [70-803 (3) (a)], 3 (3) (b) (iv) [70-803 (3) (b) (iv)], and 3 (c) [70-803 (c)] and at least nine (9) months prior to the anticipated commencement date of the construction of a utility facility as defined in section 3 (3) (b) (iii) [70-803 (3) (b) (iii)], an applicant for a certificate shall file with the department an application, in such form as the department may prescribe, containing the following information:

(a) a description of the location and of the utility facility to be built thereon;

(b) a summary of any studies which have been made of the environmental impact of the facility;

(c) a statement explaining the need for the facility;

(d) a description of any reasonable alternate location or locations for the proposed facility, a description of the comparative merits and detriments of each location submitted, and a statement of the reasons why the primary proposed location is best suited for the facility; and

(e) such other information as the applicant may consider relevant or as the department may by regulation or order require. A copy or copies of the studies referred to in clause (b) above shall be filed with the department, if ordered, and shall be available for public inspection.

(2) A filing fee shall be deposited in the state general fund. Said fee shall be based upon the estimated cost of the facility according to the declining scale which follows. The applicant shall pay the accumulated sums calculated as follows: three percent (3%) of any estimated cost up to one million dollars (\$1,000,000); plus one percent (1%) of any estimated cost over a million dollars and up to twenty million dollars (\$20,000,000); plus one-half of one percent (0.5%) of any estimated cost over twenty million dollars (\$20,000,000) and up to one hundred million dollars (\$100,000,000); plus one-quarter of one percent (0.25%) of any amount of estimated cost over one hundred million (\$100,000,000) and up to three hundred million dollars (\$300,000,000); plus one-tenth of one percent (0.1%) of any amount of estimated cost over three hundred million dollars (\$300,000,000). It is the intent of the legislature that the revenues derived from the filing fee be used by the department in compiling the information required for rendering a decision on a certificate and for carrying out its other responsibilities under this act.

(3) Each application shall be accompanied by proof of service of a copy of such application on the chief executive officer of each municipality and the head of each government agency, charged with the duty of protecting the environment or of planning land use, in the area in which any portion of such facility is to be located, both as primarily and as alternatively proposed. The copy of such application shall be accompanied by a notice specifying the date on or about which the application is to be filed.

(4) Each application shall also be accompanied by proof that public notice thereof was given to persons, residing in the municipalities entitled to receive notice under subsection (3) of this section, by the publication of a summary of the application, and the date on or about which it is to be filed, in such newspapers as will serve substantially to inform such persons of the application.

(5) Inadvertent failure of service on, or notice to, any of the municipalities, government agencies or persons identified in subsections (3) and (4) of this section may be cured pursuant to orders of the department designed to afford them adequate notice to enable their effective participation in the proceeding. In addition, the department may, after filing, require the applicant to serve notice of the application or copies thereof or both upon such other persons, and file proof thereof, as the department may deem appropriate.

(6) An application for an amendment of a certificate shall be in such form and contain such information as the department shall prescribe. Notice of such an application shall be given as set forth in subsections (3) and (4) of this section.

(7) The board may waive compliance with the time limit of this section if an applicant makes a clear and convincing showing that an immediate need for a facility exists and that the applicant did not have knowledge that the need existed sufficiently in advance of the need to file an application within the time provided in subsection (1) of this section.

(8) *The board may, in its discretion, waive the necessity of filing an application where utility facilities are being relocated pursuant to sections 32-2414 through 32-2416, R.C.M. 1947, and where it is satisfied after an examination of the environmental impact statement filed pursuant to chapter 65 of Title 69, R.C.M. 1947, that such relocation will not significantly affect the environment.*

## CHAPTER NO. 116

AN ACT PROVIDING FOR THE SUSPENSION OF ACTION ON CERTAIN APPLICATIONS FOR PERMITS TO APPROPRIATE SURFACE WATER OR FOR CHANGES IN PURPOSE OF USE IN THE YELLOWSTONE RIVER BASIN FOR THREE (3) YEARS OR UNTIL EXISTING RIGHTS HAVE BEEN DETERMINED, WHICHEVER OCCURS FIRST; MAKING RESERVATIONS ESTABLISHED UNDER THE MONTANA WATER USE ACT PREFERRED USES OVER SUCH PERMITS; AND PROVIDING FOR AN IMMEDIATE EFFECTIVE DATE.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. There is a new section to be numbered 89-8-103, R.C.M. 1947, which reads as follows:

89-8-103. **Statement of legislative findings and policy.** The legislature, noting that appropriations have been claimed, that applications have been filed for, and that there is further widespread interest in making substantial appropriations of water in the Yellowstone River Basin, finds that these appropriations threaten the depletion of Montana's water resources to the significant detriment of existing and projected agricultural, municipal, recreational and other uses, and of wildlife and aquatic habitat. The legislature further finds that these appropriations foreclose the options to the people of this state to utilize water for other future beneficial purposes, including municipal water supplies, irrigation systems, and minimum flows for the protection of existing rights and aquatic life. The legislature pursuant to its mandate and authority under Article IX of the Montana Constitution, declares that it is the policy of this state that before these proposed appropriations are acted upon existing rights to water in the Yellowstone basin must be accurately determined for their protection, and that reservations of water within the basin must be established as rapidly as possible for the preservation and protection of existing and future beneficial uses.

Section 2. There is a new section to be numbered 89-8-104, R.C.M. 1947, which reads as follows:

89-8-104. **Definitions.** Unless the context clearly requires otherwise, in this act:

(1) "Department" means the department of natural resources and conservation.

(2) "Basin" means the Yellowstone River Basin.

(3) "Application" means an application for a permit under the Montana Water Use Act to appropriate surface water from any source of supply within the basin for either or both of the following purposes:

(a) a reservoir with a total planned capacity of fourteen thousand (14,000) acre feet or more, or

(b) for a flow rate greater than twenty (20) cubic feet of water per second.

The term also includes an application for approval under section 89-892, R.C.M. 1947, to change the purpose of use.

(4) "Reservation" means a reservation of water provided for by section 89-890 of the Montana Water Use Act.

Section 3. There is a new section to be numbered 89-8-105, R.C.M. 1947, which reads as follows:

89-8-105. **Suspension of action.** (1) The department may not grant or otherwise take any action on an application until either of the following first occurs:

(a) three (3) years have elapsed from the effective date of this act, or

(b) a final determination of existing rights has been made in the source of supply in accordance with the Montana Water Use Act.

(2) A reservation established before such application for permit is granted is a preferred use over the right to appropriate water pursuant to the permit, and the permit, if granted, shall be issued subject to that preferred use.

Section 4. There is a new section to be numbered 89-8-106, R.C.M. 1947, which reads as follows:

89-8-106. **When department may suspend action.** The department may suspend action on applications not meeting the definition of application in section 2 [89-8-104] of this act if it determines, after a public hearing conducted under the contested case procedures of the Montana Administrative Procedure Act, that the cumulative impact of those applications, if granted, would be contrary to the policies and purposes of this act. If the department suspends action on such applications, the provisions of section 3 [89-8-105] of this act apply.

Section 5. There is a new section to be numbered 89-8-107, R.C.M. 1947, which reads as follows:

89-8-107. **Reservations.** The department may apply for reservations and shall, as rapidly as possible, assist other appropriate state agencies and political subdivisions in applying for reservations within the basin. The United States or any agency thereof may not apply for a reservation of water in the basin under section 89-8-109, R.C.M. 1947, until the requirements of section 3 [89-8-105] of this act are met. Particular emphasis shall be given to applications to reserve water for agricultural, municipal, and minimum flow purposes for the protection of existing rights and aquatic life.

Section 6. There is a new section to be numbered 89-8-108, R.C.M. 1947, which reads as follows:

89-8-108. **Application of act.** This act applies to applications currently pending with the department, as well as applications filed with the department after the effective date of this act.

Section 7. There is a new section to be numbered 89-8-109, R.C.M. 1947, which reads as follows:

89-8-109. **Utility facilities.** This act does not apply to applications to appropriate water for use by a utility facility for which a certificate of environmental compatibility and public need is granted pursuant to the Montana Utility Siting Act of 1973.

Section 8. There is a new section to be numbered 89-8-110, R.C.M. 1947, which reads as follows:

89-8-110. **Certain changes of use allowed.** Notwithstanding any provision of this act, the department may approve a change of purpose of use to agricultural, irrigation, domestic and municipal uses if it determines that the change is not contrary to the policies and purposes of this act.

Section 9. There is a new section to be numbered 89-8-111, R.C.M. 1947, which reads as follows:

89-8-111. **Severability.** If a part of this is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of this act is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

Section 10. **Effective date.** This act is effective on its passage and approval.

Approved March 11, 1974

## THE LAWS RELATING TO THE DEPARTMENT OF INSTITUTIONS.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 10-611, R.C.M. 1947, is amended to read as follows:

"10-611. **Hearing — judgment.** (1) The court may conduct the hearing in an informal manner and may adjourn the hearing from time to time. In the hearing of any juvenile case, as distinguished from a case involving a child charged with the commission of or attempt to commit any of the criminal offenses set out in subdivision (2) (b) of section 10-602, the general public shall be excluded and only such persons admitted as have a direct interest in the case. *However, when the hearing in the juvenile court is had on a written petition charging the commission of any felony, persons having a legitimate interest in the proceeding, including responsible representatives of public information media, shall not be excluded from the hearing.* All cases involving children shall be heard separately and apart from the trial of cases against adults.

(2) If the court *finds* that the child is delinquent within the provisions of this act, it may, by order duly entered, proceed as follows:

(a) Place the child on probation or under supervision upon such terms as the court *determines*;

(b) Commit the child to a suitable public institution or agency, except youth forest camps; or commit the child to the department of institutions or to a suitable private institution or agency incorporated under the laws of the state, approved by the department of *social and rehabilitation services*, and authorized to care for children; or place them in suitable foster homes, approved by the department of *social and rehabilitation services*, or the probation department;

(c) In the case of a child of the age of sixteen (16) years or older, who the court feels would be a suitable person for placement at a youth forest camp, the court should notify the department of institutions of such finding and the department of institutions should designate to the court the juvenile facility to which the child should be delivered for evaluation. The court may then commit *the* child to the department of institutions for not to exceed thirty (30) days for the purpose of evaluation as to *the* child's suitability for such placement, and order the child delivered for evaluation to the juvenile facility designated by the *department of institutions*. If after *the* evaluation, the department of institutions reports to the court that *the* child is suitable for placement in a youth forest camp, and if there is space available at *the* camp, the court may commit *the* child directly to the youth forest camp under the terms and conditions of the commitment provided for in this act. If, however, the department of institutions reports to the court that *the* child is not suitable for placement in *the* camp, stating the reasons therefor, he shall be returned to the court for such further disposition as the court *considers* advisable under the provisions of this act. The costs of transporting *the* child to the designated juvenile facility for evaluation and the cost of returning *the* child to the court, should that become necessary, shall be borne by the county of *the* child's residence.

(d) Order such further care and treatment as the court *considers* best for the child, except as herein otherwise provided.

(3) No commitment of any delinquent child to any institution under this act shall be *considered* commitment to a penal institution. No adjudication upon the status of any delinquent child in the jurisdiction of the court shall operate to impose any of the civil disabilities ordinarily imposed by conviction, nor shall any delinquent child be *considered* a criminal by reason of such adjudication, nor shall such adjudication be *considered* a conviction, nor shall any child be charged with or convicted of any crime in any court except as provided in the preceding section of this act. The disposition of the delinquent child or any evidence given in the court is not admissible as evidence against the child in any other case or proceeding.

(4) *When* the court *commits* a delinquent child to any institution or agency, it shall transmit with the order of commitment a summary of its information concerning *the* child.

If the district judge, by the order granting the stay, commits the accused insane to the custody of any person other than a peace officer, he may, by *the* order, require a bond for his appearance at the trial. If a judge refuses to grant an application for an order of commitment of an insane person alleged to be dangerous to himself and others, if at large, he must state his reasons for refusal, and any person aggrieved by *his refusal* may demand a trial of the question of the insanity of *the* accused insane, in the manner provided *in this section* for a jury trial when demanded by or on behalf of the accused insane.

(5) If the person sought to be committed is not a poor or indigent person, the costs of the proceedings are a charge upon his estate, or must be paid by persons legally liable for his maintenance, unless otherwise ordered by the judge. If the alleged insane person is adjudged not to be insane, the judge may, in his discretion, charge the costs of the proceedings to the person making the application for an order of commitment, and judgment may be entered against him for the amount thereof and enforced by execution."

If no protest or objection is filed, or if a protest or objection is filed and a hearing held thereon, *and the judge approves the transfer*, the judge shall make an order approving the transfer, *and the transfer may be made*. However, if a protest or objection is filed, and after a hearing thereon, the judge makes an order disapproving *the transfer*, the transfer shall not be made.

Every prisoner while on parole shall remain in the legal custody of the institution from which he was released, but shall be subject to the orders of the board.

(4) The board may adopt other rules it *considers* proper or necessary, with respect to the eligibility of prisoners for parole, *and* the conduct of parole hearings or conditions to be imposed upon parolees. *When* an order for parole is issued it shall recite the conditions thereof."

Section 88. Section 95-505, R.C.M. 1947, is amended to read as follows:

"95-505. **Psychiatric examination of defendant with respect to mental disease or defect.** (1) *When* the defendant has filed a notice of intention to rely on the defense of mental disease or defect excluding responsibility, or there is reason to doubt his fitness to proceed, or reason to believe that mental disease or defect of the defendant will otherwise become an issue in the cause, the court shall appoint at least one (1) qualified psychiatrist or shall request the superintendent of *Warm Springs* state hospital to designate at least one (1) qualified psychiatrist, which designation may be or include himself, to examine and report upon the mental condition of the defendant. The court may order the defendant to be committed to a hospital or other suitable facility for the purpose of the examination for a period of not exceeding sixty (60) days or such

longer period as the court determines to be necessary for the purpose, and may direct that a qualified psychiatrist retained by the defendant be permitted to witness and participate in the examination.

(2) In *the* examination any method may be employed which is accepted by the medical profession for the examination of those alleged to be suffering from mental disease or defect.

(3) The report of the examination shall include the following:

(a) A description of the nature of the examination;

(b) A diagnosis of the mental condition of the defendant;

(c) If the defendant suffers from a mental disease or defect, an opinion as to his capacity to understand the proceedings against him and to assist in his own defense;

(d) When a notice of intention to rely on the defense of irresponsibility has been filed, an opinion as to the ability of the defendant to appreciate the criminality of his conduct or to conform his conduct to the requirements of law at the time of the criminal conduct charged; and

(e) When directed by the court, an opinion as to the capacity of the defendant to have a particular state of mind which is an element of the offense charged.

(4) If the examination cannot be conducted by reason of the unwillingness of the defendant to participate therein, the report shall so state and shall include, if possible, an opinion as to whether *the* unwillingness of the defendant was the result of mental disease or defect.

(5) The report of the examination shall be filed (in triplicate) with the clerk of court, who shall *deliver copies* to the county attorney and to counsel for the defendant."

Section 89. Section 95-506, R.C.M. 1947, is amended to read as follows:

"95-506. Determination of fitness to proceed — effect of finding of unfitness — proceedings if fitness is regained. (1) When the defendant's fitness to proceed is drawn in question, the issue shall be determined by the court. If neither the county attorney nor counsel for the defendant contests the finding of the report filed *under* section 95-505, the court may make the determination on the basis of *the* report. If the finding is contested, the court shall hold a hearing on the issue. If the report is received in evidence upon *the* hearing, the parties have the right to summon and cross-examine the psychiatrists who joined in the report and to offer evidence upon the issue.

(2) If the court determines that the defendant lacks fitness to proceed, the proceeding against him shall be suspended, except as provided in subsection (3) of this section, and the court shall commit him to the custody of the superintendent of *Warm Springs* state hospital, to be placed in an appropriate institution of the department of institutions for so long as *the* unfitness *endures*. When the court, on its own motion or upon the

application of the superintendent of *Warm Springs* state hospital, or the county attorney, or the defendant or his legal representative, determines, after a hearing if a hearing is requested, that the defendant has regained fitness to proceed, the proceeding shall be resumed. If, however, the court is of the view that so much time has elapsed since the commitment of the defendant that it would be unjust to resume the criminal proceedings, the court may dismiss the charge and may order the defendant to be discharged, or, subject to the law governing the civil commitment of persons suffering from mental disease or defect, order the defendant committed to an appropriate institution of the department of institutions.

(3) The fact that the defendant is unfit to proceed does not preclude any legal objection to the prosecution which is susceptible to fair determination prior to trial and without the personal participation of the defendant.

(4) The expenses of sending the defendant to the custody of the superintendent of the Montana state hospital, to be placed in an appropriate institution of the state department of institutions, of keeping him there, and of bringing him back, are in the first instance chargeable to the county in which the indictment was found, or the information filed; but the county may recover them from the estate of the defendant, if he has any, or from a town, city or county bound to provide for and maintain him elsewhere."

Section 90. Section 95-507, R.C.M. 1947, is amended to read as follows:

**"95-507. Determination of irresponsibility on basis of report — access to defendant by psychiatrist of his own choice — form of expert testimony when issue of responsibility is tried.** (1) If the report filed *under* section 95-505 finds that the defendant at the time of the criminal conduct charged suffered from a mental disease or defect which rendered him unable to appreciate the criminality of his conduct or to conform his conduct to the requirements of law, and the court, after a hearing if a hearing is requested by the attorney prosecuting or the defendant, is satisfied that *the* mental disease or defect was sufficient to exclude responsibility, the court on motion of the defendant shall enter judgment of acquittal on the ground of mental disease or defect excluding responsibility.

(2) When either the defendant or the state wishes the defendant to be examined by a qualified psychiatrist or other expert, selected by the one proposing the examination, *the* examiner shall be permitted to have reasonable access to the defendant for the purpose of *the* examination.

(3) Upon the trial, any psychiatrist who reported *under* section 95-505 may be called as a witness by the prosecution or by the defense. If the issue is being tried before a jury, the jury shall not be informed that the psychiatrist was designated by the court or by the superintendent of *Warm Springs* state hospital. Both the prosecution and the defense may summon any other qualified psychiatrist or other expert to testify, but no one who has not examined the defendant *is* competent to testify to an expert opinion with respect to the mental condition or responsibility

of the defendant, as distinguished from the validity of the procedure followed by, or the general scientific propositions stated by another witness.

(4) When a psychiatrist or other expert who has examined the defendant testifies concerning his mental condition, he *may* make a statement as to the nature of his examination, his diagnosis of the mental condition of the defendant at the time of the commission of the offense charged, and his opinion as to the ability of the defendant to appreciate the criminality of his conduct or to conform his conduct to the requirements of law or to have a particular state of mind which is an element of the offense charged. He *may* make any explanation reasonably serving to clarify his diagnosis and opinion and may be cross-examined as to any matter bearing on his competency or credibility or the validity of his diagnosis or opinion."

Section 91. Section 95-508, R.C.M. 1947, is amended to read as follows:

**"95-508. Legal effect of acquittal on the ground of mental disease or defect excluding responsibility — commitment — release or discharge.** (1) When a defendant is acquitted on the ground of mental disease or defect excluding responsibility, the court shall order him committed to the custody of the superintendent of *Warm Springs* state hospital to be placed in an appropriate institution for custody, care, and treatment. A person so confined shall have a hearing, unless waived, within fifty (50) days of his confinement to determine his present mental condition and whether he may be discharged or released without danger to others. The court shall cause notice of the hearing to be served upon the person, his counsel and the prosecuting attorney. Such a hearing shall be deemed a civil proceeding and the burden shall be upon the defendant to prove by a preponderance of the evidence that he may be safely released. According to the determination of the court upon the hearing, the defendant shall be discharged or released on such conditions as the court determines to be necessary, or shall be committed to the custody of the superintendent of the Montana state hospital to be placed in an appropriate institution for custody, care and treatment.

(2) If the superintendent of *Warm Springs* state hospital believes that a person committed to his custody, *under* subsection (1) of this section, may be discharged or released on condition without danger to himself or others, he shall make application for the discharge or release of *the* person in a report to the court by which *the* person was committed, and shall *send* a copy of *the* application and report to the county attorney of the county from which the defendant was committed. The court shall *then* appoint at least two (2) qualified psychiatrists to examine *the* person and to report within sixty (60) days, or *a* longer period *which* the court determines to be necessary for the purpose, their opinion as to his mental condition. To facilitate *the* examinations and the proceedings thereon, the court may *have the* person confined in any institution located near the place where the court sits, which may hereafter be designated by the superintendent of *Warm Springs* state hospital as suitable for the temporary detention of irresponsible persons.

(3) If the court is satisfied by the report filed *under* subsection (2) of

this section, and *the* testimony of the reporting psychiatrists *which* the court *considers* necessary that the committed person may be discharged or released on condition without danger to himself or others, the court shall order his discharge or his release on conditions *which* the court determines to be necessary. If the court is not satisfied, it shall promptly order a hearing to determine whether *the* person may safely be discharged or released. A hearing *is considered* a civil proceeding and the burden *is* upon the committed person to prove by a preponderance of the evidence that he may safely be discharged or released. According to the determination of the court upon the hearing, the committed person shall *then* be discharged or released on conditions *which* the court determines to be necessary, or shall be recommitted to the custody of the superintendent of Warm Springs state hospital, subject to discharge or release only in accordance with the procedure prescribed above in subsections (2) and (3).

(4) If, within five (5) years after the conditional release of a committed person, the court *determines*, after hearing evidence, that the conditions of release have not been fulfilled and that for the safety of *the* person or for the safety of others his conditional release should be revoked, the court shall *immediately* order him to be recommitted to the superintendent of Warm Springs state hospital, subject to discharge or release only in accordance with the procedure prescribed above in subsections (2) and (3).

(5) A committed person may make application for his discharge or release to the court by which he was committed, and the procedure to be followed upon *the* application *is* the same as that prescribed above in the case of an application by the superintendent of Warm Springs state hospital. However, *an* application by a committed person need *not* be considered until he has been confined for a period of not less than six (6) months from the date of the order of commitment, and if the determination of the court *is* adverse to the application, *the* person shall not be permitted to file a further application until one (1) year has elapsed from the date of any preceding hearing on an application for his release or discharge."

Section 92. Section 95-2218, R.C.M. 1947, is amended to read as follows:

Such specific factors may include, but shall not be limited to, the following items:

(1) Current and prospective supplies of milk in relation to current and prospective demands for such milk for all purposes;

(2) The ability and willingness of consumers to purchase, which shall include among other things, per capita disposable income statistics, consumer price indices, and wholesale price indices;

(3) The cost factors in producing milk, which shall include among other things the prices paid by farmers generally (as used in parity calculations of the United States Department of Agriculture), prices paid by farmers for dairy feed in particular and farm wage rates in this state;

(4) The alternative opportunities, both farm and nonfarm, open to milk producers, which shall include among other things, prices received by farmers for all products other than milk, prices received by farmers for beef cattle, and the percentage of unemployment in the state and nation as determined by appropriate state and federal agencies;

(5) The prices of butter-nonfat dry milk, and cheese;

(6) The cost factors in distributing milk, which shall include among other things the prices paid by distributors for equipment of all types required to process and market milk and prevailing wage rates in this state;

(7) The cost factors in jobbing milk, which shall include among other things raw product and ingredient costs, carton or other packaging cost, processing cost and that part of general administrative costs of the supplying distributor which may properly be allocated to the handling of milk to the point at which such milk is at the supplying distributor's dock, equipment of all types required to market milk and prevailing wage rates in the state;

(8) The need, if any, for freight or transportation charges to be deducted by distributors from producer prices for bulk milk;

(9) A reasonable return on necessary investment to all ordinarily efficient and economical milk dealers.

If the board at any time proposes to base all or any part of any official order establishing or revising any milk pricing formulas upon facts within its own knowledge, as distinguished from evidence which may be presented to it by the consuming public or the milk industry, the board shall, *when publishing notice of proposed rule making under authority of this section*, cause notice to be given to the consuming public and the milk industry of the specific facts within its own knowledge which it will consider, so that all interested parties will have opportunity to be heard and to question or rebut such facts as a matter of record.

The board, after consideration of the evidence produced, shall make written findings and conclusions and shall fix by official *rule*:

(a) The formula whereby minimum producer prices for milk in classes I, II, and III shall be computed.

(b) The formula whereby minimum wholesale prices for milk in class I shall be computed.

(c) The formula whereby minimum jobber prices for milk in class I shall be computed.

(d) The formula whereby minimum retail prices for milk in class I shall be computed.

This section shall not be construed as requiring the board to promulgate any specific number of formulas, but shall be construed liberally so that the board may adopt any reasonable method of expression to accomplish the objective set forth in (a), (b), (c), and (d) above. If the evidence presented to the board at any public hearing for the establishment or revision of milk pricing formulas is found by the board to require the establishment of separate and varying wholesale prices for any particular uses, the board shall designate the reasons therefor and establish such separate formulas.

Each *rule* establishing or revising any milk pricing formulas shall classify milk by forms, classes, grades or uses as the board may deem advisable and shall specify the minimum prices therefor.

The milk produced in one natural marketing area and sold in another natural marketing area shall be paid for by a distributor or dealer in accordance with the pricing order of the area where produced at the price therein specified of the class or use in which it is ultimately used or sold.

No allowance for freight, other than freight for transportation of milk from the farm to plant, shall be charged to a producer by a distributor or dealer unless it is found and ordered by the board, after notice and hearing in the manner hereinbefore specified, that such an additional freight allowance is necessary to permit the movement of milk in the public interest.

All milk purchased within a natural marketing area by a distributor shall be purchased on a uniform basis. The basis to be used shall be established by the board after the producers and the distributors of the area have been consulted.

The board may amend any official *rule* in the same manner provided herein for the original establishment of milk pricing formulas; provided, further, the board may in its discretion, when it determines the need exists, notice and hold state-wide public hearings affecting establishment or revision of milk pricing formulas in all market areas of the state.

Upon petition of a distributor or a majority of his producers, the board shall hold a hearing to receive and consider evidence regarding the advisability and need for a base or quota plan as a method of payment by that distributor of producer prices; and if the board finds that the evidence adduced at such hearing warrants the establishment of a base or quota plan, the board shall proceed by official order to establish the same.

Upon petition by any producer, producer-distributor or distributor in any marketing area, the board shall hold a hearing to receive and consider evidence regarding the advisability and need for an area-wide or state-wide pooling arrangement as a method of payment of producer prices, provided that at such hearing the board shall among other things specifically receive and consider evidence concerning production and marketing practices which have historically prevailed in the area concerned or state-wide, as the case may be; and if the board finds that the evidence adduced at such hearing warrants the establishment of such an area-wide or state-wide pooling arrangement, the board shall proceed by official order to establish the same, but such official order shall be of no force or effect until it is approved in a referendum conducted by the board among affected producers, producer-distributors, and distributors.

The requirements hereinabove set forth concerning notices of hearings for the establishment of milk pricing formulas shall apply to any hearings regarding base or quota plans or area-wide or state-wide pooling arrangements, or abandonment thereof."

Section 2. Section 27-409, R.C.M. 1947, is amended to read as follows:

"27-409. **Licenses — disposition of income.** No producer, producer-distributor, distributor or jobber shall engage in the business of producing or selling milk subject to this act in this state without first having obtained a license from the *department of livestock, animal health division* or, in the case of milk entering this state from another state or foreign nation, without complying with the requirements of the Montana Food, Drug and Cosmetic Act, and without being licensed under this act by the *department of business regulation*. The annual fee for such license from the *department of business regulation* shall be two dollars (\$2), shall be

due and payable on or before the first day of July, and shall be deposited by said *department* to the credit of the general fund.

In addition to such annual license fee, the *department* shall, in each year, on or before the first day of April, for the purpose of securing funds to administer and enforce this act, levy an assessment upon producers, producer-distributors, and distributors as follows:

(a) A fee per hundredweight on the total volume of all milk subject to this act produced and sold by a producer-distributor.

(b) A fee per hundredweight on the total volume of all milk subject to this act sold by a producer.

(c) A fee per hundredweight on the total volume of all milk subject to this act sold by a distributor, excepting that which is sold to another distributor.

*The department shall adopt rules fixing the amount of each fee. The amounts may not exceed levels sufficient to provide for the administration of this act. The fee assessed on a producer or on a distributor may not be more than one-half (½) the fee assessed on a producer-distributor.*

Said assessment upon producer-distributors, producers, and distributors shall be paid quarterly on or before the fifteenth [15th] day of July, October, January and April of each year, and the amount of such assessment shall be computed by applying the fee designated by the *department* to the volume of milk sold in the calendar quarter immediately preceding.

Failure of any producer, producer-distributor, or distributor to pay said assessment when due shall constitute violation of this act and his license under this act shall thereupon automatically terminate and be null and void and of no effect. Reinstatement of a license so terminated shall be affected by payment of a delinquency fee equal to thirty per cent (30%) of the assessment which was due.

All assessments hereinbefore required to be paid shall be deposited by the *department of business regulation* in the earmarked revenue fund; and all costs of administering this act, including the salaries of employees and assistants, per diem and expenses of board members, and all other disbursements necessary to carry out the purpose of this act, shall be paid out of *department of business regulation* moneys in such fund.

The *department* may, if it finds the costs of administering and enforcing this act can be derived from lower rates, *amend its rules to fix the rates at a less amount on or before the first day of April in any year.*"

Section 3. This act is effective on its passage and approval.

AN ACT AMENDING SECTION 60-145, R.C.M. 1947, TO ALLOW

**SIXTY (60) DAYS FOR FILING CRUDE OIL PRODUCTION AND NATURAL GAS PRODUCTION STATEMENTS.**

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 60-145, R.C.M. 1947, is amended to read as follows:

**"60-145. Privilege and license tax — quarterly statements — penalties — drilling permit fees — oil and gas conservation moneys.**

A. For the purpose of providing funds for defraying the expenses of the operation and enforcement of this act, and expenses of said oil and gas conservation commission, the operators and producers of oil and gas shall be required to pay, and they will pay, an assessment not to exceed the amounts set forth in the following schedule on each and every barrel of crude petroleum originally produced, saved and marketed or stored within the state of Montana, or exported from the state of Montana, and on each and every ten thousand (10,000) cubic feet of natural gas produced, saved and marketed or stored within the state of Montana, or exported therefrom, to wit:

(1) On leases on which wells are producing an average of twenty-five (25) barrels of crude petroleum per day, or less, an assessment not to exceed three-eighths of one cent ( $\frac{3}{8}\text{¢}$ ) per barrel;

(2) On leases on which wells are producing an average of more than twenty-five (25) barrels of crude petroleum per day, an assessment not to exceed three-fourths of one cent ( $\frac{3}{4}\text{¢}$ ) per barrel;

(3) And, on wells producing, saving and marketing, storing, or exporting, natural gas, said operators and producers shall pay an assessment not to exceed two and one-half ( $2\frac{1}{2}$ ) mills per ten thousand (10,000) cubic feet of natural gas where said gas is marketed for less than fifteen cents (15¢) per thousand (1,000) cubic feet and an assessment not to exceed five (5) mills per ten thousand (10,000) cubic feet of natural gas where said gas is marketed for fifteen cents (15¢) or more per thousand (1,000) cubic feet. Such payments shall be made during the time the oil and gas conservation commission is in existence. The commission shall by order, without prior notice and/or hearing, fix the amount of such assessments in the first instance and may, from time to time, without prior notice and/or hearing, reduce or increase the amount thereof as, in its judgment, the expenses chargeable against the oil and gas conservation fund may require; provided, however, that in no event shall the assessments fixed by the commission exceed the said limits hereinabove prescribed. The amounts of such assessments to be fixed by the commission in the first instance and from time to time as herein provided, shall be a percentage factor (not to exceed one hundred percent (100%)) of the rates set forth in subparagraphs (1), (2) and (3) above, and the same percentage factor shall be used and applied by the commission in fixing the amount of the assessment on each barrel of crude production and each ten thousand (10,000) cubic feet of natural gas mentioned in said subparagraphs (1), (2) and (3) above. The producers of said crude petroleum and natural gas shall pay such assessments on each and every barrel of crude petroleum and each ten thousand (10,000) cubic feet of natural gas produced

for themselves, as well as for others, including royalty holders, and said producers shall be reimbursed for such payments made on crude oil and natural gas produced for others in the same manner as they are reimbursed for net proceeds tax paid on crude petroleum or natural gas produced for others as provided for in section 84-6208.

For the purposes of this section, a "lease" shall mean that particularly described tract of land contained in a contract in writing, under seal, whereby a person having a legal estate in the land so described conveys a portion of his interest to another, in consideration of a certain rental or other recompense or consideration. Further, for the purposes of this section, leases owned or operated by one lessee which in whole or in part cover or affect an underground reservoir containing a common accumulation of crude petroleum oil or natural gas, or both, or which are encompassed within or affected by one particular unit agreement shall be considered as one lease relative to payments to be made under this section.

In addition to the above-mentioned privilege and license tax, any person, before commencing the drilling of any oil or gas well or stratigraphic test well or core hole, shall secure from the commission a drilling permit and shall pay to the commission therefor the following amounts: for each well whose estimated depth is thirty-five hundred (3500) feet or less, twenty-five dollars (\$25); from thirty-five hundred and one (3501) feet to seven thousand (7,000) feet, seventy-five dollars (\$75); seven thousand (7,000) feet and deeper, one hundred fifty dollars (\$150).

B. Each producer of crude petroleum in the state of Montana shall, not later than the last day of each of the calendar months of *February, May, August and November*, of each and every calendar year, render a true statement to the state treasurer of the state of Montana, and a duplicate thereof to the commission, duly signed and sworn to, of all crude petroleum produced by him in this state during the preceding *quarter*, and containing such other information as the commission may require, and shall accompany such statement with the payment to the state treasurer of the assessment provided for in subsection A. of this section, above, for the period covered by such statement. Each producer of natural gas in the state of Montana shall render like statements to the state treasurer of all natural gas produced by him in this state, and shall make payment of the assessment provided for in said subsection A. of this section, above, at such times and for such periods as may be prescribed by regulation of the commission. Any producer carrying on business at more than one (1) place or location in this state may include all such places of business in one (1) statement.

C. Any such assessment not paid within the time herein specified shall be delinquent, and a penalty of twenty-five per cent (25%) thereof shall be added thereto and the whole thereof shall bear interest at the rate of one *percent* (1%) per month from the date of delinquency until paid. Upon request of the commission it shall be the duty of the attorney general to commence and prosecute to final determination in any court of competent jurisdiction an action at law to collect the same.

D. All money collected under the provisions of this act shall be deposited in the earmarked revenue fund by the state treasurer of the state

of Montana, and shall be used for the purpose of paying all expenses of said commission and for no other purpose; all such moneys shall be used by said commission subject to the approval of the controller and biennial appropriations by the legislative assembly. Upon the termination of said commission any such money remaining shall be paid over to the general fund of the state. All accounts and expenditures of said commission shall be certified by the commission, approved as provided by law, and paid by the state treasurer.

E. The commission may appoint a secretary and employ such other persons as experts, assistants, clerks, and stenographers, as may be deemed necessary to perform the duties that may be required of it, and fix their compensation; provided, however, that the total expenditures of such commission shall not exceed in the aggregate during any fiscal year, the amount actually collected under the provisions of subsection A. of this section, above, plus any amount appropriated for that purpose. The members of the commission shall be allowed their several expenses incurred in the discharge of their duties, as is elsewhere provided in this act."

AN ACT LIMITING EACH SIDE TO THREE (3) PEREMPTORY CHALLENGES WHEN A CIVIL OR CRIMINAL CASE IS TRIED BEFORE A SIX (6) PERSON JURY IN DISTRICT COURT; AND AMENDING SECTION 95-1909, R.C.M. 1947.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 95-1909, R.C.M. 1947, is amended to read as follows:

"95-1909. **Trial jurors.** (a) The clerk of court shall make available to the parties a list of prospective jurors with their addresses when drawn.

(b) (1) The qualifications of jurors, and who will be exempted, are found in sections 93-1301 through 93-1307, of the Civil Code, which by reference are made a part of this code.

(2) An exemption from service on a jury is not a cause of challenge, but the privilege of the person exempted.

(c) The county attorney and the defendant or his attorney shall conduct the examination of prospective jurors. The court may conduct an additional examination. The court may limit the examination by the defendant, his attorney or the prosecuting attorney if the court believes such examination to be improper.

(d) (1) Each party may challenge jurors for cause, and each challenge must be tried by the court.

(2) A challenge for cause may be taken for all or any of the following reasons; or for any other reason which the court determines:

(i) Consanguinity or relationship to the person alleged to be injured by the offense charged, or on whose complaint the prosecution was instituted, or to the defendant.

(ii) Standing in the relation of guardian and ward, attorney and client, master and servant, or landlord and tenant, debtor and creditor, or being a member of the family of the defendant, or of the person alleged to be injured by the offense charged, or on whose complaint the prosecution was instituted, or in his employment.

(iii) Being a party adverse to the defendant in a civil action, or having complained against or been accused by him in a criminal prosecution.

(iv) Having served on the grand jury which found the indictment, or on a coroner's jury which inquired into the death of a person whose death is the subject of the indictment or information.

(v) Having served on a trial jury which has tried another person for the offense charged.

(vi) Having been one of a jury formerly sworn to try the same charge, and whose verdict was set aside or which was discharged without verdict, after the case was submitted to it.

(vii) Having served as a juror in a civil action brought against the defendant for the act charged as an offense.

(viii) If the offense charged be punishable with death, with entertaining of such conscientious opinions as would preclude his finding the defendant guilty; in which case he must neither be permitted nor compelled to serve as a juror.

(ix) Having a belief that the punishment fixed by law is too severe for the offense charged.

(x) For the existence of a state of mind on the part of the juror in reference to the case, or to either of the parties, which will prevent him from acting with entire impartiality and without prejudice to the substantial rights of either party.

(e) All challenges must be interposed before the jury is sworn, unless the cause of challenge be discovered after the jury is sworn and before the introduction of any evidence, when the court, in its discretion may allow the challenge to be interposed.

(f) Each defendant shall be allowed eight (8) peremptory challenges in capital cases, six (6) in all other cases tried in the district court *before a twelve (12) person jury*, and three (3) in all cases tried in justice of the peace or police courts. However, there may not be additional challenges for separate counts charged in the indictment or information. If the indictment or information charges a capital offense, as well as lesser offenses in separate counts, the maximum number of challenges shall be eight (8). The state shall be allowed the same number of peremptory challenges as all of the defendants. *In a civil or criminal case tried in the*

*district court before a six (6) person jury, the state and all the defendants shall be allowed three (3) peremptory challenges each.*

(g) After the jury is impaneled and sworn, the court may direct the selection of one or more alternate jurors, in the same manner as principal jurors, who shall take the same oath as the principal jurors. Each party shall have one additional peremptory challenge for each alternate juror. Alternate jurors in the order in which they are called shall replace jurors who, prior to the time the jury arrives at its verdict, become unable or disqualified to perform their duties. An alternate juror shall not join the jury in its deliberation unless called upon by the court to replace a member of the jury. His conduct during the period in which the jury is considering its verdict shall be regulated by instructions of the trial court. An alternate juror who does not replace a principal juror shall be discharged after the jury arrives at its verdict.

(h) The jury shall return a general verdict to each offense charged.

(i) When, at the close of the state's evidence or at the close of all the evidence, the evidence is insufficient to support a finding or verdict of guilty, the court may on its own motion or on the motion of the defendant, dismiss the action and discharge the defendant. However, the court may allow the case to be reopened for good cause shown."

## CHAPTER NO. 160

AN ACT AMENDING SECTIONS 82-2701, 82-2702 AND 82-2703, R.C.M. 1947; TO QUALIFY LANDLESS INDIANS FOR PARTICIPATION IN FEDERAL PROGRAMS IN CONFORMATION WITH FEDERAL LAW; PROVIDING THAT THE INDIAN COORDINATOR BE AN INDIAN AND SERVE AT THE PLEASURE OF THE GOVERNOR; AND DELETING OBSOLETE LANGUAGE.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 82-2701, R.C.M. 1947, is amended to read as follows:

"82-2701. **Legislative policy.** Whereas, a considerable portion of the citizens of the state of Montana are members of the Indian race, and,

Whereas, in the course of the past eighty years these Indian citizens of the state of Montana have been driven from their native valleys and plains and are at present living and residing upon reservations set apart for such purposes by the United States of America, and by virtue of *that* isolation and *of* supervision by the federal government, great problems of economic and social significance have arisen and presently exist, and that no suitable progress has been made to solve such problems by reason of the fact that the Indians and those who are attempting to aid them in the solution of their problems have never been able to present a co-ordinated and united effort in solving such problems, and

Whereas, it is hereby declared that it is the legislative policy of this state that the best interests of the Indians will be served by the fostering of a program which is designed to establish and place our Indian citizens in a position to take their rightful place in our society, and assume the rights, duties and privileges of full citizenship *and as Indians*, it is therefore necessary that a state office of the co-ordinator of Indian affairs be established so that the problems of the Indians of Montana can be approached and reconciled from a state level in co-operation with the United States of America, and

Whereas, agencies of the federal government retain jurisdiction on Indian reservations in the state of Montana *of* the administration of economic, social, health, education and welfare programs for Indians, and

Whereas, Indians who reside off reservations generally qualify for

participation in federal programs, *but* are often prohibited from voting on tribal affairs and for tribal officers, and

Whereas, there are sizeable numbers of off-reservation Indians residing in our state of both enrolled and unofficial tribal descent (landless) whose needs for environmental assistance are borne by state and local agencies, and that these needs are derived from problems shared by all Indians, whether they reside on reservations or not, and in consideration of their desire for official voice and representation in seeking solutions to their problems, and

Whereas, programs of the state of Montana should not duplicate those supported by agencies of the federal government as regards jurisdiction of Indian people, and since state responsibility is effected with off-reservation Indians, and since *those* Indians require assistance to co-ordinate their affairs with various tribal groups and federal agencies where they have no official recognition,

Then therefore, let it be resolved that the co-ordinator of Indian affairs should assess the problems of all Indians to include those who reside off known reservations, and who seek ways and means of communicating their opinions and needs to agencies of responsibility, and that the co-ordinator should actively assist *them* in organizing *their* efforts and that he act as representative and spokesman for organized bodies of Indian people whether reservation or off-reservation classification, whenever *his* assistance is required."

Section 2. Section 82-2702, R.C.M. 1947, is amended to read as follows:

"82-2702. **Office of state co-ordinator of Indian affairs created — appointment of co-ordinator — term — office.** The office of the state co-ordinator of Indian affairs is hereby created. The co-ordinator shall be appointed by the governor from a list of five (5) qualified *Indian applicants* agreed upon by the tribal councils of the respective Indian tribes of the state *and shall serve at the pleasure of the governor.*"

Section 3. Section 82-2703, R.C.M. 1947, is amended to read as follows:

"82-2703. **Duties of co-ordinator.** It shall be the duty of the state co-ordinator of Indian affairs to carry out the legislative policy set forth in section 82-2701.

He shall acquaint himself with the problems confronting the Indians of Montana and he shall advise the legislative and executive branches of the state of Montana of *those* problems and shall make recommendations for the alleviation thereof. He shall also serve the Montana delegation in the federal Congress as an adviser and intermediary in the field of Indian affairs, and shall act as spokesman for representative Indian organizations and groups, public and private, whenever *his* support is solicited."

Approved March 11, 1974

82-1930. **Statement of purpose and policy.** It is the purpose of this act and is hereby declared to be the policy of this state that, whereas the existence of a strong and healthy free enterprise system is directly related to the well-being and competitive strength of small business concerns, and to the opportunity for small businesses to have free entry into business, to grow and to expand, the state shall insure that a fair proportion of its total purchases and contracts for property and services be placed with small business concerns.

Section 3. There is a new section to be numbered 82-1931, R.C.M. 1947, which reads as follows:

82-1931. **Definitions.** As used in this act, unless the context requires otherwise:

In the case of purchase designated as small business set-asides, invitations to bid shall be confined to small businesses and bids from other businesses shall be rejected. The purpose, contract or expenditure of funds shall be awarded to the lowest responsible bidder among the small businesses (considering conformity with specifications and terms) in accordance with the rules and regulations for purchasing published by the department.

If a department withdraws the designation of small business set-aside it shall notify the bidders of the reason why the bids were rejected. Invitations to bid containing the same or rewritten specifications and terms shall then be re-issued under the Montana Small Business Purchasing Act, without the designation of small business set-aside.

Section 6. There is a new section to be numbered 82-1934, R.C.M. 1947, which reads as follows:

A department shall send a purchase order to the successful bidder no later than fourteen (14) days after the appearance of the advertisement announcing the successful bidder.

MANDATORY FOR THE COUNTY DEPARTMENT OF PUBLIC WELFARE TO HAVE A RECIPIENT OF GENERAL RELIEF WORK IF THE COUNTY HAS WORK AVAILABLE WHICH A RECIPIENT IS CAPABLE OF PERFORMING.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 71-307, R.C.M. 1947, is amended to read as follows:

**"71-307. Relief by check or disbursing orders.** All relief disbursements by county departments of public welfare shall be by warrant or check; provided, however, that if the county welfare department finds that a recipient is in the habit of dissipating relief allowances instead of using them for the purposes intended, or that for any other reason it is better for the recipient and his family to receive the allowance through disbursing orders, then disbursing orders shall be used instead of cash payments; but all such disbursing orders must be written in such form that the goods and merchandise to be provided may be furnished by any regular dealer in such goods and merchandise within the county. *A recipient of general relief must register for employment with the State Employment Service and must accept available employment within his or her capability. Refusal to accept such employment will render the recipient ineligible for further general relief assistance.* It is further provided, however, that if the county has work available which a recipient of general relief is capable of performing, then the county department of public welfare may require the recipient to perform such work at the prevailing rate of wages paid by that county for similar work to be paid from the county poor fund in place of granting him general relief.

The county department of public welfare shall provide coverage under the Workmen's Compensation Act for those recipients of general relief working under the provisions hereof, and is authorized to enter into such agreements with the industrial accident board as may be necessary to carry out the provisions of this section.

Any recipient of general relief who is subject to the provisions of this section and who without cause refuses to perform work assigned to him as herein provided, shall lose his eligibility for general relief for a period of one (1) week for each refusal."

Section 87. There is a new section to be numbered 3-1714.1, R.C.M. 1947, which reads as follows:

**3-1714.1. Guaranteed analysis.** (1) Until the department prescribes the alternative form under subsection (2) of this section, "guaranteed analysis" means the minimum percentage of plant nutrients claimed in the following order and form:

(a) Total nitrogen (N).....percent

Available phosphoric acid (P<sub>2</sub>O<sub>5</sub>).....percent

Soluble potash (K<sub>2</sub>O).....percent

(b) For unacidulated mineral phosphatic materials and basic slag, guaranteed analysis includes both total and available phosphoric acid and the degree of fineness.

(c) For bone, tankage, and other organic phosphatic materials, guaranteed analysis includes total phosphoric acid.

(d) Guarantees for plant nutrients other than nitrogen, phosphorus, and potassium may be permitted or required by rules adopted by the department. The guarantees for other nutrients shall be expressed in the form of the element. The sources of other nutrients including, but not limited to, oxides, salt, and chelates, may be required to be stated on the application for registration and may be included as a parenthetical statement on the label. Other beneficial substances or compounds, determinable by laboratory methods, also may be guaranteed by permission of the department. When any plant nutrients or other substances or compounds are guaranteed, they are subject to inspection and analysis in accord with the methods and regulations prescribed by section 3-1718.

(e) Except when prohibited by regulation, potential basicity or acidity expressed in terms of calcium equivalent in multiples of one hundred (100) pounds per ton may be shown.

(2) If the department finds, after public hearing, that the requirement for expressing the guaranteed analysis of phosphorus and potassium in elemental form would not impose an economic hardship on distributors and users of fertilizer by reason of conflicting labeling requirements among the states, it may require by department rule that the guaranteed analysis be in the following form:

Total nitrogen (N).....percent

Available phosphorus (P).....percent

Soluble potassium (K).....percent

(3) The effective date of the rule may not be less than six (6) months following the adoption of the rule. For a period of two (2) years following the effective date of the rule, the equivalent of phosphorus and potassium may also be shown in the form of phosphoric acid and potash. However, after the effective date of a rule requiring that phosphorus and potassium be shown in the elemental form, the guaranteed analysis for nitrogen, phosphorus, and potassium is the grade for those elements.

Section 88. Section 3-1715, R.C.M. 1947, is amended to read as follows:

"3-1715. **Registration and licenses.** (a) Each brand and grade of commercial fertilizer and each *soil amendment* shall be registered before being distributed in this state. The application for registration shall be submitted to the *department* on a form furnished by the *department* and shall be accompanied by a fee of thirty-five dollars (\$35) per brand and ten dollars (\$10) per grade for each fertilizer and for each soil amendment guaranteeing plant nutrients and claiming value as a fertilizer. The registration fee is five dollars (\$5) for each soil amendment making no guarantees for plant nutrients or claims for fertilizer value. Upon approval by the *department*, a copy of the registration shall be furnished to the applicant. All registrations expire on December 31 of each year. The application shall include:

- (1) The brand and grade;
  - (2) The guaranteed analysis;
  - (3) The sources from which the nitrogen, phosphorus and potassium are derived;
  - (4) The *department* may require a manufacturer of commercial fertilizer or soil amendment to furnish additional information if the *application* does not adequately describe the fertility value claimed *and* the composition of the product;
  - (5) The name and address of the registrant.
- (b) A distributor *may* not be required to register any brand or grade of commercial fertilizer which is already registered under this *section* by another person.
- (c) The plant nutrient content of every brand and grade of commercial fertilizer must remain uniform for the period of registration.
- (d) A distributor who blends or mixes fertilizer materials to a customer's order without a guaranteed analysis of the mixture in accordance with *subsection (1)* of this section must first obtain a license from the *department*. The application for the license shall be submitted in duplicate to the *department* on forms furnished by the *department* and shall be accompanied by the fee prescribed in *this section*. If the distributor blends or mixes fertilizer materials at more than one fixed location, or by more than one mobile mechanical unit, a license is required for each location and for each such mobile mechanical unit. The *license fee* is twenty-five dollars (\$25) for each *fixed* location. of each semiannual period. *The department may extend the filing deadline an additional thirty (30) days for a valid reason submitted in writing. (3) A registrant who distributes commercial fertilizer in this state shall:

(a) File an affidavit semiannually, within thirty (30) days after January 1 and July 1, setting forth the number of net tons of commercial fertilizer distributed in this state during the preceding six (a) months' period. Upon filing the statement, the registrant shall pay the inspection fee at the rate stated in subsection (1) of this section. If the tonnage report is not filed and the payment of the inspection fee is not made within fifteen (15) days after the date due, a collection fee of ten (10) per cent (minimum ten dollars (\$10)) of the amount due shall be assessed against the registrant, and the fees due are a debt and shall be the basis of a judgment against the registrant."

(3) *The department, in determining whether any commercial fertilizer is deficient in plant food, shall be guided solely by the official sample obtained and analyzed as provided for in paragraphs (1) and (2) of this section.*

(4) *If on the basis of an inspection or the analysis of the official sample a commercial fertilizer is found to be subject to penalty or other legal action, the department shall forward to the registrant notification of the violation at least ten (10) days before its report is made public. If during that period no adequate evidence to the contrary is made available to the department, the report becomes official. In the case of renewal of registration, a statement shall be required only with respect to information which is different from that furnished when the pesticide was registered or last reregistered.

(3) Any pesticide imported into this state, which is subject to the provisions of any federal act providing for the registration of pesticides and

If upon receipt of *the notice*, the applicant does not make the corrections, the department of agriculture may refuse to register the article. The department of agriculture in accordance with the procedures specified by the department of agriculture, may suspend or cancel the registration of a pesticide whenever it does not appear that the article or its labeling comply with this act. *When* an application for registration is refused or the department of agriculture proposes to suspend or cancel a registration, the registrant may appeal to the department of agriculture as provided for in section 27-236.

(7) The department of agriculture shall review all registered pesticides at least every two (2) years.

(b) The department of agriculture shall establish a time and place for

an interagency conference for the purposes of resolving the registration of any pesticide or device. *If* two (2) of the departments *approve* the proposed registration, the *department of agriculture* shall proceed with the registration.

(c) The registrant applying for registration shall be notified as to proposed changes in registration. If the *departments* cannot resolve the proposed registration following the interagency conference, the registrant may request a joint administrative hearing before the departments of agriculture, health and environmental sciences, and fish and game.

(d) Following the interagency conference, and if requested, the administrative hearing, *if* the proposed registration of a pesticide or device has not been resolved, the *department of agriculture* shall appoint an advisory council as outlined in section 27-240 to resolve by majority vote the registration of any pesticide. (3) Registration blanks shall be furnished by the department. *The* blank shall contain: (a) a statement of the name, place of residence, and place of business of the owner; (b) the number of colonies of bees, hives, and equipment in *the* apiary; (c) the location of *the* apiary, setting forth specifically the location by sectional division to the nearest quarter section, and the township and range, and, if within the corporate limits of a town or city, the number of the lot and block in the town or city; (d) the name of the owner, renter, or occupant of the land on *which* the apiary is located; (e) *the date when the location was first established*; and (f) other information the department may require under rules *adopted* by *it* for the protection, safety, and welfare of the public and beekeeping industry.

(4) Upon receipt of *the* application, and payment of the fees prescribed, the department shall issue a certificate of registration for an apiary, setting forth the name of the owner, the specific location, and the number of colonies of bees or size of the apiary authorized under *the* registration.

(5) In issuing certificates of registration for apiaries, if there is a conflict between applicants with respect to location, the department shall give preference to the applicant having the oldest continuous established location.

(6) Certificates of registration *may* not be issued for new locations of apiaries which are within such close proximity to established registered apiaries that there is or may be danger of spread of disease, or that *the* proximity will or may interfere with the proper feeding and honey flow of established apiaries.

(7) Before authorizing the establishment of new locations, the department shall give at least ten (10) *days' notice* by registered letter to all registered apiarists likely to be affected by the proposed new location so that any party affected may file written protests with the department against authorizing *the* new locations. *If* a written protest is filed, the department may require a hearing. *Notice* of the time and place of *the* hearing shall be given all parties interested by registered mail at least ten (10) days before the date set for the hearing.

(8) Suitable evidence of registration furnished by the department shall be posted in a conspicuous place at or near the location of the colony of honeybees or beehives. If an owner has more than one location, suitable evidence of registration furnished by the department shall be posted at each location.

(9) A registration not applied for by April 1 of each year *is* a late registration and *incurs* an added penalty of ten (10) per cent of the regular registration fee. Registrants who fail to apply for reregistration by April 1 of each year, shall be notified of their delinquency by the department. *The* notification shall be by registered mail and *is* sufficient if deposited in a United States post office or mail box and addressed to *the* registrant at his last address appearing in the bee location registration files of the department at least ten (10) days *before* May 1. A location for which application for reregistration is not made by May 1 of each year *is forfeited* and all rights *under the location* terminate."

**3-3104. Changing locations — enlarging or selling apiaries.** (1) An owner of an established registered apiary may not change locations without first receiving from the department a permit to establish the new location. In making the application, he shall specify the location with the same particularity as in the application or original registration. If the new location is not used within sixty (60) days after a permit is issued, the permit lapses and all rights under the permit terminate. Permits for new locations may not be issued for greater areas than the applicant can show are reasonably necessary for his needs consistent with good beekeeping practice.

(2) Any right a beekeeper has to a location may be sold or transferred to a purchaser subject to this chapter, if all bees and equipment on the location are sold to the purchaser.

Section 132. There is a new section to be numbered 3-3105, R.C.M. 1947, which reads as follows:

**3-3105. Apiaries — termination of rights — abandonment.** (1) An old apiary location which is not stocked with bees during at least part of the normal build-up or honey-producing season is forfeited and all rights under the location terminate. The location is open for new registration at the next regular registration time.

(2) An apiary not regularly attended in accordance with good beekeeping practice, which comprises a hazard or threat to disease control in the beekeeping industry, or which by reason of its physical condition or construction cannot be inspected may be considered an abandoned apiary and may be seized by the department. Any diseased equipment or equipment which by reason of its physical condition or construction cannot be inspected, may be burned and the remainder may be sold at public auction. Proceeds, after the cost of the sale are deducted, shall be returned to the former owner or his estate. Before burning or selling any equipment, the department shall give the owner or person in charge a written notice at least five (5) days before the burning or sale. The notice shall be given by registered mail or personal service upon the owner or person in charge of the property. If the owner or person in charge cannot be located, a registered letter sent to the owner's last address registered with the department is sufficient notice under this section.

Section 133. Section 82-808, R.C.M. 1947, is renumbered section 3-3106, and is amended to read as follows:

**"3-3106. |                               |         |

Such special election shall be called and conducted in the manner prescribed by this Title for school elections. - ☐ FOR the additional levy.
- ☐ AGAINST the additional levy.

*Be it enacted by the Legislature of the State of Montana:*

Section 1. Section 89-869, R.C.M. 1947, is amended to read as follows:

"89-869. **Powers and duties of board.** (1) The board may prescribe fees or service charges for any public service rendered by the department under this act or under title 89, chapter 29, including fees for the filing of applications or for the issuance of permits and certificates. There shall be no fees for the filing of declarations or for the issuance of certificates of existing rights.

(2) The board may adopt rules necessary to implement and carry out the purposes and provisions of this act. These rules may include, but are not limited to, rules to:

(a) govern the issuance and terms of interim permits authorizing an applicant for a regular permit under this act to begin appropriating water immediately, pending final approval or denial by the department of the application for a regular permit;

(b) require the owner or operator of appropriation facilities to install and maintain suitable controlling and measuring devices;

(c) require the owner or operator of appropriation facilities to report

to the department the readings of measuring devices at reasonable intervals, and to file reports on appropriations;

(d) regulate the construction, use and sealing of wells to prevent the waste, contamination or pollution of groundwater; and

(e) *govern the issuance and terms of interim approval, authorizing an appropriator to change his appropriation right immediately pending final approval or denial by the department of the application for a proposed change in accordance with section 89-892.*

(3) The board shall adopt rules providing for and governing temporary emergency appropriations, without prior application for a permit, necessary to protect lives or property."

Section 2. Section 89-880, R.C.M. 1947, is amended to read as follows:

**"89-880. Right to appropriate—application for permit.** (1) After the effective date of this act, a person may not appropriate water except as provided in this act. A person may only appropriate water for a beneficial use. A right to appropriate water may not be acquired by any other method, including by adverse use, adverse possession, prescription or estoppel; the method prescribed by this act is exclusive.

(2) Except as otherwise provided in subsection (4) of this section, a person may *not appropriate water or commence construction of diversion, impoundment, withdrawal, or distribution works therefore except* by applying for and receiving a permit from the department. The application shall be made on a form prescribed by the department. The department shall make the forms available through its offices and the offices of the county clerks and recorders. The department shall return a defective application for correction or completion together with the reasons for returning it. An application does not lose priority of filing because of defects, if the application is corrected, completed and refiled with the department within thirty (30) days after its return to the applicant, or within a further time as the department may allow.

(3) A permit issued prior to a final determination of existing rights is provisional and is subject to that final determination. The amount of the appropriation granted in a provisional permit shall be reduced or modified where necessary to protect and guarantee existing rights determined in the final decree. A person may not obtain any vested right, to an appropriation obtained under a provisional permit, by virtue of construction of diversion works, purchase of equipment to apply water, planting of crops, or other action, where the permit would have been denied or modified if the final decree had been available to the department.

(4) Outside the boundaries of a controlled groundwater area, a permit is not required before appropriating groundwater by means of a well with a maximum yield of less than one hundred (100) gallons a minute. Within sixty (60) days of completion of the well, the appropriator shall file notice of completion on a form provided by the department at its offices and at the offices of the county clerks and recorders. Upon receipt of the notice, the department shall automatically issue a certificate of water right. The original of the certificate shall be sent to the county clerk and

recorder, in the county where the point of diversion or place of use is located, for recordation. The department shall keep a copy of the certificate in its office in Helena. After recordation, the clerk and recorder shall send the certificate to the appropriator. The date of filing of the notice of completion is the date of priority of the right.

(5) Persons required to file well logs and other information under the laws governing the conservation of oil and gas and who do so in compliance with those laws, shall be considered to have complied with all of the filing requirements of this act to the extent it applies to wells subject to those laws. The date of appropriation shall be the date that written notice of intention to drill is given to the board of oil and gas conservation. A person who desires to convert a nonproductive oil or gas well to a water well may do so immediately, but shall file a notice of completion or apply for a permit, depending on the maximum yield of the well, as otherwise provided in this act.

(6) A person may also appropriate water, without applying for or prior to receiving a permit, under rules adopted by the board under section 89-869 of this act."

Section 3. Section 89-892, R.C.M. 1947, is amended to read as follows:

"89-892. **Changes in appropriation rights.** (1) An appropriator may not change the place of diversion, place of use, purpose of use or place of storage without receiving prior approval of such change from the department.

(2) The department shall approve the proposed change if it determines that the proposed change will not adversely affect the rights of other persons. *If the department determines that the proposed change might adversely affect the rights of other persons, notice of the proposed change shall be given in accordance with section 89-881. If the department determines that an objection filed by a person whose rights may be affected states a valid objection to the proposed change, the department shall hold a hearing thereon prior to its approval or denial of the proposed change. Objections shall meet the requirements of section 89-882(2), and hearings shall be held in accordance with section 89-883.*"

Section 4. Section 89-893, R.C.M. 1947, is amended to read as follows:

"89-893. **Transfer of appropriation right.** (1) The right to use water under a permit or certificate of water right shall pass with a conveyance of the land, or transfer by operation of law, unless specifically exempted therefrom. All transfers of interests in appropriation rights shall be without loss of priority.

(2) *The person receiving the appropriation interest shall file with the department notice of the transfer on a form prescribed by the department.*

(3) An appropriator may not sever all or any part of an appropriation right from the land to which it is appurtenant, or sell the appropriation right for other purposes or to other lands, or make the appropriation right appurtenant to other lands, without obtaining prior approval from the department. The department shall approve the proposed change if it determines that the proposed change will not adversely affect the rights

*of other persons. If the department determines that the proposed change might adversely affect the rights of other persons, notice of the proposed change shall be given in accordance with section 89-881. If the department then determines that an objection filed by a person whose rights may be affected states a valid objection to the proposed change, the department shall hold a hearing thereon prior to its approval or denial of the proposed change. Objections shall meet the requirements of section 89-882(2) and hearings shall be held in accordance with section 89-883."*

Section 5. This act is effective on its passage and approval. The amendments made by this act apply to any application for a permit, change in appropriation right, or transfer of appropriation right, received by the department before the effective date of this act, and which has not yet been approved, granted, denied, or modified.

Such contracts must be in writing, executed by the parties, and submitted to this commission for examination. The contracting parties must appear and offer testimony in support of the applicant. If after hearing upon application for a certificate, the board shall find, from the evidence, that public convenience and necessity require the authorization of the service proposed, or any part thereof as the board shall determine, a certificate therefor shall be issued. In determining whether or not a certificate should be issued, the board shall give reasonable consideration to the transportation service being furnished or that will be furnished by any railroad, or other existing transportation agency, and shall give due consideration to the likelihood of the proposed service being permanent and continuous throughout twelve (12) months of the year and the effect which such proposed transportation service may have upon other forms of transportation service which are essential and indispensable to the communities to be affected by such proposed transportation service or that might be affected thereby. Provided, however, that an application by a class A or a class B or a class C motor carrier for a certificate may be disallowed without a public hearing thereon when it appears from the records of the board that the route or territory sought to be served by the applicant has previously been made the basis of a public investigation and finding by the board that public convenience and necessity do not require such proposed motor carrier service unless it is made to affirmatively appear in the application by a recital of the facts that conditions obtaining over said route or in said territory and affecting transportation facilities therein have materially changed since said public investigation and finding and that public convenience and necessity do now require such motor carrier operation.

Provided further that any investigation, inquiry or hearing which the board has power to undertake or to hold, under the provisions of this act, may be undertaken or held by or before any member of the board, or by and before any agent or examiner of the board designated for the purpose by the board, and every finding, order, or decision made by a member of the board, or agent or examiner of the board so designated, together with a statement in writing of the reasons therefor which statement must be included in such finding, or order or decision, pursuant to such investigation, inquiry or hearing, when approved and confirmed by the board and ordered filed in its office, shall be, and be deemed to be the finding, order or decision of the board; provided also, that any agent or examiner of the board designated as aforesaid, shall have power to administer oaths, examine witnesses and receive evidence."

(a) guarantee or reinsure, or cause to be guaranteed, assumed, or reinsured, all the covered policies of the impaired insurer;

(b) provide such monies, pledges, notes, guarantees, or other means as are proper to effectuate subsection (a), and assure payment of the contractual obligations of the impaired insurer pending action under subsection (a);

(c) loan money to the impaired insurer.

(2) If a foreign or alien insurer is an impaired insurer, the association may, prior to an order of liquidation, rehabilitation, or conservation, with respect to the covered policies of residents and subject to any conditions imposed by the association other than those which impair the contractual

obligations of the impaired insurer, and approved by the impaired insurer and the commissioner:

(a) guarantee or reinsure, or cause to be guaranteed, assumed, or reinsured, the impaired insurer's covered policies of residents;

(b) provide such monies, pledges, notes, guarantees or other means as are proper to effectuate par. (a), and assure payment of the impaired insurer's contractual obligations to residents pending action under subsection (a);

(c) loan money to the impaired insurer.

(3) If a domestic insurer is an impaired insurer under an order of liquidation or rehabilitation, the association shall, subject to the approval of the commissioner:

(a) guarantee, assume, or reinsure, or cause to be guaranteed, assumed or reinsured the covered policies of the impaired insurer;

(b) assure payment of the contractual obligations of the impaired insurer; and

(c) provide such monies, pledges, notes, guarantees, or other means as are reasonably necessary to discharge such duties.

If the association fails to act within a reasonable period of time, the commissioner shall have the powers and duties of the association under this act with respect to such domestic impaired insurer.

(4) If a foreign or alien insurer is an impaired insurer under an order of liquidation, rehabilitation, or conservation, the association shall, subject to the approval of the commissioner:

(a) guarantee, assume, or reinsure or cause to be guaranteed, assumed, or reinsured the covered policies of residents;

(b) assure payment of the contractual obligations of the impaired insurer to residents; and

(c) provide such monies, pledges, notes, guarantees, or other means as are reasonably necessary to discharge such duties.

If the association fails to act within a reasonable period of time, the commissioner shall have the powers and duties of the association under this act with respect to such foreign or alien impaired insurer.

(5) (a) In carrying out its duties under subsections (3) and (4), the association may request that there be imposed policy liens, contract liens, moratoriums on payments, or other similar means and such liens, moratoriums, or similar means may be imposed if the commissioner:

(i) finds that the amounts which can be assessed under this act are less than the amounts needed to assure full and prompt performance of the impaired insurer's contractual obligations, or that the economic or financial conditions as they affect member insurers are sufficiently adverse to render the imposition of policy or contract liens, moratoriums, or similar means to be in the public interest, and

(ii) approve the specific policy liens, contract liens, moratoriums, or similar means to be used.

(b) Before being obligated under subsections (3) and (4) the association may request that there be imposed temporary moratoriums or liens on payments of cash values and policy loans and such temporary moratoriums and liens may be imposed if they are approved by the commissioner.

(6) The association shall have no liability under this section for any covered policy of a foreign or alien insurer whose domiciliary jurisdiction or state of entry provides by statute or regulation, for residents of this state protection substantially similar to that provided by this act for residents of other states.

(7) The association may render assistance and advice to the commissioner, upon his request, concerning rehabilitation, payment of claims, continuations of coverage, or the performance of other contractual obligations of any impaired insurer.

(8) The association shall have standing to appear before any court in this state with jurisdiction over an impaired insurer concerning which the association is or may become obligated under this act. Such standing shall extend to all matters germane to the powers and duties of the association, including, but not limited to, proposals for reinsuring or guaranteeing the covered policies of the impaired insurer and the determination of the covered policies and contractual obligations.

(9) (a) Any person receiving benefits under this act shall be deemed to have assigned his rights under the covered policy to the association to the extent of the benefits received because of this act whether the benefits are payments of contractual obligations or continuation of coverage. The association may require an assignment to it of such rights by any payee, policy or contract owner, beneficiary, insured or annuitant as a condition precedent to the receipt of any rights or benefits conferred by this act upon such person. The association shall be subrogated to these rights against the assets of any impaired insurer.

(b) The subrogation rights of the association under this subsection shall have the same priority against the assets of the impaired insurer as that possessed by the person entitled to receive benefits under this act.

(10) The contractual obligations of the impaired insurer for which the association becomes or may become liable shall be as great as but no greater than the contractual obligations of the impaired insurer would have been in the absence of an impairment unless such obligations are reduced as permitted by subsection (5) but the association shall have no liability with respect to any portion of a covered policy to the extent that the death benefit coverage on any one life exceeds an aggregate of three hundred thousand dollars (\$300,000).

(11) The association may:

(a) enter into such contracts as are necessary or proper to carry out the provisions and purposes of this act;

(b) sue or be sued, including taking any legal actions necessary or proper for recovery of any unpaid assessments under section 9 [40-5809];

(c) borrow money to effect the purposes of this act. Any notes or other evidence of indebtedness of the association not in default shall be legal investments for domestic insurers and may be carried as admitted assets;

(d) employ or retain such persons as are necessary to handle the financial transactions of the association, and to perform such other functions as become necessary or proper under this act;

(e) negotiate and contract with any liquidator, rehabilitator, conservator, or ancillary receiver to carry out the powers and duties of the association;

(f) take such legal action as may be necessary to avoid payment of improper claims;

(g) exercise, for the purposes of this act and to the extent approved by the commissioner, the powers of a domestic life or health insurer, but in no case may the association issue insurance policies or annuity contracts other than those issued to perform the contractual obligations of the impaired insurer.

Section 9. There is a new section to be numbered 40-5809, R.C.M. 1947, which reads as follows:

**40-5809. Assessments.** (1) For the purpose of providing the funds necessary to carry out the powers and duties of the association, the board of directors shall assess the member insurers, separately for each account, at such times and for such amounts as the board finds necessary. The board shall collect the assessments after thirty (30) days written notice to the member insurers before payment is due.

(2) There shall be three classes of assessments, as follows:

(a) Class A assessments shall be made for the purpose of meeting administrative costs and other general expenses not related to a particular impaired insurer.

(b) Class B assessments shall be made to the extent necessary to carry out the powers and duties of the association under section 8 [40-5808] with regard to an impaired domestic insurer.

(c) Class C assessments shall be made to the extent necessary to carry out the powers and duties of the association under section 8 [40-5808] with regard to an impaired foreign or alien insurer.

(3) (a) The amount of any Class A assessment for each account shall be determined by the board. The amount of any Class B or C assessment shall be divided among the accounts in the proportion that the premiums received by the impaired insurer on the policies covered by each account bears to the premiums received by such insurer on all covered policies.

(b) Class A and Class C assessments against member insurers for each account shall be in the proportion that the premiums received on business in this state by each assessed member insurer on policies covered by each

account bears to such premiums received on business in this state by all assessed member insurers.

(c) Class B assessments for each account shall be made separately for each state in which the impaired domestic insurer was authorized to transact insurance at any time, in the proportion that the premiums received on business in such state by the impaired insurer on policies covered by such account bears to such premiums received in all such states by the impaired insurer. The assessments against member insurers shall be in the proportion that the premiums received on business in each such state by each assessed member insurer on policies covered by each account bears to such premiums received on business in each state by all assessed member insurers.

(d) Assessments for funds to meet the requirements of the association with respect to an impaired insurer shall not be made until necessary to implement the purposes of this act. Classification of assessments under subsection (2) and computation of assessments under this subsection shall be made with a reasonable degree of accuracy, recognizing that exact determinations may not always be possible.

(4) The association may abate or defer, in whole or in part, the assessment of a member insurer if, in the opinion of the board, payment of the assessment would endanger the ability of the member insurer to fulfill its contractual obligations. The total of all assessments upon a member insurer for each account shall not in any one (1) calendar year exceed two percent (2%) of such insurer's premiums in this state on the policies covered by the account.

(5) In the event an assessment against a member insurer is abated, or deferred, in whole or in part, because of the limitations set forth in subsection (4), the amount by which such assessment is abated or deferred, shall be assessed against the other member insurers in a manner consistent with the basis for assessments set forth in this section. If the maximum assessment, together with the other assets of the association in either account, does not provide in any one (1) year in either account an amount sufficient to carry out the responsibilities of the association, the necessary additional funds shall be assessed as soon thereafter as permitted by this act.

(6) The board may, by an equitable method as established in the plan of operation, refund to member insurers, in proportion to the contribution of each insurer to that account, the amount by which the assets of the account exceed the amount the board finds is necessary to carry out during the coming year the obligations of the association with regard to that amount, including assets accruing from net realized gains and income from investments. A reasonable amount may be retained in any account to provide funds for the continuing expenses of the association and for future losses if refunds are impractical.

(7) It shall be proper for any member insurer, in determining its premium rates and policyowner dividends as to any kind of insurance within the scope of this act, to consider the amount reasonably necessary to meet its assessment obligations under this act.

(8) The association shall issue to each insurer paying an assessment under this act a certificate of contribution, in a form prescribed by the commissioner, for the amount so paid. All outstanding certificates shall be of equal dignity and priority without reference to amounts or dates of issue. A certificate of contribution may be shown by the insurer in its financial statement as an asset in such form and for such amount, if any, and period of time as the commissioner may approve.

Section 10. There is a new section to be numbered 40-5810, R.C.M. 1947, which reads as follows:

**40-5810. Plan of operation.** (1) (a) The association shall submit to the commissioner a plan of operation and any amendments thereto necessary or suitable to assure the fair, reasonable, and equitable administration of the association. The plan of operation and any amendments thereto shall become effective upon approval in writing by the commissioner.

(b) If the association fails to submit a suitable plan of operation within one hundred eighty (180) days following the effective date of this act or if at any time thereafter the association fails to submit suitable amendments to the plan, the commissioner shall, after notice and hearing, adopt and promulgate such reasonable rules as are necessary or advisable to effectuate the provisions of this act. Such rules shall continue in force until modified by the commissioner or superseded by a plan submitted by the association and approved by the commissioner.

(2) All member insurers shall comply with the plan of operation.

(3) The plan of operation shall, in addition to requirements enumerated elsewhere in this act:

(a) establish procedures for handling the assets of the association;

(b) establish the amount and method of reimbursing members of the board of directors under section 7 [40-5807];

(c) establish regular places and times for meetings of the board of directors;

(d) establish procedures for records to be kept of all financial transactions of the association, its agents, and the board of directors;

(e) establish the procedures whereby selections for the board of directors will be made and submitted to the commissioner;

(f) establish any additional procedures for assessments under section 9 [40-5809];

(g) contain additional provisions necessary or proper for the execution of the powers and duties of the association.

(4) The plan of operation may provide that any or all powers and duties of the association, except those under sections 8 (11) (c) [40-5808 (11) (c)] and 9 [40-5809], are delegated to a corporation, association, or other organization which performs or will perform functions similar to those of this association, or its equivalent, in two (2) or more states. Such a corporation, association, or organization shall be reimbursed for any

payments made on behalf of the association and shall be paid for its performance of any function of the association. A delegation under this subsection shall take effect only with the approval of both the board of directors and the commissioner, and may be made only to a corporation, association, or organization which extends protection not substantially less favorable and effective than that provided by this act.

Section 11. There is a new section to be numbered 40-5811, R.C.M. 1947, which reads as follows:

**40-5811. Duties and powers of the commissioner.** (1) In addition to the duties and powers enumerated elsewhere in this act, the commissioner shall:

(a) notify the board of directors of the existence of an impaired insurer not later than three (3) days after a determination of impairment is made or he receives notice of impairment;

(b) upon request of the board of directors, provide the association with a statement of the premiums in the appropriate states for each member insurer;

(c) when an impairment is declared and the amount of the impairment is determined, serve a demand upon the impaired insurer to make good the impairment within a reasonable time. Notice to the impaired insurer shall constitute notice to its shareholders, if any. The failure of the insurer to promptly comply with such demand shall not excuse the association from the performance of its powers and duties under this act;

(d) in any liquidation or rehabilitation proceeding involving a domestic insurer, be appointed as the liquidator or rehabilitator. If a foreign or alien member insurer is subject to a liquidation proceeding in its domiciliary jurisdiction or state of entry, the commissioner shall be appointed conservator.

(2) The commissioner may suspend or revoke, after notice and hearing, the certificate of authority to transact insurance in this state of any member insurer which fails to pay an assessment when due or fails to comply with the plan of operation. As an alternative the commissioner may levy a forfeiture on any member insurer which fails to pay an assessment when due. Such forfeiture shall not exceed five percent (5%) of the unpaid assessment per month, but no forfeiture shall be less than one hundred dollars (\$100) per month.

(3) Any action of the board of directors or the association may be appealed to the commissioner by any member insurer if such appeal is taken within thirty (30) days of the action being appealed. Any final action or order of the commissioner shall be subject to judicial review in a court of competent jurisdiction.

(4) The liquidator, rehabilitator, or conservator of any impaired insurer may notify all interested persons of the effect of this act.

Section 12. There is a new section to be numbered 40-5812, R.C.M. 1947, which reads as follows:

**40-5812. Prevention of impairments.** To aid in the detection and prevention of insurer impairments:

(1) The board of directors shall, upon majority vote, notify the commissioner of any information indicating any member insurer may be unable or potentially unable to fulfill its contractual obligations.

(2) The board of directors may, upon majority vote, request that the commissioner order an examination of any member insurer which the board in good faith believes may be unable or potentially unable to fulfill its contractual obligations. The commissioner may conduct such examination. The examination may be conducted as a national association of insurance commissioners examination or may be conducted by such persons as the commissioner designates. The cost of such examination shall be paid by the association and the examination report shall be treated as are other examination reports. In no event shall such examination report be released to the board of directors of the association prior to its release to the public, but this shall not excuse the commissioner from his obligation to comply with subsection (3). The commissioner shall notify the board of directors when the examination is completed. The request for an examination shall be kept on file by the commissioner but it shall not be open to public inspection prior to the release of the examination report to the public and shall be released at that time only if the examination discloses that the examined insurer is unable or potentially unable to meet its contractual obligations.

(3) The commissioner shall report to the board of directors when he has reasonable cause to believe that any member insurer examined at the request of the board of directors may be unable or potentially unable to fulfill its contractual obligations.

(4) The board of directors may, upon majority vote, make reports and recommendations to the commissioner upon any matter germane to the solvency, liquidation, rehabilitation or conservation of any member insurer. Such reports and recommendations shall not be considered public documents.

(5) The board of directors may, upon majority vote, make recommendations to the commissioner for the detection and prevention of insurer impairments.

(6) The board of directors shall, at the conclusion of any insurer impairment in which the association carried out its duties under this act or exercised any of its powers under this act, prepare a report on the history and causes of such impairment, based on the information available to the association, and submit such report to the commissioner.

Section 13. There is a new section to be numbered 40-5813, R.C.M. 1947, which reads as follows:

**40-5813. Appointment of association nominee.** The association may recommend a natural person to serve as a special deputy to act for the commissioner and under his supervision in the liquidation, rehabilitation, or conservation, of any member insurer.

Section 14. There is a new section to be numbered 40-5814, R.C.M. 1947, which reads as follows:

40-5814. **Miscellaneous provisions.** (1) Nothing in this act shall be construed to reduce the liability for unpaid assessments of the insureds of an impaired insurer operating under a plan with assessment liability.

(2) Records shall be kept of all negotiations and meetings in which the association or its representatives are involved to discuss the activities of the association in carrying out its powers and duties under section 8 [40-5808]. Records of such negotiations or meetings shall be made public only upon the termination of a liquidation, rehabilitation, or conservation proceeding involving the impaired insurer, upon the termination of the impairment of the insurer, or upon the order of a court of competent jurisdiction. Nothing in this subsection shall limit the duty of the association to render a report of its activities under section 15 [40-5815].

(3) For the purpose of carrying out its obligations under this act, the association shall be deemed to be a creditor of the impaired insurer to the extent of assets attributable to covered policies reduced by any amounts to which the association is entitled as subrogee pursuant to section 8(9) [40-5808(9)]. All assets of the impaired insurer attributable to covered policies shall be used to continue all covered policies and pay all contractual obligations of the impaired insurer as required by this act. Assets attributable to covered policies, as used in this subsection, is that proportion of the assets which the reserves that should have been established for such policies bear to the reserve that should have been established for all policies of insurance written by the impaired insurer.

(b) No such dividend shall be recoverable if the insurer shows that when paid the distribution was lawful and reasonable, and that the insurer did not know and could not reasonably have known that the

distribution might adversely affect the ability of the insurer to fulfill its contractual obligations.

(c) Any person who as an affiliate that controlled the insurer at the time the distributions were paid shall be liable up to the amount of distributions he received. Any person who was an affiliate that controlled the insurer at the time the distributions were declared, shall be liable up to the amount of distributions he would have received if they had been paid immediately. If two persons are liable with respect to the same distributions, they shall be jointly and severally liable.

(d) The maximum amount recoverable under this subsection shall be the amount needed in excess of all other available assets of the impaired insurer to pay the contractual obligations of the impaired insurer.

(e) If any person liable under paragraph (c) is insolvent, all its affiliates that controlled it at the time the dividend was paid, shall be jointly and severally liable for any resulting deficiency in the amount recovered from the insolvent affiliate.

If *the* owner does not provide for *the* protection and suppression, *the department* may provide *it*, at a cost to the landowner of not more than ten cents (10¢) per acre per year for Class I land and not more than three cents (3¢) per acre per year for Class II land; in the event thereof, the owner of *the* land shall pay to the county treasurer of the county in which *the* land is situated the charge for the same approved by the *department*, in accordance with this chapter. No other charges *may* be assessed those landowners participating, except in cases of proven negligence on the part of the landowner or his agent.

(2) The forest land of Montana shall be classified for protection and assessment purposes as follows:

The board *shall* establish the portion of the planned fire protection costs to be borne by the state, and the portion to be borne by the owners of classified forest land. The *department shall* request the legislature to appropriate the state's portion as approved by the board. After the appropriation is made by the legislature, the *department shall* cause an assessment to be made on the owners of classified forest land, as specified in section 28-109, sufficient to bring the total amount received to the amount specified in the approved plan.

(2) On or before the second Tuesday in August of each year, the *department* shall determine the names of all owners who have failed to provide the forest fire protection for their lands required by this *chapter*, together with the description of *the* lands and *their* acreage, and calculate the total amount due to the *department* from each owner for forest fire protection, which *amount may* not exceed the maximum specified in *section 28-109*.

(3) The *department* shall certify in writing to the county assessor of each county the names of *these* owners of forest lands in his county,

together with a description of *their* lands and a statement of the amount found to be due and owing by each of *the* owners to the *department* for forest fire protection.

(4) Upon receiving *the* certificate from the *department* showing the amount due, the county assessor shall extend the amounts upon the county tax rolls covering *the* lands, and *the* sums shall become obligations of the owner to be paid and collected in the same manner and at the same time and with like penalties as general state and county taxes upon the same property are collected. All sums collected shall be promptly transmitted to the state treasurer, who *shall* deposit *them* in the *federal and private grant clearance fund for distribution in accordance with section 28-124.*"

The county attorney of the county in which *the* land is situated shall on request of the *department* foreclose the lien in the name of the state and in the manner provided by law, or *the* county attorney upon the request of the *department*, shall institute an action against the forest landowner, in the name of the state, in any district or justice court having jurisdiction, to recover the debt, and the state in *the* action *is* not required to pay any fees or costs to the clerk of the court or justice of the peace. The complaint and all subsequent proceedings in *the* action shall conform as nearly as practicable to that provided by section 84-4302. The remedies provided by this section *are* cumulative and do not affect the other provisions of this *chapter* for the payment and collection of amounts due to the *department.*"

(2) A sawmill located within or contiguous to forest lands *may not* accumulate in one pile, sawdust in excess of an amount resulting from the sawing of five hundred thousand (500,000) feet log scale of sawlogs, however, a larger sawdust pile may be accumulated when there is no reasonable danger of fire therefrom and a permit for the additional accumulation is granted by the *department*. Hazard reduction, including burning where this method of disposal is used, shall be done as rapidly as cutting or clearing progresses; provided that upon application to the *department* he may grant a permit extending the time within which such burning must be done in compliance with all the provisions of this chapter relating to burning permits during the closed season.

The provisions of the section shall apply to all clearing of rights of way across private land and on behalf of the state, county, highway districts and road districts, whether the work be done by day labor, or by contract, and unless unavoidable emergency prevents, provision shall be made by the proper officials conducting, directing, or letting said work for withholding until it is complete, a sufficient portion of the payment therefor to assure compliance with this act.

The cost and expense of such disposal, plus twenty per cent (20%) of the cost and expense of such disposal as a penalty, shall constitute a lien upon the forest products so cut or produced from such land. If payment of the sum demanded be not made to the *department* within ten (10) days of such written demand, the *department* must transfer all papers relative to the unsatisfied demand for payment to the attorney general of the state, who shall bring legal action on behalf of the state to recover the debt.

The *department* shall not file for record any lien against the property

(b) *If a state district ceases to function and it appears to the board that the reinstatement and future operation of the district is no longer feasible, beneficial and desirable to those who own or control more than fifty per cent (50%) of the lands included in the district, the board, after a hearing thereon, and, upon thirty (30) days' notice in writing, published for two (2) consecutive weeks in a newspaper of general circulation in or nearest to the district, may dissolve the district. The *department* may require any additional information it *considers* necessary. On receipt of *the* statement and plat and *any* additional information, the *department* shall fix *a* time and place of a hearing for approval within the district or county, which *may* not be less than thirty (30) days or more than sixty (60) days after receipt of *the* statement. The persons deciding to incorporate *the* state grazing district shall then cause notice of *the* hearing to be given by publishing a notice prescribed by the *department* once a week for two (2) consecutive weeks, the first publication to be at least thirty (30) days prior to the date of hearing, in a newspaper of general circulation in *the* area. The *department*, for and on behalf of the *board*, shall hear evidence offered in support of, or in opposition to, the creation of *the* state district, and shall make a full inquiry into the advisability of *its* creation; the record taken upon the hearing, together with the report of the *department*, shall be submitted to the *board*. A person herding or in control of livestock in the approximate vicinity of a state district shall ascertain the boundary lines of the district."*

Section 42. Section 46-2312, R.C.M. 1947, is amended to read as follows:

"46-2312. **Powers of state districts.** A state district *may*:

(2) *Sue* or be sued in its corporate name.

(3) *Acquire* forage producing lands by lease, purchase, *cooperative* agreements, or otherwise, either from the United States, the state of Montana, county or counties in which *the* lands are located, or from pri-

vate owners. All lands to which a state district may acquire title may be disposed of by exchange, sale or otherwise.

(4) *Manage* and control the use of its range. This power *includes* the right to determine the size of preferences and permit according to a fixed method which shall be stated in the bylaws and which shall take into consideration the rating of dependent commensurate property and the carrying capacity of the range, and may be subject to reservations, regulations and limitations under the terms of agreements between the state district and any agency of the United States. *The state district may also allot range to members or nonmembers, and decrease or increase the size of permits if the range carrying capacity changes.*

(5) *Acquire* or construct fences, reservoirs, or other facilities for the care of livestock, and lease or purchase lands for such purposes.

(6) *Fix* and determine the amount of grazing fees to be imposed on members or nonmembers for the purpose of paying leases and operating expenses *and fix and determine the amount of assessments* to be made on members on an animal unit basis for the purpose of acquiring lands by purchase, or for the purpose of constructing improvements in *the* state district.

(7) *Specify* the breed, quality, and number of male breeding animals which each member must furnish when stock is grazing in common in the state district.

(8) *Employ* and discharge employees, riders, and other persons necessary to properly manage the state district.

(9) *Set up* and maintain a reasonable reserve fund.

(10) *Borrow* money, and if necessary mortgage the physical assets of a state district to provide for operation and development, provided that at least eighty per cent (80%) of the permittee members of the state district consent in writing to *the borrowing and the borrowing has been approved by the department. This subsection does not confer* power upon a state district to mortgage the property of the individual members of the district.

(11) *Change* the boundaries of a district, merge with another state district organized under this act, or subdivide.

(a) *A merger may not* be made unless consented to by a majority of the members of each merging state district and approved by the *board after a hearing thereon before the department.*

(b) *A subdivision may not* be made unless consented to by a majority of the members in the affected area and approved by the *board after a hearing thereon before the department.*

(12) *Regulate* the driving of stock over, across, into, or through the range, and collect fees therefor. *A state district may impose* sanitary provisions, regulations and practices.

(13) *Undertake* reseeding and other approved conservation and improvement practices of depleted range areas or abandon farm lands and

enter into *cooperative* agreements with the federal government or any other *person* for *the* reseeding or conservation and improvement practices."

Section 43. Section 46-2313, R.C.M. 1947, is amended to read as follows:

"46-2314. **Membership in district.** (1) Membership in the district is limited to persons engaged in the livestock business who own or lease forage producing lands within or near the district, except that the agent of a person entitled to membership in the district may become a member in place of his principal. If *an* agent becomes a member his qualifications for membership and his obligations to and the privileges in the district shall be measured by those his principal would have had if he had elected to become a member. *An* agent and his principal *may not* both be of the district unless *the* agent has individual qualifications for membership which are separable from and independent of those of his principal. Permittee members only *are* entitled to vote on all issues submitted to a vote of the members. *A permittee* member *has only one* (1) vote. Voting by proxy *may not* be permitted. All members who possessed preferential grazing permits during the preceding grazing season or who possess such a permit at the time of voting shall be designated as permittee members.

(2) When a member *disposes* of a part of the lands or leases owned by him so that another *person becomes* the owner of *the* lands or leases and *acquires* the right to membership, then the rights and interest involved shall be determined by the directors of the state district with the approval of the *department*.

(3) Preferences or rights under this act through the creation of the district or the issuance of permits or preferences are statutory and *do not* create any vested right, title, interest or estate in or to the lands owned or controlled by the district excepting as herein provided."

Section 45. Section 46-2315, R.C.M. 1947, is amended to read as follows:

"46-2315. **Bylaws.** A state district incorporated under this act shall within sixty (60) days after its incorporation adopt bylaws approved by the *department*. The bylaws may be amended or revised with the approval of the *department*."

Section 46. Section 46-2316, R.C.M. 1947, is amended to read as follows:

"46-2316. **District must lease available state land.** *State* land situated within the boundaries of a grazing district created *under* this act, not otherwise disposed of by the *department of state lands*, must be leased by *the* grazing district at a reasonable rental, when offered for lease to

the officers of *the* grazing district by *that department*; however, the officers of *the* grazing district may appear or submit evidence in writing before the *department of state lands* and show reason and cause for a change in *the* rental. If *there is cause*, the *department of state lands* may *reappraise* the land in question. *The department of natural resources and conservation shall* require that all state districts comply with this section."

Section 47. Section 46-2317, R.C.M. 1947, is amended to read as follows:

"46-2317. **Department to advise department of state lands and county commissioners.** The *department* may act in an advisory capacity to the *department of state lands* and *boards* of county commissioners for the purpose of working out uniform plans for the use of lands lying within or without the boundaries of *state* districts, in conformity with recognized conservation and stabilization policies."

Section 48. Section 46-2318, R.C.M. 1947, is amended to read as follows:

"46-2318. **Amending articles of incorporation.** (1) A *state* district may amend its articles of incorporation by a two-thirds ( $\frac{2}{3}$ ) vote of all members present at any regular or special meeting of its members and the approval of the *department*; the only notice of *the* meeting which is necessary is the notice of meetings of members as required by the bylaws of *the* district. *The* amended articles of incorporation and bylaws shall be submitted to the *department* for approval. Upon approval, the *department* shall issue a *certificate* of approval. *The* amended articles of incorporation shall be filed by the secretary of state without charge, but *may* not be filed unless accompanied by *the* certificate of approval.

(2) Upon the filing of *the* amended articles with the secretary of state and the proper county clerk or clerks, *the* district *possesses* the same powers and shall be subject to the same obligations as if incorporated under this act."

Section 49. Section 46-2322, R.C.M. 1947, is amended to read as follows:

"46-2322. **Grazing preferences appurtenant to dependent commensurate property and commensurate property and method of transferring preferences to other lands.** (1) Grazing preferences run with and *are* appurtenant to the dependent commensurate and commensurate property upon which they are based. They *are not* subject to devise, bequest, attachment, execution, lease, sale, exchange, transfer, pledge, mortgage, or other process, or transaction, except as provided in this section or in the bylaws of a state district. Upon application by a permittee, the state district with the approval of the *department* may allow a preference based on ownership or control of dependent commensurate or commensurate property to be transferred to other property of sufficient commensurability; *however*, in any transfer of preference from dependent commensurate or commensurate property controlled but not owned by *the* applicant, the applicant must have had control and use of the dependent commensurate or commensurate property and the preference appurtenant thereto for five (5) consecutive years and must have established and main-

tained the livestock operation upon which the dependency was established by use or priority immediately prior to the application for transfer. *In addition, the transfer may not interfere with the stability of livestock operations or with proper range management and may not affect adversely the established local economy. A transfer may not be allowed without the written consent of the owner or owners and any encumbrances of the dependent commensurate or commensurate property from which the transfer is to be made, and a transfer is not effective until approved by the department. This section does not apply to trespass violations.*

(2) When an application for transfer is presented to the board of directors of a state district, the secretary upon the direction of that board shall give notice thereof, setting forth in general the application and the time and place of a hearing thereon as fixed by the board. A copy of the notice shall be given or mailed to the applicant and shall be published for at least once a week for two (2) successive weeks prior to the hearing in a newspaper published or generally circulated within the district, and the notice shall also be posted for at least two (2) full weeks prior to the hearing in three (3) public places within the district. The date of hearing must be at least fifteen (15) days from the first publication of the notice. At the hearing the directors shall fully hear and determine the application and any objections thereto.

(3) Upon the allowance of a transfer under this section, the property from which the transfer is made loses its grazing preference to the extent of the preference transferred.

(4) All expenses involved under the application shall be borne by the applicant.

(5) When the land to which a preference is attached changes its control or ownership the preference changes with the land, and the person to which the control or ownership changes shall secure a nonuse permit or shall pay the usual grazing fees. If the person fails to secure a nonuse permit or refuses to pay the grazing fees, the preferences may be revoked by the state district. If a person controls but does not own land and does not secure a nonuse permit and refuses to pay grazing fees, the state district shall notify the owner of the land by registered mail that the preference attached to the land will be revoked unless the owner pays the usual grazing fees to the state district within sixty (60) days from the time of receipt of the notice. The state district may revoke the preference if the owner or mortgagor does not pay the fees or secure a nonuse permit.

(6) If a permittee fails to pay grazing fees or assessments levied by the state district, or fails to obtain a nonuse permit or violates any of the rules and regulations of the state district, the state district may notify the permittee and owner of the land by registered mail that the preference attached to the land will be revoked unless the grazing fees or assessments are paid or the permittee ceases to violate the rules and regulations laid down by the district within sixty (60) days from the time of receipt of the notice. The state district may revoke the preference if the permittee or owner fails to pay the charges or comply.

(7) When a preference is revoked, it is detached from the dependent

commensurate or commensurate property to which it was formerly appurtenant, *and it immediately shifts* to the state district. The state district may then allocate it to either dependent commensurate or commensurate property in the manner provided by its bylaws.

(8) In all cases where notices are given permittees under this act by registered mail and addressed to the post-office address of *the* permittee as shown by the records of *the* state district, *the* notices shall be *considered* received by the permittee when deposited in the United States post office by the district or by the *department*."

Section 50. Section 46-2323, R.C.M. 1947, is amended to read as follows:

**"46-2323. Subsequent lessees to compensate district for range improvements.** Subsequent lessees or owners of land shall compensate a state district for the value of range improvements constructed with the consent of the owner, upon lands leased by the state district. *The* value shall be the value at the expiration date of the lease. *If* the owner and the state district cannot agree as to *the* value, the state district may either remove or abandon *the* improvement. *If* the subsequent lessee and the state district cannot agree as to *the* value, it shall be fixed by the *department*."

Section 51. Section 46-2325, R.C.M. 1947, is amended to read as follows:

**"46-2325. Dissolution of district.** A state district with the written consent of three-fourths ( $\frac{3}{4}$ ) of its permittee members may at any time request the *board of natural resources and conservation to dissolve* the state district. When *a hearing thereon has been held before the department and the board's* consent has been given, the directors shall distribute the assets of the state district, either in items of property or in cash or in both. Distribution shall first be made *with the approval of the department* to creditors up to the amount of their claims. Distribution shall then be made *with the approval of the department* to permittee members upon the basis of their proportionate interest in *the* assets. If assets must be liquidated, the directors shall offer *them* for sale at public auction after publication of a notice of *the* sale once a week for two (2) successive weeks in a newspaper of general circulation within the state district. A final report of all dissolution proceedings shall be made to the *department* by the directors. Upon the approval of *the* report by the *department*, the board shall order *the* state district dissolved."

Section 52. Section 46-2331, R.C.M. 1947, is amended to read as follows:

**"46-2331. Fees may be imposed by department against districts.** The *department* may impose fees against the several state grazing districts of the state in an amount not in excess of ten cents (\$.10) per animal unit, based upon the number of animal units per year for which the district grants permits, to defray expenses *incurred* by the *department in carrying out its powers and duties under this act*. These fees shall be held in the earmarked revenue fund, to be expended by order and direction of the *department* for the administration of the *department's functions*

*under this act. If a state district fails or refuses to pay the fee on or before the first day of October of each year, and after the district is provided with a full report from the department of all moneys collected and expended by it for its fiscal year next preceding that date, the department may compel and levy collection and payment by writ of mandate or other appropriate remedy against the state district."*

Section 53. Section 46-2332, R.C.M. 1947, is amended to read as follows:

**"46-2332. Range for wild game animals.** In each state district a sufficient carrying capacity of range *shall* be reserved for the maintenance of a reasonable number of wild game animals, to use the range in common with livestock grazing in the district. The *department* may act in an advisory capacity to the *department of fish and game* in the protection of wild-life within the boundaries of all *state* districts. The *department* shall encourage the transfer of beaver from streams where they are doing damage to other streams where they are needed."

Section 54. Section 60-124, R.C.M. 1947, is renumbered 60-127.1, and is amended to read as follows:

**"60-127.1. Waste of oil and gas prohibited.** Waste of oil and gas or either of them as waste is defined in this *chapter*, is prohibited."

Section 55. Section 60-126, R.C.M. 1947, is amended to read as follows:

**"60-126. Definitions.** As used in this *chapter*, unless the context *requires* otherwise:

(1) "Waste" means: (1) physical waste, as that term is generally understood in the oil and gas industry; (2) the inefficient, excessive, or improper use of, or the unnecessary dissipation of reservoir energy; (3) the location, spacing, drilling, equipping, operating or producing of any oil or gas well or wells in a manner which causes, or tends to cause, reduction in the quantity of oil or gas ultimately recoverable from a pool under prudent and proper operations, or which causes or tends to cause unnecessary or excessive surface loss or destruction of oil or gas; and, (4) the inefficient storing of oil or gas. *The* production of oil or gas from any pool or by any well to the full extent that *the* well or pool can be produced in accordance with methods designed to result in maximum ultimate recovery, as determined by the *board*, is not waste within the meaning of this definition.

(2) "Board" means the *board of oil and gas conservation provided for in section 82A-1508*.

(3) "Person" means any natural person, corporation, association, partnership, receiver, trustee, executor, administrator, guardian, fiduciary, or other representative of any kind, and includes any agency or instrumentality of the state or any governmental subdivision thereof.

(4) "Oil" means crude petroleum oil and other hydrocarbons regardless of gravity which are produced at the wellhead in liquid form by ordinary production methods, and which are not the result of condensation of gas before or after it leaves the reservoir.

(5) "Gas" means all natural gases and all other fluid hydrocarbons as produced at the wellhead and not defined as oil *in subsection (4) of this section*.

(6) "Pool" means an underground reservoir containing a common accumulation of oil or gas or both; each zone of a structure which is completely separated from any other zone in the same structure is a pool, as that term is used in this *chapter*.

(7) "Field" means the general area underlaid by one (1) or more pools.

(8) "Owner" means the person who has the right to drill into and produce from a pool and to appropriate the oil or gas he produces therefrom either for himself or others or for himself and others, and *the term includes* all persons holding such authority by or through him.

Nothing herein contained shall be construed to conflict with subsection (4) of section 81-1702, granting *the* state board of land commissioners the authority to enter into pooling and unitization agreements for the production of oil or gas with others.

(9) "Producer" means the owner of a well or wells capable of producing oil or gas or both.

(10) "Department" means *the department of natural resources and conservation provided for in Title 82A, chapter 15.*"

Section 56. Section 60-127, R.C.M. 1947, is amended to read as follows:

"60-127. **Powers and duties of board.** (1) The board shall make such investigations as it *considers* proper to determine whether waste exists or is imminent or whether other facts exist which justify any action by the board under the authority granted by this *chapter* with respect thereto.

(2) *Subject to the administrative control of the department under section 82A-108, the board shall:*

(a) *Require:* (i) identification of ownership of oil or gas wells, producing properties and tanks; (ii) the making and filing of acceptable well logs, reports on well locations, and the filing of directional surveys, if made, however, logs of exploratory or wildcat wells need not be filed for a period of six (6) months following completion of *those* wells; (iii) the drilling, casing, producing and plugging of wells in such manner as to prevent the escape of oil or gas out of one stratum into another, the intrusion of water into oil or gas stratum, blowouts, cavings, seepages, and fires, and the pollution of fresh water supplies by oil, gas, salt, or brackish water; (iv) the furnishing of a reasonable bond with good and sufficient surety, conditioned for performance of the duty to properly plug each dry or abandoned well; (v) proper gauging or other measuring of oil and gas produced and saved to determine the quantity and quality thereof; and (vi) that every person who produces, transports or stores oil or gas in this state shall make available within this state for a period of five (5) years complete and accurate records of the quantities thereof, which records shall be available for examination by the board or its employees at all reasonable

times, and that *that* person file with the *board* such reports as it may prescribe with respect to quantities, transportations, and storages of *the* oil or gas.

(b) For the purpose of preventing waste, (i) regulate the drilling, producing and plugging of wells, the shooting and chemical treatment of wells, the spacing of wells, operations voluntarily entered into to increase ultimate recovery such as cycling of gas, the maintenance of pressure, and the introduction of gas, water, or other substances into producing formations, and, (ii) fix, upon application made by any interested person after hearing, efficient gas-oil and water-oil ratios for any particular well or wells.

(c) *Regulate the disposal of salt water and oil field wastes.*

(d) *Classify wells as oil or gas wells for purposes material to the interpretation or enforcement of this chapter.*

(e) *Adopt and enforce rules and orders to effectuate the purposes and the intent of this chapter.*

(3) The *board* shall determine and prescribe what producing wells shall be defined as "stripper wells" and what wells shall be defined as "wild cat wells," and make such orders as in its judgment *are* required to protect *those* wells, and provide that stripper wells may be produced to capacity if it is *considered* necessary in the interest of conservation to do so.

(4) With respect to any pool from which gas was being produced by a gas well on or prior to *April 1, 1953*, this *chapter does not* authorize the *board* to limit or restrain the rate (daily or otherwise) of production of gas from *that* pool by any well then or *thereafter* drilled and producing from *that* pool to less than the rate at which *the* well can be produced without adversely affecting the quantity of gas ultimately recoverable by *the* well."

Section 57. Section 60-128, R.C.M. 1947, is amended to read as follows:

"60-128. **Notice of intention to drill.** It is unlawful to commence the drilling of a well for oil or gas without first *filing with the board* written notice of intention to drill, and obtaining a drilling permit as provided in *section 60-145(4).*"

Section 58. Section 60-129, R.C.M. 1947, is amended to read as follows:

"60-129. **Well spacing units — orders.** (1) To prevent or to assist in preventing waste of oil or gas prohibited by this *chapter*, the *board*, upon its own motion or upon application of *an* interested person, after hearing, may by order establish well spacing units for a pool, as to oil wells or as to gas wells or both, except in those pools which, prior to *April 1, 1953*, have been developed to such an extent that it would be impracticable or unreasonable to establish spacing units at the existing stage of development. Spacing units when established shall in so far as possible be of uniform size and shape for the entire pool.

(2) The size and the shape of spacing units *shall* be such as will result in the efficient and economic development of the pool as a whole, and the size shall be the area that can be efficiently drained by one (1) well.

(3) Subject to this *chapter*, the order establishing spacing units shall direct that no more than one (1) well *may* be drilled and produced from the common source of supply on any spacing unit, and that the well shall be drilled at a location authorized by the order, with such exception as may be reasonably necessary where it is shown, upon application, notice, and hearing, and the *board* finds, that the spacing unit is located on the edge of a pool or field and adjacent to a producing unit, or, for some other reason, the requirement to drill the well at the authorized location on the spacing unit would be inequitable or unreasonable.

(4) An order establishing spacing units for a pool shall cover all lands then determined or then believed to be underlaid by *the* pool and may be modified after notice and hearing by the *board* from time to time to include additional areas subsequently determined to be underlaid by *the* pool. When found necessary for the prevention of waste, an order establishing spacing units in a pool may be modified after notice and hearing by the *board* to increase or decrease the size of spacing units in the pool, or to permit the drilling of additional wells on a reasonably uniform plan in the pool."

Section 59. Section 60-130, R.C.M. 1947, is amended to read as follows:

**"60-130. Pooling of interest within spacing unit — voluntary or on order of board after hearing — contents of order.** (1) When two (2) or more separately owned tracts are embraced within a spacing unit, or when there are separately owned interests in all or a part of the spacing unit, then the persons owning *those* interests may pool their interests for the development and operation of the spacing unit. In the absence of voluntary pooling, within the spacing unit, the *board*, upon the application of *an* interested person, may enter an order pooling all interests in the spacing unit for the development and operation thereof. *The* pooling order shall be made after hearing, and shall be upon terms and conditions that are just and reasonable, and that afford to the owner of each tract or interest in the spacing unit the opportunity to recover or receive, without unnecessary expense, his just and equitable share of the oil or gas produced and saved from *the* spacing unit. Operations incident to the drilling of a well upon any portion of a spacing unit covered by a pooling order shall be *considered*, for all purposes, the conduct of *the* operations upon each separately owned tract in the spacing unit by the several owners thereof. That portion of the production allocated to each tract included in a spacing unit covered by a pooling order shall, when produced, be *considered* for all purposes to have been produced from *the* tract by a well drilled thereon.

(2) *The* pooling order shall *provide* for the drilling and operating of a well on the spacing unit, and for the payment of the cost thereof, which cost may include a reasonable charge for supervision, handling and storage. As to each owner who refuses to pay his share of the costs of drilling and operating the well, the order shall provide for payment of his share

of the cost out of, and only out of, production from the well allocable to his interest in the spacing unit, excluding royalty or other interest not obligated to pay any part of the cost thereof. *If a dispute arises as to the cost, the board by order shall determine the proper cost.* The order may provide in substance that the owners who agree to share in the cost of drilling and operating the well *are*, unless they agree otherwise, entitled to receive, subject to royalty or similar obligations, all of the production of the well until they have recovered all of *the* costs out of *the* production and thereafter all of the owners in *the* spacing unit *are* entitled to receive their respective shares of the production of *the* well as their interest may appear after deducting their respective shares of current operating costs."

Section 60. Section 60-131, R.C.M. 1947, is amended to read as follows:

**"60-131. Agreements for development and operation of pool — not in violation of state antitrust laws when approved by board.** An agreement for the unit or *cooperative* development and operation of a field or pool or any part of either, or for conducting repressuring or pressure maintenance operations, cycling or recycling operations, including the extraction and separation of liquid hydrocarbons from natural gas in connection therewith, or any other method of unit or *cooperative* operation, including water flooding, is authorized and may be performed. Such an agreement *does* not violate any of the statutes of this state relating to trusts, monopolies or contracts and combinations in restraint of trade if the agreement is approved by the *board* as being in the public interest and reasonably necessary to increase ultimate recovery or to prevent waste of oil or gas."

Section 61. Section 60-131.1, R.C.M. 1947, is amended to read as follows:

**"60-131.1. Operation of pool as unit — board to hold hearing — notice.** (1) The *board*, upon the application of persons owning leasehold interests underlying sixty per cent (60%) of the surface within the delineated area, shall hold a hearing to consider the need for the operation as a unit of one (1) or more pools or parts thereof in a field, for pressure maintenance or secondary recovery purposes as to oil or oil and gas, to increase ultimate recovery, or to prevent waste of gas from pools or portions of pools where gas only is produced.

(2) At least sixty (60) days prior to application, the applicant shall, by registered or certified mail, notify all known persons owning an interest in the oil and gas within the proposed unit area as disclosed by the records of the county or counties in which the proposed unit area is situated, at *that person's* last known address, of *the* applicant's intention to make *the* application. At the same time producers *shall* be furnished with a plan of unit operations. Upon written request of *an* operator of a lease which is in whole or in part within the confines of the proposed delineated area, *the* applicant *shall* furnish *the* operator with copies of any exhibits to be submitted to the *board* at the time of hearing."

Section 62. Section 60-131.2, R.C.M. 1947, is amended to read as follows:

"60-131.2. **Board order — criteria.** The *board* shall make an order providing for the unit operation of a pool or pools or part thereof if it determines, based on evidence presented at *the* hearing, that:

(1) Such operation is reasonably necessary to increase the ultimate recovery of oil or gas;

(2) The value of the estimated additional recovery of oil or gas less royalties or, as to gas pools only, the value of the economies to be effected, exceeds the estimated additional cost incident to conducting such operations; and

(3) The full areal extent of *the* pool or pools or part thereof has been reasonably defined and determined by drilling operations."

Section 63. Section 60-131.3, R.C.M. 1947, is amended to read as follows:

"60-131.3. **Terms and conditions of order — requirements.** The order shall be upon terms and conditions that are just and reasonable and shall prescribe a plan for unit operations that shall include:

(1) A description of the pool or pools or parts thereof to be so operated, termed the unit area, but only so much of a pool as has reasonably been defined and determined by drilling operations to be productive of oil or gas may be included within the unit area. *If* the unit is formed solely for production of gas, a spacing unit on which is located a well producing or capable of producing gas on *March 1, 1971, may not* be included in the unit area without the written consent of the majority in interest of the working interest owners of *the* spacing unit and well.

(2) A statement of the nature and purpose of the plan and operations contemplated, together with a copy of the proposed unit agreement and unit operating agreement.

(3) A plan for allocating to each tract in the unit area its fair share of the oil and gas produced from the unit area and not required or consumed in the conduct of the operation of the unit area or unavoidably lost. A plan *may not* be approved by the *board* until *it* has considered the relative value that *the* share of production bears to the relative value of all of the separately owned tracts in the unit area, exclusive of physical equipment utilized in unit operations. In considering *this* relative value, the *board* shall weigh the economic value of the gas to all persons affected as compared to the economic value of the oil to all persons affected.

(4) A provision for the credits and charges to be made in the adjustment among the owners in the unit area for their respective investments in wells, tanks, pumps, machinery, materials, and equipment contributed to the unit operations.

(5) A provision providing how the costs of unit operations, including overhead and capital investments, shall be determined and charged to the separately owned tracts, including a provision for carrying or otherwise financing any owner who has not executed the proposed unit operating agreement and who elects to be carried or otherwise financed, allowing an interest charge of the then current prime rate plus two per cent (2%)

for *the* service. Recovery of the money advanced, plus interest, shall be limited to, and only shall be recoverable from, *the* owners' share of production. *The* recovery shall be as follows:

(a) (1) In the case of a field producing oil, or oil and gas, during the period of depletion of the remaining estimated primary reserves from the unit, only from the production that is in excess of *the* owners' average actual rate of production during the eighteen (18) months immediately preceding the effective date of the unit. For purposes of this subsection, the term "primary reserves" means the oil or gas which would be produced from the unitized pool or pools or a result of the natural energy therein and without the introduction of a secondary recovery program.

(2) During the period subsequent to the depletion of the remaining estimated primary reserves from the unit, from one hundred per cent (100%) of *the* owners' share of production.

(b) In the case of a field producing only gas, the recovery shall be from one hundred per cent (100%) of *the* owners' share of production.

(6) A provision for the supervision and conduct of the unit operations, in respect to which each owner shall have a vote with a value corresponding to the percentage of the costs of unit operations chargeable against the interest of *the* owner.

(7) A provision whereby the unit operator, after having operated for a minimum period of two (2) years, can be challenged by any other owner in the unit, and *the* challenging owner may succeed to the unit operations upon a showing that: (a) he can operate more efficiently and economically than the present operator; (b) he is qualified and financially responsible; (c) a majority of the other owners, both in number and in percentage and exclusive of the challenged operator, approved *the* challenging owner becoming unit operator; and, (d) the challenged operator does not initiate the conditions of operations of the challenging owner within sixty (60) days of the challenged operator's receipt of *the* conditions of operations.

(8) The time when the unit operations shall commence, and the manner in which, and the circumstances under which, the unit operations shall terminate; and

(9) Such additional provisions that are found to be appropriate for carrying on unit operations and for the protection and adjustment of correlative rights."

Section 64. Section 60-131.4, R.C.M. 1947, is amended to read as follows:

**"60-131.4. Plan for unit operations — approval by those paying costs required — conditions for approval.** An order of the *board* providing for unit operations *may not* become effective unless and until the plan for unit operations prescribed by the *board* has been approved in writing by those persons who, under the *board's* order, will be required to pay at least eighty per cent (80%) of the costs of the unit operations, and also by the persons owning at least eighty per cent (80%) of the production or proceeds thereof that will be credited to interests which are free of cost, such as royalties, overriding royalties, and production pay-

ments, and the *board* has made a finding, either in the order providing for unit operations or in a supplemental order, that the plan for unit operations has been so approved; however, if one (1) owner who is obligated to pay costs of the unit operation owns eighty per cent (80%) or more, but less than one hundred per cent (100%), the approval of that owner and at least one (1) other such owner is required, and if one (1) person entitled to production or proceeds thereof that will be credited to interests which are free of costs, owns eighty per cent (80%) or more, but less than one hundred per cent (100%), the approval of that person and at least one (1) other such person is required. If the plan for unit operations has not been so approved at the time the order providing for unit operations is made, the *board* shall, upon application and notice, hold such supplemental hearings as may be required to determine if and when the plan for unit operations has been so approved. If the requisite number of owners and persons and the requisite percentage of interests in the unit area do not approve the plan for unit operations within a period of six (6) months from the date on which the order providing for unit operations is made, *the board shall revoke the order unless for good cause shown the board extends the time.*"

Section 65. Section 60-131.5, R.C.M. 1947, is amended to read as follows:

"60-131.5. **Amendment of board order — conditions.** An order providing for unit operations may be amended by an order made by the *board* in the same manner and subject to the same conditions and notice as an original order providing for unit operations, *however*, (a) if such an amendment affects only the rights and interests of the owners, the approval of the amendment by the persons owning interest which are free of costs, such as royalties, overriding royalties and production payments, is not required, and (b) *an order of amendment may not change the percentage for the allocation of oil and gas as established for any tract by the original order, except with the consent of all persons owning oil and gas rights in the tract, or change the percentage for the allocation of cost as established for any tract by the original order, except with the consent of all owners in the tract.*"

Section 66. Section 60-131.6, R.C.M. 1947, is amended to read as follows:

"60-131.6. **Units established by previous order may be included — manner of inclusion.** The *board*, by an order, may provide for the unit operation of a pool or pools or parts thereof that embrace a unit established by an order of the *board* made prior to *February 13, 1969*. The order, in providing for the allocation of unit production, shall first treat the unit area previously established as a single tract, and the portion of the unit production so allocated thereto shall then be allocated among the tracts included in the previously established unit area in the same proportions as those specified in the previous order. Any new owner whose interest by the order is added to the unit area and who becomes liable for his proportionate share of the costs of unit operations is not liable for any unit operating costs incurred prior to the person's entry in the unit. At the time the interest is included in the unit, an equipment inventory shall be made in order to charge the newly committed interest with its propor-

tionate share of capital investment at its then value. An oil-in-storage inventory *shall* be taken immediately prior to adding the newly committed interest."

Section 67. Section 60-131.8, R.C.M. 1947, is amended to read as follows:

"60-131.8. **Presumptions — compliance with board order constitutes fulfillment of lease or contract obligations.** All operations, including, but not limited to, the commencement, drilling, or operation of a well upon any portion of the unit area, shall be *considered* for all purposes the conduct of *those* operations upon each tract in the unit area by the several owners thereof. The portion of the unit production allocated to a tract in a unit area shall, when produced, be *considered*, for all purposes, to have been actually produced from *the* tract by a well drilled thereon. Operations conducted pursuant to an order of the *board* providing for unit operations shall constitute a fulfillment of all the express or implied obligations of each lease or contract covering lands in the unit area to the extent that *the* obligations cannot be performed because of the order of the board."

Section 68. Section 60-131.10, R.C.M. 1947, is amended to read as follows:

"60-131.10. **Contract relating to tract not terminated by board order.** A division order or other contract relating to the sale or purchase or production from a tract *may not* be terminated by the order providing for unit operations, but shall remain in force and apply to oil and gas allocated to *the* tract until terminated in accordance with the provisions thereof."

Section 69. Section 60-131.11, R.C.M. 1947, is amended to read as follows:

"60-131.11. **Title to oil and gas rights not affected by board order — allocation of property.** Except to the extent that the parties affected so agree, *an* order providing for unit operations *does not* result in a transfer of all or any part of the title of any person to the oil and gas rights in any tract in the unit area. All property, whether real or personal, that may be acquired in the conduct of unit operations hereunder shall be acquired for the account of the owners within the unit area, and shall be the property of *those* owners in the proportion that the expenses of unit operations are charged."

Section 70. Section 60-131.12, R.C.M. 1947, is amended to read as follows:

"60-131.12. **Trade not restrained by unit operations.** The formation of a unit as provided in *sections 60-131.1 through 60-131.13* and the operation of the unit under order of the *board* shall not be in violation of any statute of this state relating to trusts, monopolies, contracts or combinations in restraint of trade."

Section 71. Section 60-132, R.C.M. 1947, is amended to read as follows:

**"60-132. Administrative Procedures Act — orders — notice.** (1) *The Montana Administrative Procedure Act (Title 82, chapter 42, R.C.M. 1947) applies to this chapter.*

(2) *An order, or amendment thereof, except in an emergency, may not be made by the board without a public hearing upon at least ten (10) days' notice. The public hearing shall be held at such time and place as may be prescribed by the board, and any interested person is entitled to be heard.*

(3) *When an emergency requiring immediate action is found to exist, the board may issue an emergency order without advance notice or hearing, which shall be effective upon promulgation. An emergency order may not remain in effect more than fifteen (15) days.*

(4) *If notice is required by the chapter and the Montana Administrative Procedure Act does not apply, the notice shall be made by publication in one (1) or more issues of a newspaper in general circulation in Helena and a newspaper of general circulation in the county where the land or some part thereon is situated, and the board may also cause publication to be made in a trade journal or bulletin of general circulation in the oil and gas industry in the state.*

(5) *Proof of service by publication under subsection (4) shall be made by the affidavit of the printer or publisher of the newspaper, trade journal, or bulletin in which the notice is published, or by a foreman or principal clerk of the newspaper, bulletin or trade journal. (6) Except as provided otherwise in this chapter, the board may act upon its own motion, or upon the petition of an interested person. On the filing of a petition concerning a matter within the jurisdiction of the board, the board shall promptly fix a date for a hearing thereon, and shall cause notice of the hearing to be given. The hearing shall be held without undue delay after the filing of the petition. The board shall enter its order within thirty (30) days after the hearing."*

Section 72. Section 60-133, R.C.M. 1947, is amended to read as follows:

**"60-133. Subpoena power of board — chapter does not abrogate civil actions — enforcement of chapter when board fails to enjoin violations.** (1) *If the Montana Administrative Procedure Act does not apply, the board may subpoena witnesses, administer oaths, and require the production of records, books, and documents for examination at any hearing or investigation conducted by it. Witnesses subpoenaed under this subsection shall be paid the same per diem and mileage as is provided to be paid to witnesses attending the district courts of this state.*

(2) *This chapter, a suit by or against the board, a violation charged or asserted against a person under this chapter, or a rule or order issued under this chapter, does not impair, abridge, or delay a cause of action for damages or other civil remedy, which a person may have or assert against a person violating this chapter, or a rule or order issued under it. A person so aggrieved by the violation may sue for and recover such damages or relief as he otherwise may be entitled to receive. If the board fails to bring suit to enjoin a violation or threatened violation of this chapter, or a rule or order of the board within ten (10) days after receipt*

of written request to do so by *a* person who is or will be adversely affected by *the* violation, the person making *the* request may bring *the* suit in his own behalf to restrain *the* violation or threatened violation in *a* court in which the *board* might have brought suit. The *board* shall be made a party defendant in *the* suit in addition to the person violating or threatening to violate this *chapter*, or a rule or order of the *board*, and the action shall proceed and injunctive relief may be granted without bond in the same manner as if suit had been brought by the *board*.

(3) *If a person fails or refuses to comply with the subpoena issued by the board or if a witness refuses to testify as to any material matter regarding which he may be interrogated, any district court in the state, upon good cause shown by the application of the board, may issue a warrant of attachment for the person and if after hearing the court finds his failure or refusal to be unjustified, compel him to comply with the subpoena, and to attend before the board and produce any subpoenaed records, books, and documents for examination, and to give his testimony. The court may punish for contempt as in the case of disobedience to a like subpoena issued by the court, or for refusal to testify therein.*

Section 73. Section 60-134, R.C.M. 1947, is amended to read as follows:

"60-134. **Rehearing.** A person adversely affected by *a* rule or order of the *board* may within twenty (20) days after its effective date apply to the *board* in writing for a rehearing. The application for rehearing shall be acted upon within ten (10) days after its filing, and if granted, the rehearing shall be held without undue delay."

Section 74. Section 60-135, R.C.M. 1947, is amended to read as follows:

"60-135. **Court review of order of board by suit for injunction — trial de novo — temporary restraining order, when allowed, bond — appeals.** (1) Any interested person adversely affected by any provision of this *chapter*, or by any rule or order *adopted* by the *board* hereunder, or by any act done or threatened thereunder, may obtain court review and seek relief by a suit for an injunction against the *board* as defendant, which suit may be instituted in the district court of the county where the *board* keeps its principal office, or in the district court of any county wherein the land involved or any part thereof is situated. The term "interested person," as used herein, shall be interpreted broadly and liberally, especially where the suit involves the right to drill a well, or involves some other act which clearly affects the plaintiff even though the effect *is* indirect; and if the act complained of involves a general order for a pool, or the right to drill a well therein, a person who owns or has an interest in a well in *the* pool, which well is capable of producing oil or gas, shall be considered to be, *prima facie*, an interested person. *The* suit shall be given a preferential setting, and shall be tried *de novo* and disposed of as an ordinary civil suit, and not upon the record of any hearing before the *board*. The statute, rule, *order*, or decision involved in *the* suit shall be *prima facie* valid; however, the finding of fact, actual or presumed, made by the *board* in support of the rule, order, or decision involved in *the* suit *is* not binding on the court though supported by evi-

dence introduced at a hearing before the *board*. The court shall decide all relevant questions of law, interpret constitutional and statutory provisions, and determine the meaning or applicability of the terms of any *board* action. The court shall:

(a) compel *board* action unlawfully withheld or unreasonably delayed; and (b) hold unlawful and set aside *board* action, findings, and conclusions found to be:

(1) arbitrary, unreasonable, capricious, and abuse of discretion, or otherwise not in accordance with law;

(2) contrary to constitutional right, power, privilege, or immunity;

(3) in excess of statutory jurisdiction, authority or limitations, or short of statutory right;

(4) without observance of procedure required by law; or

(5) unwarranted by the facts.

The court shall consider all the evidence, shall pass on the credibility of witnesses and the weight to be given their testimony, and shall resolve such fact issues as may be necessary for decision in the case.

(2) A temporary restraining order or temporary injunction of any kind *may not* be granted against the *board* and its members or against the attorney general, or against *an* employee of the *board*, restraining the *board* and its members, or employees, or the attorney general, from enforcing this *chapter*, or any rule or order made thereunder, until it *is* shown to the satisfaction of the court that the act done or threatened is probably without sanction of the law or that the provisions of this *chapter*, or the rule or order complained of is probably invalid or unreasonable, and that, if enforced against the complaining party, will probably cause an irreparable injury. With respect to *an* order or decree granting temporary injunctive relief, the nature and extent of the probable invalidity of the statute, or of any provision of this *chapter*, or of a rule or order thereunder involved in *the* suit, must be recited in the order or decree granting the temporary relief, as well as a clear statement of the probable damage relied upon by the court as justifying temporary injunctive relief.

(3) A temporary restraining order or temporary injunction of any kind against the *board* or its members, or its employees, or the attorney general, *may not be* effective until the plaintiff *executes* a bond with sufficient sureties in such amount and upon such conditions as the court *directs*. The bond shall be made payable to the state of Montana, shall be approved by the judge of the court, and shall be for the use and benefit of all persons who may be injured by the acts done under the protection of the temporary restraining order or temporary injunction. A person claiming injury must bring suit within six (6) months after the date of the final determination of the validity, in whole or in part of the provisions of the *chapter* or the rule or order, the enforcement of which was enjoined; otherwise the right to bring such suit *is* forever barred.

(4) An appeal to the supreme court may be taken from any final judgment, decree or order in the action, as provided in *the Rules of Appellate Civil Procedure* of Title 93, *R.C.M. 1947*."

Section 75. Section 60-136, R.C.M. 1947, is amended to read as follows:

"60-136. **Enjoining violations of chapter.** Whenever it appears that a person is violating or threatening to violate this *chapter*, or a rule or order of the *board*, the *board* shall bring suit against *that* person in the district court of any county where the violation occurs or is threatened, to restrain *the* person from continuing *the* violation or from carrying out the threat of violation. In *the* suit, the court *may* grant to the *board*, without bond or other undertaking, such prohibitory and mandatory injunctions as the facts may warrant, including temporary restraining orders."

Section 76. Section 60-140, R.C.M. 1947, is amended to read as follows:

"60-140. **Lands subject to act.** This *chapter applies* to all lands in the state lawfully subject to its taxation and police powers. *It applies* to lands of the United States or to lands subject to the jurisdiction of the United States only to the extent that control and supervision of conservation of oil and gas by the United States on its lands *fails* to effect the intent and purposes of this *chapter* and otherwise *applies* to *those* lands to such extent as any officer of the United States having jurisdiction, or his duly authorized representative, *approves* any of the provisions of this *chapter* or an order of the *board* which affect *those* lands. *This chapter also applies* to any lands committed to a unit agreement approved by the secretary of the interior or his duly authorized representative, except that the *board* may, with respect to *those* unit agreements, suspend the application of this *chapter* or any part of this *chapter* so long as the conservation of oil and gas and the prevention of waste as *provided* in this *chapter* is accomplished under *the* unit agreements; *the suspension does* not relieve *an* operator or owner from making such reports as may be required by the *board* with respect to operations and production under *the* unit agreement, *and the suspension does not* relieve *an* operator or owner from the payment of taxes on his oil and gas production or payment for permit fees as required by this *chapter*."

Section 77. Section 60-141, R.C.M. 1947, is amended to read as follows:

"60-141. **Cooperation with other governmental units and agencies.** The *board may cooperate* with any other state, interstate, or federal agency, and other governmental agencies of the state to effect the objects and purposes of this act and expend such funds as may be reasonably necessary in connection therewith."

Section 78. Section 60-142, R.C.M. 1947, is amended to read as follows:

"60-142. **Penalties.** If a person willfully *violates* any lawful *rule* or order of *the board*, or if a person, for the purpose of evading this *chapter*, or any rule or order of the *board*, knowingly and willfully (1) *makes* or *causes* to be made a false entry or statement in a report required by this *chapter* or by a rule or order of *the board*, or a false entry in a record, account, or memorandum required by this *chapter*, or by a rule or order, or (2) *omits*, or *causes* to be omitted, from *the* record, account, or memo-

random, full, true, and correct entries as required by this *chapter*, or by a rule or order, or (3) *removes* from this state or *destroys, mutilates, alters, or falsifies* the record, account, or memorandum, *that* person is guilty of a misdemeanor and shall be subject to a fine of not more than five thousand dollars (\$5,000) or imprisonment in a county jail for a term not exceeding six (6) months, or to both *the* fine and imprisonment."

Section 79. Section 60-143, R.C.M. 1947, is amended to read as follows:

**"60-143. Chapter does not constitute oil or gas wells as public utilities.** Nothing in this *chapter* shall in any manner be construed as constituting or attempting to constitute oil or gas wells as a public utility or utilities."

Section 80. Section 60-144, R.C.M. 1947, is amended to read as follows:

**"60-144. Owners shall make available to board cores and cuttings.** An owner drilling a well for gas or oil shall make available to the *board* at its field offices representative cores or chips, when available, and the cuttings from *the* well. *However*, cores, chips or cuttings need not be so made available for a period of six (6) months following completion or abandonment of *the* wells. *The board* may, however, relieve the owner of a well of the obligation to furnish *cores, chips, or cuttings* when in the opinion of the *board*, the furnishing thereof would be unduly burdensome for *the* owner; however, *the* owner desiring relief must apply to and receive permission from the *board* to not so furnish. The owner of a stratigraphic test well drilled for the purpose of obtaining lithologic information useful in potential oil and gas operations, as such well is defined by the *board's* rules shall within six (6) months from the date of the cessation of the drilling of *the* well, make available to the *board*, complete sets of sample cuttings and representative cores or chips and well logs of *the* wells, which logs shall include among other information the size of casing used and the type and depth of water if any located; *the* cuttings, cores, chips and logs shall be impounded and kept secure and confidential by the *board* until such time that the *board* *desires* to use the same; *however*, the *board* may not use *the* logs, chips, cores and cuttings from stratigraphic test wells until a period of three (3) years from the date of their impounding by the *board* has elapsed unless the owner of *the* stratigraphic test well consents to their use by the *board* prior to the expiration of the three (3) year period. The *board*, during the period of impoundment for any cores, cuttings, chips, or logs from any stratigraphic test well, *may* not give any person access to *the* cores, chips, cuttings or logs, and it *may* not disclose any information relating thereto or derived therefrom. The *board* shall require, and the owner of a stratigraphic test well shall furnish, prior to the commencement of drilling of *the* well, a good and sufficient surety bond, to be approved prior to the commencement of *the* drilling, conditioned upon the proper plugging of *the* well prior to abandonment, the amount of the bond to be determined by the estimated depth as in the *board's* rules provided for oil and gas wells, and, prior to abandonment, *the* wells shall be plugged by the owner thereof, or by the surety should the owner be in default, *the* plugging to conform to the standards set down and determined by the *board*."

Section 81. Section 60-145, R.C.M. 1947, is amended to read as follows:

**"60-145. Privilege and license tax — quarterly statements — penalties — drilling permit fees — oil and gas conservation moneys.**

(1) For the purpose of providing funds for defraying the expenses of the operation and enforcement of this *chapter*, and expenses of *the board*, the operators and producers of oil and gas shall pay an assessment not to exceed the amounts set forth in the following schedule on each barrel of crude petroleum originally produced, saved and marketed or stored within the state, or exported from the state, and on each ten thousand (10,000) cubic feet of natural gas produced, saved and marketed or stored within the state, or exported therefrom:

(a) On leases on which wells are producing an average of twenty-five (25) barrels of crude petroleum per day, or less, an assessment not to exceed three-eighths of one cent ( $\frac{3}{8}\text{¢}$ ) per barrel;

(b) On leases on which wells are producing an average of more than twenty-five (25) barrels of crude petroleum per day, an assessment not to exceed three-fourths of one cent ( $\frac{3}{4}\text{¢}$ ) per barrel; *and*,

(c) On wells producing, saving and marketing, storing, or exporting, natural gas, *the operators and producers* shall pay an assessment not to exceed two and one-half ( $2\frac{1}{2}$ ) mills per ten thousand (10,000) cubic feet of natural gas where said gas is marketed for less than fifteen cents (15¢) per thousand (1,000) cubic feet and an assessment not to exceed five (5) mills per ten thousand (10,000) cubic feet of natural gas where said gas is marketed for fifteen cents (15¢) or more per thousand (1,000) cubic feet.

(2) The *board* shall by order, without prior notice, or hearing, fix the amount of *the assessments* and may, from time to time, without prior notice or hearing, reduce or increase the amount thereof as, in its judgment, the expenses chargeable against the oil and gas conservation fund may require; however, the assessments fixed by the *board may not* exceed the limits prescribed in *this section*. The amounts of *the assessments* shall be a percentage factor (not to exceed one hundred per cent) of the rates set forth in *subsections (a), (b), and (c)* above, and the same percentage factor shall be applied by the *board* in fixing the amount of the assessment on each barrel of crude production and each ten thousand (10,000) cubic feet of natural gas mentioned in *those subsections*. The producers of *the crude petroleum and natural gas* shall pay *the assessments* on each barrel of crude petroleum and each ten thousand (10,000) cubic feet of natural gas produced for themselves, as well as for others, including royalty holders, and *the producers* shall be reimbursed for *the payments* made on crude oil and natural gas produced for others in the same manner as they are reimbursed for net proceeds tax paid on crude petroleum or natural gas produced for others *under* section 84-6208.

(3) For the purposes of this section, a "lease" means that particularly described tract of land contained in a contract in writing whereby a person having a legal estate in the land so described conveys a portion of his interest to another, in consideration of a certain rental or other recompense or consideration. Further, for the purposes of this section, leases owned or operated by one (1) lessee which in whole or in part cover

or affect an underground reservoir containing a common accumulation of crude petroleum oil or natural gas, or both, or which are encompassed within or affected by one (1) particular unit agreement shall be considered as one (1) lease relative to payments to be made under this section.

(4) In addition to the above-mentioned privilege and license tax, a person, before commencing the drilling of an oil or gas well or stratigraphic test well or core hole, shall secure from the *board* a drilling permit and shall pay to the *board* therefor the following amounts: for each well whose estimated depth is thirty-five hundred (3500) feet or less, twenty-five dollars (\$25.00); from thirty-five hundred and one (3501) feet to seven thousand (7,000) feet, seventy-five dollars (\$75.00); seven thousand (7,000) feet and deeper, one hundred fifty dollars (\$150.00).

(5) Each producer of crude petroleum in the state shall, not later than the last day of each of the calendar months of January, April, July and October, of each calendar year, render a true statement to the state treasurer of the state, and a duplicate thereof to the *board*, duly signed and sworn to, of all crude petroleum produced by him in this state during the preceding three (3) calendar months, and containing such other information as the *board* may require, and shall accompany the statement with the payment to the state treasurer of the assessment provided for in subsection (1) of this section, for the period covered by the statement. Each producer of natural gas in the state shall render like statements to the state treasurer of all natural gas produced by him in this state, and shall make payment of the assessment provided for in subsection (1) of this section, at such times and for such periods as may be prescribed by rule of the *board*. Any producer carrying on business at more than one (1) place or location in this state may include all those places of business in one (1) statement.

(6) An assessment not paid within the time specified is delinquent, and a penalty of twenty-five per cent (25%) thereof shall be added thereto and the whole thereof shall bear interest at the rate of one per cent (1%) per month from the date of delinquency until paid. Upon request of the *board* the attorney general shall commence and prosecute to final determination in any court of competent jurisdiction an action at law to collect the same.

(7) All money collected under this chapter shall be deposited in the earmarked revenue fund by the state treasurer of the state, and shall be used for the purpose of paying all expenses of the *board* and for no other purpose; all these moneys shall be used by the *board* subject to the approval of the department of administration and biennial appropriations by the legislative assembly."

Section 82. Section 60-148, R.C.M. 1947, is amended to read as follows:

"60-148. **Availability of facilities to bureau.** The *board* may make available to the authorized personnel or representatives of the bureau of mines and geology such facilities, equipment, records, and cores and cuttings, or samples of cores and cuttings, as are, or may be, required by the bureau in the furtherance of its oil and gas research and study."

Section 83. Section 60-801, R.C.M. 1947, is amended to read as follows:

"60-801. **Definitions.** *Unless the context requires otherwise, in this chapter:*

(1) "*Underground reservoir*" means any subsurface sand, stratum or formation of the earth suitable for the injection and storage of natural gas therein and the withdrawal of natural gas therefrom;

(2) "*Natural gas*" means gas either while in its original state or after the same has been processed by removal therefrom of component parts not essential to its use for light and fuel;

(3) "*Native gas*" means gas which has not been previously withdrawn from the earth;

(4) "*Natural gas public utility*" means any person, firm or corporation authorized to do business in this state and engaged in the business of transporting or distributing natural gas by means of pipelines into, within or through this state for ultimate public use;

(5) "*Board*" means the board of oil and gas conservation provided for in section 82A-1508;

(6) "*Underground storage*" means the process of injecting and storing of natural gas within and withdrawing of natural gas from an underground reservoir."

Section 84. Section 60-802, R.C.M. 1947, is amended to read as follows:

"60-802. **Underground storage.** (1) The underground storage of natural gas which promotes conservation thereof, which permits the building of reserves for orderly withdrawal in periods of peak demand, which makes more readily available natural gas to the domestic, commercial and industrial consumers of this state, or which provides a better year-round market to the various gas fields, serves the public interest and welfare of this state.

(2) Therefore, in the manner hereinafter provided the board and the court may find and determine that the underground storage of natural gas as hereinbefore defined is in the public interest."

Section 85. Section 60-803, R.C.M. 1947, is amended to read as follows:

"60-803. **Eminent domain — use and limitations.** (1) A natural gas public utility may acquire through the exercise of the right of eminent domain as provided in this chapter for its use for the underground storage of natural gas an underground reservoir which the board finds is suitable and in the public interest for the underground storage of natural gas, and in connection with the underground reservoir the utility may acquire such other interests in property as may be required adequately to maintain and operate the underground reservoir facilities. The acquisition by the exercise of the right of eminent domain of underground reservoirs granted by this section is limited as follows:

(a) No sand, formation, or stratum which is producing or has produced, or which is capable of producing oil, is subject to appropriation under this section.

(b) No gas-bearing sand, formation, or stratum *is* subject to appropriation *under this section*, unless the recoverable volumes of native gas therein have all been produced or unless *the* sand, formation or stratum has a greater value or utility as an underground reservoir for the purpose of insuring an adequate supply of natural gas for domestic, commercial, or industrial consumers of natural gas, or for the conservation of natural gas, than for the production of the remaining relatively small volumes of native gas as compared with the original volumes of natural gas therein. Gas, sand, formation or stratum *may not* be acquired under this *chapter* when the gas in the underground reservoir is being used for the secondary recovery of oil, unless gas in necessary and required amounts is furnished to the operator of the secondary recovery operations for as long as oil is produced in paying quantities in the secondary operations for the recovery of oil at the same cost as the cost to *the operator* at the time of acquisition of the gas being used in *the* secondary operations, not exceeding, however, the quantity of the appropriated gas that remained recoverable from *the* sand, formation or stratum at the time of its acquisition, if *the operator* was at *that* time entitled to the whole thereof, or if *the operator* was at *that* time entitled to less than the whole thereof, then not to exceed the quantity thereof to which *the operator* was then entitled.

(c) Only *the* area of *the* underground sand, formation or stratum as may reasonably be expected to be penetrated by gas displaced or injected into *the* underground gas storage reservoir may be appropriated.

(d) No rights or interests in existing underground gas reservoirs, being used for the injection, storage or withdrawal of natural gas, owned or operated by a natural gas public utility other than the natural gas public utility seeking to acquire the same, *are* subject to appropriation.

(2) The exercise of the right of eminent domain granted by *this section* shall be without prejudice to the rights of the owner of *the* lands or of other rights or interests therein to drill or bore into or through the underground reservoir so appropriated in a manner *that complies* with orders and rules of the *board* issued for the purpose of protecting *the* underground reservoir against pollution and against the escape of natural gas therefrom, and shall be without prejudice to the rights of the owner of *the* lands or other rights or interests therein as to all other uses thereof. The additional cost of complying with *those rules* or orders in order to protect the storage reservoir shall be paid by the natural gas public utility."

Section 86. Section 60-804, R.C.M. 1947, is amended to read as follows:

"60-804. **Certificate of board — publication.** A natural gas public utility desiring to exercise the right of eminent domain as to any property for use for underground storage of natural gas shall, as a condition precedent to the filing of its complaint in the district court, apply for and obtain from the *board* a certificate setting out *the* findings of *the board*:

(a) that the underground sand, stratum or formation sought to be acquired is suitable for an underground reservoir for the storage of natural gas and that its use for such purposes is in the public interest;

(b) the amount of native gas, if any, remaining therein and the portion thereof recoverable;

(c) and that the applicant has in good faith sought to acquire the rights sought *under this chapter*. *The board may not issue the certificate until after a public hearing is had on the application, pursuant to notice given to all persons known to have an interest in the property proposed to be acquired in the manner provided by the laws of the state for service of process in a civil action.*"

Section 87. Section 60-805, R.C.M. 1947, is amended to read as follows:

"60-805. **Proceedings.** A natural gas public utility having first obtained a certificate from the *board* desiring to exercise the right of eminent domain for the purpose of acquiring property for the underground storage of natural gas shall do so in the manner provided *in this section*. *The natural gas public utility shall present to the district court of the county wherein the land is situated a complaint setting forth the purpose for which the property is sought to be acquired, a description of the property sought to be appropriated and the names of the owners thereof as shown by the records of the county. The plaintiff shall file the certificate of the board as a part of its complaint and no order by the court granting the complaint shall be entered without the certificate being filed therewith. Subsequent proceedings shall follow the procedure provided by law in the exercise of the rights of eminent domain, sections 93-9901 et seq.*"

Section 88. Section 76-103, R.C.M. 1947, is amended to read as follows:

"76-103. **Definitions.** *Unless the context requires otherwise, in this act:*

(1) "District" or "conservation district" means a governmental subdivision of this state, and a public body corporate and politic, organized in accordance with this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth;

(2) "Supervisor" means one of the members of the governing body of a district, elected or appointed in accordance with this act;

(3) "Department" means the *department of natural resources and conservation provided for in Title 82A, chapter 15*;

(4) "Board" means the *board of natural resources and conservation provided for in section 82A-1509*;

(5) "Petition" means a petition filed under subsection (1) of section 76-105 for the creation of a district;

(6) "Nominating petition" means a petition filed under section 76-106 to nominate candidates for the office of supervisor of a soil conservation district;

(7) "Agency of this state" includes the government of this state and any subdivision, agency, or instrumentality, corporate or otherwise, of the government of this state;

(8) "United States" or "agencies of the United States" includes the United States of America, the soil conservation service of the United States department of agriculture, and any other agency or instrumentality, corporate or otherwise, of the United States of America;

(9) "Government" or "governmental" includes the government of this state, the government of the United States, and any subdivision, agency, or instrumentality, corporate or otherwise of either of them;

(10) "Land occupier" or "occupier of land" includes a person, firm, corporation, municipality or other entity who *holds* title to, or *is* in possession of, lands lying within a district organized under this act, whether as owner, lessee, renter, tenant, or otherwise;

(11) "Due notice" means notice published at least twice, with an interval of at least fourteen (14) days between the two (2) publication dates, in a newspaper or other publication of general circulation within the proposed area, or by posting at a reasonable number of conspicuous places within the appropriate area, *the* posting to include, where possible, posting at public places where it may be customary to post notices concerning county or municipal affairs generally. At any hearing held pursuant to *the* notice, at the time and place designated in *the* notice, adjournment may be made from time to time without the necessity of renewing *the* notice for *the* adjourned dates.

(12) "Qualified elector" means a qualified elector as defined in Title 23, R.C.M. 1947."

Section 89. Section 76-104, R.C.M. 1947, is amended to read as follows:

"76-104. **Duties of department.** In addition to the duties hereinafter conferred upon the *department*, it shall:

(1) *Offer* assistance as may be appropriate to the supervisors of conservation districts in the carrying out of their powers and programs;

(2) *Keep* the supervisors of each of the several districts informed of the activities and experiences of all other districts, and facilitate an interchange of advice and experiences between *the* districts and *cooperation* between them;

(3) *Coordinate* the programs of the several conservation districts hereunder so far as this may be done by advice and consultation;

(4) *Secure* the *cooperation* and assistance of the United States and of agencies of this state, in the work of *the* districts;

(5) *Disseminate* information throughout the state concerning the activities and programs of the conservation districts, and encourage the formation of districts in areas where their organization is desirable."

Section 90. Section 76-105, R.C.M. 1947, is amended to read as follows:

"76-105. **Creation of conservation districts.** (1) Any ten (10) qualified electors within the limits of the territory proposed to be organized

into a district may file a petition with the *department* asking that *the board approve the organization of a conservation district to function in the territory described in the petition. The petition shall set forth:*

- (a) The proposed name of *the* district;
- (b) That there is need, in the interest of the public health, safety, and welfare, for a conservation district to function in the territory described in the petition;
- (c) A description of the territory proposed to be organized as a district, which description *may* not be required to be given by metes and bounds or by legal subdivisions, but shall be *considered* sufficient if generally accurate;
- (d) A request that the *board* duly define the boundaries for *the* district; that a referendum be held within the territory so defined on the question of the creation of a conservation district in *the* territory; and that the *board* determine that a district be created.

(2) Where more than one (1) petition is filed covering parts of the same territory, the *board* may consolidate all or any part of *the* petitions.

(3) Within thirty (30) days after a petition has been filed with the *department*, it shall cause due notice to be given of a proposed hearing *before the department* upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of *the* district, upon the question of the appropriate boundaries to be assigned to *the* district, upon the propriety of the petition and other proceedings taken under this act, and upon all questions relevant to *those* inquiries. All qualified electors within the limits of the territory described in the petition, and of lands within any territory considered for addition to *the* described territory, and all other interested parties, *are entitled to attend the hearings and be heard. If it appears to the board after reviewing the record of the hearing that it may be desirable to include within the proposed district territory outside of the area within which due notice of the hearing has been given, the board shall adjourn the hearing and the department shall cause due notice of a further hearing to be given throughout the entire area considered for inclusion in the district, and the further hearing shall be held by the department. After the hearing, if the board determines, upon the facts presented at the hearing and upon other relevant facts and information as may be available to the department or the board, that there is need, in the interest of the public health, safety and welfare, for a conservation district to function in the territory considered at the hearing, it shall make and record that determination, and shall define, by metes and bounds or by legal subdivisions, the boundaries of the district. In making the determinations and in defining the boundaries, the board shall consider the topography of the area considered and of the state, the composition of soils therein, the distribution of erosion, the prevailing land-use practices, the desirability and necessity of including within the boundaries the particular lands under consideration and the benefits those lands may receive from being included within the boundaries, the relation of the proposed area to existing watersheds and agricultural regions, and other conservation districts already organized or*

proposed for organization under this act, and such other physical, geographical, and economic factors as are relevant, having due regard to the legislative determination set forth in section 76-102. The territory to be included within *the* boundaries need not be contiguous. If the *board determines* after *the* hearing, after due consideration of the relevant facts, that there is no need for a conservation district to function in the territory considered at the hearing, it shall make and record *that* determination and shall deny the petition. After six (6) months have expired from the date of the denial of *a* petition, subsequent petitions covering the same or substantially the same territory may be filed and *a* new hearing held and determinations made thereon.

(4) After the *board* has made and recorded a determination that there is need, in the interest of the public health, safety, and welfare, for the organization of a district in a particular territory and has defined the boundaries thereof, it shall consider the question whether the operation of a district within *the* boundaries with the powers conferred upon conservation districts in this act is administratively practicable and feasible. To assist the *board* in the determination of *this* administrative practicability and feasibility, *the department shall*, within a reasonable time after entry of the *board's* finding that there is need for the organization of the proposed district and the determination of the boundaries thereof, hold a referendum within the proposed district upon the proposition of the creation of the district, and cause due notice of *the* referendum to be given. The question shall be submitted by ballots upon which the words "For creation of a conservation district of the lands below described and lying in the county(ies) of ...., ...., and ...." and "Against creation of a conservation district of the lands below described and lying in the county(ies) of .... and ...." shall appear, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of *the* propositions as the voter may favor or oppose creation of *the* district. The ballot shall set forth the boundaries of *the* proposed district as determined by the *board*. All qualified electors within the boundaries of the territory, as determined by the *department*, are eligible to vote in *the* referendum.

(5) The *department* shall pay all expenses for the issuance of *the* notices and the conduct of *the* hearings and referenda, and shall supervise the conduct of *the* hearings and referenda. It shall *adopt* appropriate *rules* governing the conduct of *the* hearings and referenda, and providing for the registration prior to the date of the referendum of all eligible voters, or prescribing some other appropriate procedure for the determination of those eligible as voters in *the* referendum. No informalities in the conduct of *the* referendum or in any matters relating thereto shall invalidate *the* referendum or the result thereof if notice thereof *has* been given substantially as herein provided and *the* referendum *has* been fairly conducted.

(6) The *department* shall publish the result of *the* referendum and *the board* shall thereafter consider and determine whether the operation of the district within the defined boundaries is administratively practicable and feasible. If the *board determines* that the operation of *the* district is not administratively practicable and feasible, it shall record *that* determination and deny the petition. If the *board determines* that the operation

of *the* district is administratively practicable and feasible, it shall record *that* determination and shall proceed with the organization of the district in the manner hereinafter provided. In making *its* determination the *board* shall *consider* the attitudes of the qualified electors within the defined boundaries, the number of qualified electors eligible to vote in *the* referendum who voted, the proportion of the votes cast in *the* referendum in favor of the creation of the district to the total number of votes cast, the approximate wealth and income of the qualified electors of the proposed district, the probable expense of carrying on erosion-control operations within *the* district, and such other economic and social factors relevant to *the* determination, having due regard to the legislative determinations set forth in section 76-102; however, the *board may not* determine that the operation of the proposed district within the defined boundaries is administratively practicable and feasible unless a majority of the votes cast in the referendum upon the proposition of creation of the district have been cast in favor of the creation of *the* district.

(7) If the *board determines* that the operation of the proposed district within the defined boundaries is administratively practicable and feasible, it shall appoint two (2) supervisors to act with the three (3) supervisors elected as provided hereinafter, as the governing body of the district. *The* district is a governmental subdivision of this state and a public body corporate and politic, upon the taking of the following proceedings:

(8) The two (2) appointed supervisors shall present to the secretary of state an application signed by them, which shall set forth: (a) That a petition for the creation of the district was filed with the *department* pursuant to this act, that the proceedings specified in this act were taken pursuant to *the* petition, that the application is being filed in order to complete the organization of the district as a governmental subdivision and a public body, corporate and politic, under this act, and that the *board* has appointed them as supervisors; (b) the name and official residence of each of the supervisors, together with a certified copy of the appointments evidencing their right to office; (c) the term of office of each of the supervisors; (d) the name which is proposed for the district; and (e) the location of the principal offices of the supervisors of the district. The application shall be subscribed and sworn to by each of the supervisors. The application shall be accompanied by a statement by the *department*, which shall certify that a petition was filed, notice issued, and hearing held as *provided in this act*; that the *board determined* that there is need, in the interest of the public health, safety, and welfare, for a conservation district to function in the proposed territory, and *defined* the boundaries thereof; that notice was given and a referendum held on the question of the creation of *the* district, and that the result of *the* referendum showed a majority of the votes cast in *the* referendum to be in favor of the creation of the district; *and* that thereafter the *board determined* that the operation of the proposed district is administratively practicable and feasible. *The* statement shall *also* set forth the boundaries of the district as they have been defined by the *board*.

(9) The secretary of state shall examine the application and statement and, if he finds that the name proposed for the district is not identical with that of any other conservation district of this state or so nearly simi-

lar as to lead to confusion or uncertainty, he shall receive and file them and shall record them in an appropriate book of record in his office. If the secretary of state *finds* that the name proposed for the district is identical with that of any other conservation district of this state, or so nearly similar as to lead to confusion and uncertainty, he shall certify *that fact* to the *board*, which shall thereupon submit to the secretary of state a new name for the district, which *is* not subject to such defects. Upon receipt of *the* new name, free of such defects, the secretary of state shall record the application and statement, with the name so modified, in an appropriate book of record in his office. When the application and statement have been made, filed, and recorded, as herein provided, the district *is* a governmental subdivision of this state and a public body corporate and politic. The secretary of state shall make and issue to the supervisors without cost a certificate, under the seal of the state, of the due organization of the district, and shall record *the* certificate with the application and statement. The boundaries of *the* district shall include the territory as determined by the *board*, but they *may not* include any area included within the boundaries of another conservation district.

(10) After six (6) months have expired from the date of entry of a determination by the *board* that operation of a proposed district is not administratively practicable and feasible, and denial of a petition pursuant to *the* determination, subsequent petitions may be filed and action taken thereon in accordance with this act.

(11) Petitions for including additional territory within an existing district may be filed with the *department*, and the proceedings herein provided for in the case of petitions to organize a district shall be *followed* in the case of petitions for *the* inclusion. The *department* shall prescribe the form for *the* petitions, which shall be as nearly as may be in the form prescribed in this act for petitions to organize a district. Where the total number of qualified electors in the area proposed for inclusion *are* less than ten (10), the petition may be filed when signed by a majority of the qualified electors of *the* area, and in *that* case no referendum need be held. In referenda upon petitions for *the* inclusion, all qualified electors within the proposed additional area *are* eligible to vote.

(12) In a suit, action, or proceeding involving the validity or enforcement of, or relating to, a contract, proceeding, or action of the district, the district shall be *considered* to have been established in accordance with this act upon proof of the issuance of the certificate by the secretary of state. A copy of *the* certificate, duly certified by the secretary of state, is admissible in evidence in *the* suit, action, or proceeding and *is* proof of the filing and contents thereof."

Section 91. Section 76-106, R.C.M. 1947, is amended to read as follows:

"76-106. **Election of supervisors for each district.** Within thirty (30) days after the date of issuance by the secretary of state of a certificate of organization of a conservation district, nominating petitions may be filed with the *department* to nominate candidates for supervisors of *the* district. The *department* may extend the time within which nominating petitions may be filed. A nominating petition *may not* be accepted by the *department* unless it *is* subscribed by ten (10) or more qualified electors

within the boundaries of *the* district. Qualified electors may sign more than one (1) nominating petition to nominate more than one (1) candidate for supervisor. The *department* shall give due notice of an election to be held for the election of three (3) supervisors for the district. The names of all nominees on behalf of whom *the* nominating petitions have been filed within the time herein designated, shall be printed, arranged in the alphabetical order of the surnames, upon ballots, with a square before each name and a direction to insert an "X" mark in the square before any three (3) names to indicate the voter's preference. All qualified electors within the district *are* eligible to vote in *the* election. The three (3) candidates who receive the largest number, respectively, of the votes cast in *the* election *are* the elected supervisors for *the* district. The *department* shall pay all the expenses of *the* election, shall supervise the conduct thereof, shall prescribe *rules* governing the conduct of *the* election and the determination of the eligibility of votes therein, and shall publish the results thereof."

Section 92. Section 76-107, R.C.M. 1947, is amended to read as follows:

"76-107. **Appointment, qualifications and tenure of supervisors.** (1) The governing body of the district shall, if there are no incorporated municipalities within the boundaries of said district, consist of five (5) or seven (7) supervisors, elected or appointed as provided herein.

(2) In all cases where the boundaries of such conservation district include any incorporated municipality or municipalities, said board of supervisors, in addition to said five (5) elected supervisors, shall consist of two (2) appointed supervisors, making a total of seven (7) supervisors in such districts. The two (2) appointed supervisors must be residents of the municipalities within the district. The legislative bodies of the incorporated municipalities within the district shall, after consultation with the elected supervisors, appoint the two (2) additional supervisors. The term of office of the appointed supervisors shall be three (3) years.

(3) Where there are more than two (2) incorporated municipalities within a district, then the two (2) appointed supervisors shall represent all the municipalities and urban interests in the district, and no municipality shall have more than one (1) appointed supervisor residing therein.

(4) The supervisors shall annually elect a chairman from their members. The term of office of each supervisor shall be three (3) years, except that the supervisors who are first appointed shall be designated to serve for terms of one (1) and two (2) years, respectively, from the date of their appointment. An elected supervisor shall hold office until his successor has been elected and has qualified. Any vacancy occurring in the office of an elected supervisor shall be filled by appointment by the remaining supervisors until the next regular election, when a successor shall be elected to serve the unexpired term. A majority of the supervisors constitute a quorum and the concurrence of a majority in any matter within their duties *is* required for its determination. A supervisor *may not* receive compensation for his services, but he *is* entitled to expenses, including traveling expenses, necessarily incurred in the discharge of his duties.

(5) The supervisors may employ a secretary and such other officers, agents, and employees, permanent and temporary, as they may require, and shall determine their qualifications, duties and compensation. The supervisors may call upon the attorney general of the state for such legal services as they may require, or may employ their own counsel and legal staff. The supervisors may delegate to their chairman, to one (1) or more supervisors, or to one (1) or more agents or employees, such powers and duties as they *consider* proper. The supervisors shall furnish to the *department* copies of such ordinances, rules, regulations, orders, contracts, forms, and other documents as they adopt or employ, and such other information concerning their activities as may be required in the performance of *their* duties under this act.

(6) The supervisors shall provide for the execution of surety bonds for all employees and officers who *are* entrusted with funds or property; shall provide for the keeping of a full and accurate record of all proceedings, and of all resolutions, regulations, and orders issued or adopted; and shall provide for an annual audit of the accounts of receipts and disbursements. A supervisor may be removed by the *board* upon notice and hearing, for neglect of duty or malfeasance in office, but for no other reason.

(7) The supervisors may invite the legislative body of any municipality or county located near the territory comprised within the district to designate a representative to advise and consult with the supervisors of the district on all questions of program and policy which may affect the property, water supply, or other interests of *the* municipality or county."

Section 93. Section 76-111, R.C.M. 1947, is amended to read as follows:

"76-111. **Board of adjustment.** (1) Where the supervisors of a district adopt an ordinance prescribing land-use regulations in accordance with section 76-109, they shall further provide by ordinance for the establishment of a board of adjustment. *The* board of adjustment shall consist of three (3) members, each to be appointed for a term of three (3) years, except that the members first appointed shall be appointed for terms of 1, 2, and 3 years, respectively. The members of each board of adjustment shall be appointed by the *department*, with the advice and approval of the supervisors of the district for which *the* board has been established, and *may be removed by the department*, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other reason, *the* hearing to be conducted jointly by the *department* and the supervisors of the district. Vacancies in the board of adjustment shall be filled in the same manner as original appointments and shall be for the unexpired term of the member whose term becomes vacant. Members of the *board of natural resources and conservation, employees of the department*, and the supervisors of the district *are* ineligible to appointment as members of the board of adjustment. The members of the board of adjustment shall receive compensation for their services at the rate of four dollars (\$4) per diem for time spent on the work of the board, in addition to expenses, including traveling expenses, necessarily incurred in the discharge of their duties. The supervisors shall pay the necessary administrative and other expenses of operation incurred by the board, upon the certificate of the chairman of the board.

(2) The board of adjustment shall adopt rules to govern its procedures, which rules shall be in accordance with this act, and with any ordinance adopted pursuant to this section. The board shall annually elect a chairman from among its members. Meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. Any two (2) members of the board constitute a quorum. The chairman, or in his absence, such other member of the board as he may designate to serve as acting chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public. The board shall keep a full and accurate record of all proceedings, of all documents filed with it, and of all orders entered, which shall be filed in the office of the board and shall be a public record.

(3) Any qualified elector may file a petition with the board of adjustment, alleging that there are great practical difficulties or unnecessary hardship in the way of his carrying out upon his lands the strict letter of the land-use regulations prescribed by ordinance approved by the supervisors, and praying the board to authorize a variance from the terms of the land-use regulations in the application of *the* regulations to the lands occupied by the petitioner. Copies of *the* petition shall be served by the petitioner upon the chairman of the supervisors of the district within which his lands are located and upon the *department*. The board of adjustment shall fix a time for the hearing of the petition and cause due notice of *the* hearing to be given. The supervisors of the district and the *department are entitled* to appear and be heard at *the* hearing. A qualified elector within the district who *objects* to the authorizing of the variance prayed for may intervene and become a party to the proceedings. A party to the hearing before the board may appear in person, by agent, or by attorney. If, upon the facts presented at *the* hearing the board *determines* that there are great practical difficulties or unnecessary hardship in the way of applying the strict letter of any of the land-use regulations upon the lands of the petitioner, it shall make and record *that* determination and shall make and record findings of fact as to the specific conditions which establish *the* great practical difficulties or unnecessary hardship. Upon the basis of *the* findings and determination, the board *may* order a variance from the terms of the land-use regulations, in their application to the lands of the petitioner, *that* will relieve *the* great practical difficulties or unnecessary hardship and will not be contrary to the public interest, and such that the spirit of the land-use regulations *are* observed, the public health, safety, and welfare secured, and substantial justice done.

(4) A petitioner aggrieved by an order of the board granting or denying, in whole or in part, the relief sought, the supervisors of the district, or *an* intervening party, may obtain a review of *the* order in any district court of the county, in which the lands of the petitioner lie, by filing in *the* court a petition praying that the order of the board be modified or set aside. A copy of *the* petition shall *immediately* be served upon the parties to the hearing before the board, and thereupon the party seeking review shall file in the court a transcript of the entire record in the proceedings, certified by the board, including the documents and testimony upon which the order complained of was entered, and the findings, determination, and order of the board. Upon *the* filing, the court shall

cause notice thereof to be served upon the parties, and *the court has* jurisdiction of the proceedings and of the questions determined or to be determined therein, and *may* grant such temporary relief as it deems just and proper, and make and enter a decree enforcing, modifying, and enforcing as so modified, or setting aside, in whole or in part, the order of the board. A contention that *is* not urged before the board *may not* be considered by the court unless the failure or neglect to urge *the* contention *is* excused because of extraordinary circumstances. The findings of the board as to the facts, if supported by evidence, *are* conclusive. If *a* party *applies* to the court for leave to produce additional evidence and *shows* to the satisfaction of the court that *the* evidence is material and that there *are* reasonable grounds for the failure to produce *the* evidence in the hearing before the board, the court may order *the* additional evidence to be taken before the board and to be made a part of the transcript. The board may modify its findings as to the facts or make new findings, taking into consideration the additional evidence so taken and filed, and it shall file *the* modified or new findings, which, if supported by evidence, *are* conclusive, and shall file with the court its recommendations, if any, for the modification or setting aside of its original order. The jurisdiction of the court *is* exclusive and its judgment and decree *are* final, except that *they are* subject to review in the same manner as are other judgments or decrees of the court."

Section 94. Section 76-114, R.C.M. 1947, is amended to read as follows:

"76-114. **Discontinuance of districts.** (1) At any time after five (5) years after the organization of a district under this act, any ten (10) qualified electors within the boundaries of *the* district may file a petition with the *department*, praying that the *board terminate the* operations of the district and *discontinue* the existence of the district. The *department* may conduct such public meetings and public hearings upon *the* petition as *are* necessary to assist it *and the board* in the consideration thereof.

(2) Within sixty (60) days after *the* petition has been received by the *department* it shall give due notice of the holding of a referendum, and shall supervise *the* referendum, and issue appropriate regulations governing the conduct thereof, the question to be submitted by ballots upon which the words "For terminating the existence of the .... (name of the conservation district to be here inserted)" and "Against terminating the existence of the .... (name of the conservation district to be here inserted)" shall appear, with the square before each proposition and a direction to insert an "X" mark in the square before one or the other of *the* propositions as the voter may favor or oppose discontinuance of *the* district. All qualified electors within the boundaries of the district *are* eligible to vote in *the* referendum. No informalities in the conduct of *the* referendum or in any matters relative thereto shall invalidate *the* referendum or the result thereof if notice thereof *is* given substantially as herein provided and *the* referendum *is* fairly conducted.

(3) The *department* shall publish the result of *the* referendum and *the board* shall thereafter consider and determine whether the continued operation of the district within the defined boundaries is administratively practicable and feasible. If the *board determines* that the continued oper-

ation of *the* district is administratively practicable and feasible, it shall record *that* determination and deny the petition. If the *board determines* that the continued operation of *the* district is not administratively practicable and feasible, it shall record *that* determination and shall certify *the* determination to the supervisors of the district.

(4) In making *the* determination the *board* shall give due regard and weight to the attitudes of the qualified electors lying within the district, the number of land occupiers qualified electors eligible to vote in *the* referendum who voted, the proportion of the votes cast in *the* referendum in favor of the discontinuance of the district to the total number of votes cast, the approximate wealth and income of the qualified electors of the district, the probable expense of carrying on erosion control operations within *the* district, and such other economic and social factors as may be relevant to *the* determination, having due regard to the legislative findings set forth in section 76-102; however, the *board may* not determine that the continued operation of the district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum *are* cast in favor of the continuance of *the* district.

(5) Upon receipt from the *department* of a certification of *the board* that the *board* has determined that the continued operation of the district is not administratively practicable and feasible, pursuant to this section, the supervisors shall *immediately* proceed to terminate the affairs of the district. The supervisors shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of *the* sale to be covered into the state treasury. The supervisors shall thereupon file an application, duly verified, with the secretary of state for the discontinuance of *the* district, and shall transmit with *the* application the certificate of the *board*, setting forth the determination of the *board* that the continued operation of *the* district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as in this section provided, and shall set forth a full accounting of *the* properties and proceeds of the sale. The secretary of state shall issue to the supervisors a certificate of dissolution and shall record *the* certificate in an appropriate book of record in his office.

(6) Upon issuance of a certificate of dissolution under this section, all ordinances and regulations theretofore adopted and in force within *the district are void*. All contracts *previously* entered into, to which the district or supervisors are parties, remain in effect for the period provided in *those* contracts. The *department* shall be substituted for the district or supervisors as party to *the* contracts. The *department* is entitled to all benefits and subject to all liabilities under *the* contracts and *has* the same right and liability to perform, to require performance, to sue and be sued thereon, and to modify or terminate *the* contracts by mutual consent or otherwise, as the supervisors of the district would have had. *The* dissolution *does* not affect the lien of any judgment entered under section 76-110, nor the pendency of *an* action instituted under *that* section, and the *department succeeds* to all rights and obligations of the district or supervisors as to *those* liens and actions."

Section 95. Section 76-115, R.C.M. 1947, is amended to read as follows:

"76-115. **Disposition of funds.** (1) Unless otherwise provided by law, all moneys which may from time to time be appropriated out of the state treasury to pay the administrative and other expenses of conservation districts shall be allocated by the *department* among the districts already organized, or to be organized, during the ensuing biennial fiscal period, in accordance with the procedure specified in subsection (2) of this section. All moneys allocated to a district by the *department* shall be available to the supervisors of the district for all administrative and other expenses of the district under this act and for all administrative and other expenses of the board of adjustment established or to be established by the district.

(2) Seventy-five per cent (75%) of all moneys which may be appropriated to pay the administrative and other expenses of conservation districts shall be allocated by the *department* among all the districts organized, or to be organized, within the ensuing biennial fiscal period, under this act, in direct proportion to the total acreage of land within each district. The remaining twenty-five per cent (25%) of the moneys shall be allocated by the *department* among the districts on such basis of allocation as is fair, reasonable, and in the public interest, giving due consideration to the greater relative expense of carrying on operations within the particular districts because of such factors as unusual topography, unusual severity of erosion, special difficulty of carrying on operations, special volume of work to be done, and the special importance of instituting erosion control operations immediately. In making allocations of the moneys, the *department* shall retain an amount estimated by it to be adequate to enable it to make subsequent allocations in accordance with this section from time to time among districts which may be organized after the initial allocations are made, but within the ensuing biennial fiscal period.

(3) The *department* shall submit to the *department of administration*, on or before the first (1st) day of *August* of each year preceding a regular session of the legislative assembly a request for an appropriation as provided in the budget act. The request for an appropriation shall state, in addition to the requirements of the budget act, the following:

The number and acreages of districts in existence or in process of organization, together with an estimate of the number and probable acreages of the districts which may be organized during the ensuing biennial fiscal period; a statement of the balance of funds, if any, available to the *department* and to the districts; and the estimates of the *department* as to the sums needed for its administrative and other expenses and for allocation among the several districts during the ensuing biennial fiscal period."

Section 96. Section 76-117, R.C.M. 1947, is amended to read as follows:

"76-117. **Change of district name — division and combination of districts.** (1) Petitions for changing the name of a district organized under this act may be filed with the *department*. The petition shall be signed by a majority of the district supervisors and shall state the present name of the district and the proposed new name. If the *department* determines that the proposed new name is not identical with or so similar to that of any other district in the state as to lead to confusion or uncertainty,

it shall present a statement of *that* determination to the secretary of state, who shall issue to the district a certificate, under the seal of the state, evidencing the change of name of the district. Upon the issuance of *the* certificate, the supervisors of the district shall cause due notice to be given of the change of the name of the district.

(2) A petition may be filed with the *department* for the division of any district or the combination of any two (2) or more districts, or for the division of a district and the combination of any divided part thereof with any other district. Any or all of *these* actions may be initiated by the filing of a single petition with the *department*. *The* petition shall be signed by a majority of the members of each of the governing bodies of the affected districts. The *department* shall prescribe the form for *the* petition. Upon the filing of *the* petition, the *department* shall within thirty (30) days give due notice of public hearing upon *the* petition. All qualified electors within the affected districts, and all other interested parties, *are entitled* to attend *the* hearing and be heard. After *the* hearing, the *board of natural resources and conservation upon the record of the hearing* shall determine whether the proposed division, the combination or division and combination of territory is administratively practicable and feasible. In making *the* determination the *board* shall give due regard to the legislative determinations set forth in section 76-102 and to the considerations enumerated in section 76-105, to the extent applicable, relative to determining the practicability and feasibility of creating a district.

(3) If the *board determines* that the proposed division or combination, or division and combination, is administratively practicable and feasible, the *board* shall effect *the* proposed division, combination, or division and combination by filing with the secretary of state a statement certifying the changes made in the boundaries of the affected districts, together with any change in the name of *the* districts. If *the* determination is in the negative the *board* shall make and record *that* determination and shall deny the petition. After six (6) months from the denial of *the* petition, a new petition may be filed.

(4) Upon the division of a district, the supervisors thereof shall allocate the property, rights and liabilities, including contractual obligations, of the district among the resulting parts of the district, giving due consideration to the proportionate size of each divided part, the number of qualified electors and operating units and the degree and extent of soil erosion therein, and other relevant factors. A statement of *the* allocation shall be filed with the *department* within thirty (30) days after the notification of the *board's* determination in favor of the division of the district. Upon the failure of the supervisors to make, or to agree upon, *the* allocation, it shall be made by the *department* after such hearing as the *department considers* necessary, and with due regard for the standards set out in this paragraph for making *the* allocations."

Section 97. Section 81-1401, R.C.M. 1947, is amended to read as follows:

"81-1401. **Classification of lands as state forests.** All lands at present owned by the state, and all that may hereafter be acquired by the state through escheat, exchange, purchase, grant or devise, which are

principally valuable for the timber that is on them, or for the growing of timber or for watershed protection, are hereby classified and designated "state forests," and reserved for forest production and watershed protection."

Section 98. Section 81-1404, R.C.M. 1947, is amended to read as follows:

**"81-1404. Sale of timber — advertising for bids — purchaser's agreement.** Under the direction of the state board of land commissioners, the *department of natural resources and conservation* may sell the timber crop and other crops of the forests, after examination, estimate, appraisal and report, and under such rules as may be established by the board; timber proposed for sale in excess of 100,000 feet board measure shall be advertised in a paper of the county in which the timber is situated for a period of at least thirty (30) days, during which time the *department of natural resources and conservation* shall receive sealed bids up to the hour of the closing of the bids, as specified in the notice of sale. *The department of natural resources and conservation* may reject any or all bids, upon approval of the board; or *it* shall award the sale to the highest responsible bidder. Upon award of sale the purchaser shall execute a formal agreement, approved by the board, which *describes* the area on which the timber is to be cut, the approximate quantity to be cut by species, the rate for each product of each species, and *it* shall stipulate that all timber shall be paid for in advance of cutting, fix a date for termination of the agreement, and define rules of silviculture, cutting, utilization, scaling and slash disposal, and such other rules as in the discretion of the board are essential to the perpetuation of the state forests."

Section 99. Section 81-1406, R.C.M. 1947, is amended to read as follows:

**"81-1406. Breach of timber sale agreement.** For breach of timber sale agreement, the *department of natural resources and conservation* may suspend cutting or removal of the timber, and take such steps as are advisable upon advice and counsel of the attorney general to adjust the breach or to liquidate the state's claim for damages, or *it* may submit the case with full report as to damages sustained by the state to the attorney general for collection on the bond."

Section 100. Section 81-1408, R.C.M. 1947, is amended to read as follows:

**"81-1408. Duties concerning lumber cutting — scaling.** *The department of natural resources and conservation shall* supervise all the *management* of timber before it is cut, and secure the most complete utilization of all forest products consistent with the current *forest management practices*. It shall instruct and supervise the cruisers, forest wardens and scalers in the conduct of their work; and fix and establish the standard practice in timber sales administration. *It* shall require that each merchantable log be scaled by the Scribner decimal C. log rule at the small end on the average diameter inside bark taken to the nearest inch, and that deduction be made for *any* apparent defect, or *it* shall fix and determine converting factors and units of measure for all forest products,

which shall be as nearly as practical equivalent to the Scribner decimal C. log scale. Records of converting factors, units of measure and the scale of logs shall be kept as a permanent public record showing the date of scale or measurement, the designation of the scale and the name of the scaler. Where the volume of timber involved is not in excess of one million (1,000,000) board feet log scale, the *department of natural resources and conservation* may designate each tree to be cut and make a tree scale measurement of all trees to be sold."

Section 101. Section 81-1409, R.C.M. 1947, is amended to read as follows:

"81-1409. **Cooperation with owners and lessees.** For the purpose of more adequately promoting and facilitating the *cooperation*, financial and otherwise, between the state and all of the public and private agencies or individuals therein, the *department of natural resources and conservation* may cooperate with owners or lessees of farm, range, forest, watershed or other uncultivated lands in private and public ownership for the protection from fire of the cultivated agricultural crops or natural resources existing or growing thereon; and also in the conservation and perpetuation of such lands and resources, including the prevention of soil erosion and the regulation of stream flow."

Section 102. Section 81-1411, R.C.M. 1947, is amended to read as follows:

"81-1411. **Duties of department of natural resources and conservation.** The *department of natural resources and conservation* shall, under the direction and control of the state board of land commissioners, do all the field work in the selection, location, examination, appraisement, and reappraisement of state timberlands. *It* shall do all acts required of *it* by the board, and under the direction of *the* board *it* has general charge of the timberlands of the state. *It* shall, under the supervision of the board, execute all matters pertaining to forestry within the jurisdiction of the state; have charge of all firewardens of the state and direct and aid them in their duties; direct the protection, improvement and condition of state forests; take such action as is authorized by law to prevent and extinguish forest, brush and grass fires; enforce the laws pertaining to forest and brushcover lands, and prosecute for any violation of *those* laws. *It* shall furnish notices, *printed* in large letters, calling attention to the danger from forest fires, and to the forest fire and trespass laws, and their penalties. *These* notices shall be posted by the firewarden in conspicuous places in the several counties of the state, and particularly in brush and forest-covered country, at frequent intervals along streams and lakes frequented by tourists, hunters, and fishermen, at established camping sites, and in every post office in the forested region."

Section 103. Section 81-1412, R.C.M. 1947, is amended to read as follows:

"81-1412. **Firewardens.** The *department of natural resources and conservation* shall appoint in such number and localities as *it* considers wise, public-spirited citizens to act as volunteer firewardens. Every sheriff, undersheriff, deputy sheriff, *state fish and game* warden, and

*state fish and game director is ex officio a firewarden, but may not receive any additional compensation by reason of the duties hereby imposed, and they shall be considered paid firewardens under the terms of this act. The supervisors and rangers of the federal forest lands within this state whenever they formally accept the duties and responsibilities of firewardens, may be appointed volunteer firewardens, and have all the powers given to firewardens by this act. The firewardens shall promptly report all fires to the department of natural resources and conservation, take immediate and active steps toward their extinguishment, report any violation of forest laws, and assist in apprehending and convicting offenders."*

Section 104. Section 81-1413, R.C.M. 1947, is amended to read as follows:

"81-1413. **Powers of firewardens.** All firewardens have the power of peace officers to make arrests without warrants for violations, in their presence, of any state or federal forest laws, and a firewarden is *not* liable for civil action for trespass committed in the discharge of his duties. A firewarden who has information which shows, with reasonable certainty, that a person has violated any provision of *those* forest laws, shall immediately take action against the offender, by making complaint before the proper magistrate, or by information to the proper county attorney, and shall obtain all possible evidence pertaining thereto. Failure on the part of a paid firewarden to comply with the duties prescribed in this act is a misdemeanor, and punishable by a fine of not less than twenty dollars (\$20) nor more than one thousand dollars (\$1,000), or imprisonment in the county jail for not less than ten (10) days nor more than twelve (12) months, or by both such fine and imprisonment; and upon his conviction, the district court wherein he is convicted shall *immediately* declare his office vacant, and notify the proper appointing power thereof."

**"89-101.1. Short title.** *This chapter shall be known and may be cited as the "Montana Water Resources Act."*

Section 119. Section 89-101.2, R.C.M. 1947, is amended to read as follows:

**"89-101.2. State necessity and policy.** *It is hereby declared that:*

(1) *The general welfare of the people of Montana, in view of the state's population growth and expanding economy, requires that water resources of the state be put to optimum beneficial use and not wasted.*

(2) *The public policy of the state is to promote the conservation, development and beneficial use of the state's water resources to secure maximum economic and social prosperity for its citizens.*

(3) *The state, in the exercise of its sovereign power, acting through*

the *department of natural resources and conservation* shall *coordinate* the development and use of the water resources of the state so as to effect full utilization, conservation and protection of its water resources.

(4) The development and utilization of water resources, and the efficient, economic distribution thereof, are vital to the people in order to protect existing uses and to assure adequate future supplies for domestic, industrial, agricultural and other beneficial uses.

(5) The water resources of the state must be protected and conserved to assure adequate supplies for public recreational purposes and for the conservation of wildlife and aquatic life.

(6) The public interest requires the construction, operation and maintenance of a system of works for the conservation, development, storage, distribution and utilization of water, which construction, operation and maintenance is a single object and is in all respects for the welfare and benefit of the people of the state.

(7) It is necessary to *coordinate* local, state and federal water resource development and utilization plans and projects through a single agency of state government, *the department of natural resources and conservation*.

(8) The greatest economic benefit to the people of Montana can be secured only by the sound *coordination* of development and utilization of water resources with the development and utilization of all other resources of the state.

(9) To achieve these objectives, and to protect the waters of Montana from diversion to other areas of the nation, it is essential that a comprehensive, *coordinated* multiple-use water resource plan be progressively formulated, to be known as the "state water plan."

Section 120. Section 89-102, R.C.M. 1947, is amended to read as follows:

Section 121. There is a new section to be numbered 89-102.1, R.C.M. 1947, which reads as follows:

89-102.1. **Rules of board.** The board may adopt from time to time, as necessary or expedient, suitable rules for the administration of this chapter.

Section 122. Section 89-103.2, R.C.M. 1947, is amended to read as follows:

"89-103.2. **Powers and duties of department subject to approval of board.** *The department may not acquire by appropriation or otherwise a water right or interest therein and may not acquire real property or an interest therein (except rights of access for the purpose of construction, operation, or maintenance of works) or mortgage or otherwise create a lien on the same or dispose of in any manner water rights or real property or interest therein without prior approval of the board. The department*

*may not construct or cause to be constructed or contract for the construction of works or projects without prior approval of the board. The department may not loan funds to a person or water user association for the purpose of constructing or maintaining works without prior approval of the board."*

Section 123. Section 89-104, R.C.M. 1947, is amended to read as follows:

**"89-104. Acquisition of necessary property.** (1) *The department, subject to the approval of the board under section 89-103.2, may acquire by purchase, or exchange upon terms and conditions and in a manner it considers proper, and acquire by condemnation in accordance with laws applicable to the condemnation of property for public use, any land, rights, water rights, easements, franchises and other property considered necessary for the construction, operation and maintenance of works. Title to property purchased or condemned shall be taken in the name of the department. The department is under no obligation to accept and pay for any property condemned under this act except from the funds provided by this act, and in any proceedings to condemn, orders may be made by the court having jurisdiction of the suit, action or proceeding as may be warranted by law and the facts.*

(2) *In condemnation proceedings brought under the powers of eminent domain for the purpose of carrying out this act, all persons interested in the title of or holding liens upon the property sought to be acquired as disclosed by the public records, shall be made parties, and the court in the action shall partition and distribute the damages awarded, if any, among those persons as their rights appear. If there is controversy between them the court may direct the amount of the damage awarded to be paid into court to abide the result of further appropriate proceedings either at law or in equity.*

(3) *The taking possession of the property sought to be condemned may not be delayed by reason of any dispute between the rival claimants or the failure to join any of them as a party to the proceedings in condemnation."*

Section 124. Section 89-105, R.C.M. 1947, is amended to read as follows:

**"89-105. Power of department to construct works and to act beyond jurisdiction.** (1) *Subject to the approval of the board, the department may construct works, the cost of the construction to be paid wholly by means of or with the proceeds of revenue bonds hereinafter authorized or of a grant to aid in financing the construction from the United States or any instrumentality or agency thereof and of other funds provided under the authority of this act. Before constructing a project, the department shall estimate the cost of the project, the cost of maintaining, repairing and operating it, and the revenues to be derived therefrom, and a project may not be constructed unless, according to the estimates, the revenues to be derived will be sufficient to pay the cost of maintaining, repairing and operating it, and to pay the principal and interest of revenue bonds which may be issued for the cost of the project; however, in connec-*

tion with the issuance of *revenue* bonds, the failure of the *department* to make the estimates required by this section or to make *them* in proper form *does not* affect the validity or enforceability of *those* bonds or of the trust indenture, resolution or other security therefor.

(2) However, should the bid of the lowest responsible bidder on any capital improvement associated with public works as defined in this section exceed the department estimates of the cost of the improvements by more than five per cent (5%), the department shall obtain approval from the *water* user association before the bid is accepted; however, capital improvements of an emergency nature necessary to protect life or property or to supply immediate needs for water do not require such approval.

(3) The purpose of this act is to meet, so far as possible, a state-wide need for the conservation and use of water, through the construction and operation of projects designed for *those* purposes. The *department* may make investigations as *are* necessary to plan and carry out a comprehensive state-wide program of water conservation. The projects to be finally constructed shall qualify as parts of *the* state-wide program and shall be approved by the board upon the showing of their prospective ability to meet, through the sale of water or other services, the cost of operation, maintenance and repair and the amortization of the cost of the construction; however, the failure of the board to determine *the* prospective ability of a project *does not* affect the validity or enforceability of *the* bonds or of the trust indenture, resolution, or other security therefor.

(4) The *department* may exercise any of its powers:

(a) In *an* adjoining state, unless the exercise of *that* power is not permitted under the laws of *that* state or of the United States.

(b) In *a* national forest or public domain of the United States adjoining, or located in, the state of Montana, unless the exercise of *those* powers is not permitted under the laws of the United States.

(c) In *an* adjoining country unless the exercise of *those* powers is not permitted under the laws of *that* country or of the United States or under the treaties between *that* country and the United States."

Section 125. Section 89-106, R.C.M. 1947, is amended to read as follows:

**"89-106. Department may construct irrigation works across streams, highways, etc.** (1) The *department* may construct irrigation works across any stream of water, watercourse, streets, avenues, highways, railways, canals, ditches or flumes in such manner as to afford security to life and property. The *department* shall restore the same, when so crossed or intersected, to its former state, as near as may be, so as not to destroy its usefulness. A company whose railroads *are* intersected or crossed by *the* works shall unite with *the department* in forming the intersection and crossing. If the railroad company and *the department*, or the owners and controllers of *the* property, thing, or franchise so to be crossed cannot agree upon the amount to be paid therefor, or the points or the manner of *the* crossing or intersections, the *amount* shall be ascertained and determined in all respects as herein provided in respect to taking of land for public use.

(2) *This section does not* require the payment to the state or any subdivision thereof, of a sum for the right to cross a public highway with *the* works. A right of way is hereby given, dedicated, and set apart to locate, construct, and maintain *the* works over and through the lands which are the property of this state."

Section 126. Section 89-111, R.C.M. 1947, is amended to read as follows:

"89-111. **Trust indenture, resolution and covenants of board.** (1) In the discretion of the board, a series of *the* bonds may be secured by a trust indenture by and between the board and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the state. Each trust indenture or an executed counterpart thereof shall be filed in the office of the secretary of state of Montana. The filing of a trust indenture or an executed counterpart thereof in the office of the county clerk of the county in which the property covered by *the* trust indenture is located *is* constructive notice of *its* contents to all persons from the time of *the* filing, and *the* recording of *the* trust indenture or *its* contents *is not* necessary.

(2) Either the resolution providing for the issuance of bonds or *the* trust indenture may contain provisions for protecting and enforcing the rights and remedies of the bondholders as *are* reasonable and proper, not in violation of law, including covenants setting forth the duties of the state, the board, and *the department* in relation to the acquisition, construction, improvement, maintenance, operation, repair, and insurance of the works, the custody, safeguarding and application of all moneys, and *it* may provide that the works shall be acquired, constructed, or partly acquired and partly constructed and paid for under the supervision and approval of consulting engineers employed or designated by the *department* and satisfactory to the original purchasers of the bonds issued therefor, their successors, assigns, or nominees, who may be given the right to require that security given by contractors and by any depositary of the proceeds of the bonds or receipts and revenues of the works, or other moneys pertaining thereto, shall be satisfactory to *the* purchasers, successors, assigns, or nominees. *The* resolution or indenture may set forth the rights and remedies of the bondholders and trustee, restricting the individual rights of action of bondholders as is customary in trust indentures, deeds of trusts and mortgages securing bonds or debentures of corporations. No enumeration of particular powers hereby granted shall be construed to impair any general grant of power herein contained. All expenses incurred in carrying out *the* trust indenture may be treated as a part of the cost of maintenance, operation and repairs of the works affected by *the* indenture.

(3) In connection with the issuance of *the* bonds for the purpose of paying in whole, or as supplemented by a grant from the United States or any instrumentality or agency thereof, the cost of *the* works or project, or in order to secure the payment of *the* bonds, the board *may*:

(a) *Pledge* all or any part of the income, profit and revenue of *the* works or project, and all moneys received from the sale or disposal of water, use of water, water storage, or other service, and from the oper-

ation, lease, sale or other disposition of all or any part of *the* works or project, and covenant to pay *the* income, profit and revenue into the appropriate water fund and sinking fund.

(b) *Covenant* against pledging all or any part of the income, profit and revenue of *the* works or project and all moneys received from the sale or disposal of water, use of water, water storage, or other service, and from the operation, lease, sale or other disposition of all or any part of *the* works or project.

(c) *Covenant* against mortgaging all or any part of *the* works or project, or against permitting or suffering any lien thereon.

(d) *Covenant* to fix and establish such prices, rates and charges for water and other services made available in connection with *the* works or project so as to provide at all times funds which will be sufficient, (1) to pay all costs of operation and maintenance of *the* works or project together with necessary repairs thereto, and (2) to meet and pay the principal and interest of all *the* bonds as they severally become due and payable, and (3) to create such reserves for the principal and interest of all *the* bonds and for the meeting of contingencies in the operation and maintenance of *the* works or project as the board *determines*; and make such further covenants as to such prices, rates and charges as the board *determines*.

(e) *Create* special funds, in addition to those required by this act, for moneys reserved for principal and interest on bonds or for the meeting of contingencies in the operation and maintenance of *the* works or project and determine the manner in which, and the depository or depositories in which, *those* funds shall be deposited and the manner in which *they* shall be secured, and it *is* lawful for any bank or trust company incorporated under the laws of the state to act as *that* depository and to furnish such indemnifying bonds or to pledge such securities as required by the board.

(f) *Provide* for the replacement of lost, destroyed or mutilated bonds.

(g) *Covenant* against extending the time for the payment of the principal or interest on any of *the* bonds, directly or indirectly by any means or in any manner.

(h) *Prescribe* and covenant as to the events of default and terms and conditions upon which any or all of *the* bonds shall become or may be declared due before maturity and as to the terms and conditions upon which *the* declaration and its consequences may be waived.

(i) *Covenant* as to the rights, liabilities, powers, and duties arising upon the breach by it of any covenant, condition, or obligation.

(j) *Vest* in a trustee or trustees the right to enforce any covenant made to secure or to pay *the* bonds, or to foreclose any trust indenture in relation thereto, provide for the powers and duties of *the* trustee or trustees, limit the liabilities thereof, and provide the terms and conditions upon which the trustee or trustees or the holders of bonds or any proportion of them may enforce *the* covenant or exercise the right of foreclosure.

(k) *Make* such covenants and do any and all such acts and things as may be necessary or convenient or desirable in order to secure *the* bonds, or, in the absolute discretion of the board, to make *the* bonds more marketable, notwithstanding that *the* covenants, acts or things may not be enumerated or expressly authorized herein.

(1) *Do* all things in the issuance of *the* bonds, and *provide* for their security, not inconsistent with the constitution of Montana."

Section 127. Section 89-113, R.C.M. 1947, is amended to read as follows:

"89-113. **Funds.** The board shall create a fund to be known as "administration fund" and shall also create three (3) separate funds in respect of the bonds of each series, one (1) fund to be known as the "construction fund, series .....", another fund to be known as the "water fund, series .....", and another fund to be known as the "sinking fund, series .....", each fund to be identified by the same series letter or letters as the bonds of *the* series. The moneys in each fund shall be deposited in such depository or depositories and secured in such manner as determined by the board. It is lawful for any bank or trust company incorporated under the laws of this state to act as *the* depository and to furnish such indemnifying bonds or to pledge such securities as may be required by the board. A separate account shall be kept in each construction fund and in each water fund for each project. All expenditures not properly chargeable to the construction fund account or to the water fund account of any one project shall be charged by the *department* in such proportions as it shall determine to the construction fund accounts or to the water fund accounts, as the case may be, of the projects in respect of which *the* expenditures were incurred."

Section 128. Section 89-114, R.C.M. 1947, is amended to read as follows:

"89-114. **Construction funds.** The proceeds of the bonds of each series issued under this act shall be placed to the credit of the appropriate construction fund, which fund shall at all times be kept segregated and set apart from all other funds. There shall also be credited to the appropriate construction fund all accrued interest upon the bonds and the interest received upon the deposits of moneys in *the* fund and moneys received by way of grant from the United States or from any other source for the construction of the works. The moneys in each construction fund shall be paid out or disbursed in such manner as may be determined by the *department*, subject to this act, to pay the cost of the works. Any surplus which may remain in any construction fund after providing for the payment of the cost of the works shall be added to and become a part of the appropriate sinking fund hereinafter provided for."

Section 129. Section 89-115, R.C.M. 1947, is amended to read as follows:

"89-115. **Water funds — rates — sale of water — appeals to board — lease and sale of water rights and property.** (1) *Subject to this act and section 89-103.2, the department may fix and establish the prices, rates and charges at which the resources and facilities made available*

under this act *may* be sold and disposed of; enter into contracts and agreements, and do *those* things which in its judgment are necessary, convenient or expedient for the accomplishment of the purposes and objects of this act, under such general regulations and upon such terms, limitations and conditions as it *prescribes*; *the department shall* enter into the contracts and fix and establish *the* prices, rates and charges so as to provide at all times funds which will be sufficient to pay all costs of operation and maintenance of the works authorized by this act, together with necessary repairs thereto, and which will provide at all times sufficient funds to meet and pay the principal and interest of all bonds or loans as they severally become due and payable; this act *does not* authorize any change, alteration or revision of *those* rates, prices or charges as established by any contract entered into under this act except as provided by *the* contract.

(3) A contract made by the *department* for the sale of water, use of water, water storage or other service, or for the sale of any property or facilities, shall provide that in the event of a failure or default in the payment of moneys specified in the contract to be paid to the *department*, the *department* may, upon notice as is prescribed in the contract, terminate the contract and all obligations thereunder. The act of the *department* in ceasing on default to furnish or deliver water, use of water, water storage or other service under the contract *does not* deprive the *department* of, or limit any remedy provided by the contract or by law for the recovery of moneys due or which may become due under the contract.

(4)(a) A person aggrieved by a decision of the *department* to terminate any contract under subsection (3) may appeal to the board and be heard thereon by filing written notice of the appeal with the *department* within ten (10) days after receiving notice of termination of the contract from the *department*. (5) Subject to the approval of the board under section 89-103.2, the *department* may sell, transfer to water user associations, abandon or otherwise dispose of any rights of way, easements or property when it determines that they are no longer needed for the purposes of this act, or lease or rent the same or otherwise take and receive the income or profit and revenue therefrom. A determination shall be made by the *department* as to the market value of rights of way, easements or property

to be sold, transferred, abandoned or otherwise disposed of. All income or profit and revenue of the works and all moneys received from the sale or disposal of water, use of water, water storage, or other service, and from the operation, lease, sale or other disposition of the works, property and facilities acquired under this act, shall be deposited to the state general fund."

"89-118. **Powers and duties of department — actions at law.** (1) *The department shall keep full and complete accounts concerning all matters and things relating to the works and annually shall prepare balance sheets and income and profit and loss statements showing the financial condition of each project, and file copies thereof with the secretary of state. All books and papers pertaining to all matters provided for in this act shall at all reasonable times be open to the inspection of any party interested or any citizen of the state. Except as otherwise provided in this act, the department has full charge and control of the construction, oper-*

ation and maintenance of the works and the collection of all rates, charges and revenues of whatsoever character therefrom. The *department* shall proceed immediately with the construction of the works upon funds being made available therefor and shall prosecute *the* works to completion as rapidly as possible. The *department, with the approval of the board, may* sell, lease and otherwise dispose of all waters which may be impounded under this act, and *the* water may be sold for the purpose of irrigation, development of power, watering of stock or any other purpose. To the extent that it may be necessary to carry out this act, and subject to a compliance with the other provisions of this act, the *department has* full control of all the water of the state not under the exclusive control of the United States and not vested in private ownership, and it shall take such steps as may be necessary to appropriate and conserve the same for the use of the people.
